Appreciating Our Cosmic Bonds Chidi Giniji, 2008-09 Appreciating Our Cosmic Bonds introduces the philosophy and definition behind the term Re humanism and how this peaceful and honest way of life could touch the people of this world regardless of religion class or race to enhance a better universe Chidi Giniji instills a wakeup call for mankind by introducing an innovative way to view our universe where people question the meaning of life and earnestly want to know why we are here on earth and why we act the way we do While defining his theory for achieving a harmonious planet Giniji emphasizes that re humanists of diverse backgrounds can co exist peacefully because they recognize the simple truth that we are all children of one human family in one world with one origin and one destiny influenced by one ultimate power In a universe where negativity often abounds a Re humanist regards fellow human beings and all creation with due respect and empathy while holding his or her own being in high esteem and dignity a truly uplifting way to live a life and shape a destiny Appreciating Our Cosmic Bonds encourages those who wish to change the world through their own actions making each new day a day of personal reassessment

Human Rights Makau Mutua, 2013-07-03 In 1948 the United Nations adopted the Universal Declaration of Human Rights and with it a profusion of norms processes and institutions to define promote and protect human rights Today virtually every cause seeks to cloak itself in the righteous language of rights But even so this universal reliance on the rights idiom has not succeeded in creating common ground and deep agreement as to the scope content and philosophical bases for human rights Makau Mutua argues that the human rights enterprise inappropriately presents itself as a guarantor of eternal truths without which human civilization is impossible Mutua contends that in fact the human rights corpus though well meaning is a Eurocentric construct for the reconstitution of non Western societies and peoples with a set of culturally biased norms and practices Mutua maintains that if the human rights movement is to succeed it must move away from Eurocentrism as a civilizing crusade and attack on non European peoples Only a genuine multicultural approach to human rights can make it truly universal Indigenous non European traditions of Asia Africa the Pacific and the Americas must be deployed to deconstruct and to reconstruct a universal bundle of rights that all human societies can claim as theirs

Nature's Web Peter Marshall, 2015-02-12 This powerful book provides the first

comprehensive overview of the intellectual roots of the worldwide environmental movement from ancient religions and philosophies to modern science and ethics and synthesizes them into a new philosophy of nature in which to ground our moral values and social action It traces the origins and evolution of the dominant worldview that has built our industrial technocratic man centered civilization and brought us to the current ecological crisis At the same time it uncovers an alternative cultural tradition in the world s different religions and philosophies and describes how these ideas are now surfacing and coalescing to form an ecological sensibility and a new vision of nature which recognizes the inter relatedness of all living things Finally this book integrates these varied traditions with modern physics and the science of ecology into a larger philosophical whole that provides the environmental movement with a comprehensive vision of an organic and sustainable society in harmony with nature As ecological disasters continue to threaten our planet becoming worse with every passing moment of indifference it has become clear that we must take action We must change our relationship with nature and return to the days when our lives were intimately connected to and dependent upon the natural world Nature s Web lays the foundations for that change by explaining where our complex ideas about nature come from why they are wrong and what we can do to change them

An Introduction to the Study of the Mind Walter Scott Athearn, 1921 [The Sovereign Psyche](#) Ezra Aharone, 2016-04-30 The Sovereign Psyche is not just the title of the book More importantly The Sovereign Psyche is the motivating consciousness intellect and willpower that is necessary to materialize what the book defines as Self Authentic Freedom as opposed to Chattel Freedom Chattel freedom is when the value of a people is predicated upon the extent to which they serve the interests and institutions of others As such this work asserts that there is no such thing as intellectual or institutional equality and that Black African people have been unknowingly thrust into an intellectual and institutional war where second place finishers either experience varying degrees of chattel freedom or they could end up dead Regardless of the issue genuine solutions entail what we as Black

African people intellectually and institutionally do for ourselves If Black Lives Matter we must channel the end uses of our intellect and the resources of our institutions to not only prove and enforce it but also leverage powers to penalize and or repudiate violators Although this work centers upon Black African people the sovereign functions and frameworks herein are universal in application being that today's world rotates upon systems of sovereignty and power not beliefs in democracy or equality In this context the sovereign concepts and criteria presented are far more rational than radical The central question is to what extent will Black African people harness the willpower and employ the intellect of The Sovereign Psyche to actualize our own systems and institutions of self authentic freedom government and development without apology or permission This work offers the ideological apparatus to make this possible just as others are doing all around the globe
