Lukacs Road To God The Early Criticism Against Its Pre Marxist Background:

Lukacs's Road to God Michael Holzman, 1985 **A World Abandoned by God** Susanna Lee, 2006 The idea of God in one form or another is a fundamental part of human experience a given almost And yet for over one hundred and fifty years we have lived in a world become increasingly secular The goal of this book is to reconcile these facts or rather to examine their interaction and in so doing to understand the idea and the experience of secularism Concentrating on five canonical French and Russian novels of the nineteenth century Stendahl's *The Red and the Black* Gustave Flaubert's *Madame Bovary* Ivan Turgenev's *A Nest of Gentry* Jules Barbey d'Aureville's *Bewitched* and Fyodor Dostoevsky's *Demons* and using the instruments of narrative theory this book offers a groundbreaking critical foundation for understanding both the evolution of secular culture and the new role of the individual in modern ethical political and spiritual contexts The Rise of Eurocentrism Vassilis Lambropoulos, 2019-10-08 In the controversy over political correctness the canon and the curriculum the role of Western tradition in a post modern world is often debated To clarify what is at stake Vassilis Lambropoulos traces the ideology of European culture from the Reformation focusing on a key element of Western tradition the act of interpretation as a distinct practice of understanding and a civil right Championed by Protestants insisting on independent interpretation of scripture this ideal of autonomy ushered in the era of modernity with its essentialist philosophy of universal man and his aesthetic understanding of the world After explaining the dominance of European culture through the combined archetypes of Hebraism reason and morality and Hellenism spirit and art Lambropoulos shows how the rule of autonomy has been transformed into the aesthetic disinterested contemplation of things in themselves Arguing that it is time to restore the socio political dimension to the movement of autonomy he proposes that a genealogy of the Hebraic Hellenic archetypes can help us evaluate more recent models like the Afrocentric one and redefine the controversy surrounding education Eurocentrism and cultural politics Lukácsian film theory and cinema Ian Aitken, 2021-06-15 Lukácsian film theory and cinema explores Georg Lukács's writings on film The Hungarian Marxist critic Georg Lukács is primarily known as a literary theorist but he also wrote extensively on the cinema These writings have remained little known in the English speaking world because the great majority of them have never actually been translated into English until now Aitken has gathered together the most important essays and the translations appear here often for the first time This book thus makes a decisive contribution to understandings of Lukács within the field of film studies and in doing so also challenges many existing preconceptions concerning his theoretical position For example whilst Lukács's literary theory is well known for its repudiation of naturalism in his writings on film Lukács appears to advance a theory and practice of film that can best be described as naturalist Lukácsian film theory and cinema is divided into two parts In part one Lukács's writings on film are explored and placed within relevant historical and intellectual contexts whilst part two consists of the essays themselves This book will be of considerable interest to scholars and students working within the fields of film studies literary studies intellectual history

media and cultural studies It is also intended to be the final volume in a trilogy of works on cinematic realism which includes the author's earlier European film theory and cinema 2001 and Realist film theory and cinema 2006 **The Critical**

Mythology of Irony Joseph A. Dane, 2011 An ambitious theoretical work that ranges from the age of Socrates to the late twentieth century this book traces the development of the concepts of irony within the history of Western literary criticism Its purpose is not to promote a universal definition of irony whether traditional or revisionist but to examine how such definitions were created in critical history and what their use and invocation imply Joseph A Dane argues that the diverse supposed forms of irony Socratic rhetorical romantic dramatic to name a few are not so much literary elements embedded in texts awaiting discovery by critics as they are notions used by critics of different eras and persuasions to manipulate those texts in various often self serving ways The history of irony Dane suggests runs parallel to the history of criticism and the changing definitions of irony reflect the changing ways in which readers and critics have defined their own roles in relation to literature Probing and provocative *The Critical Mythology of Irony* will appeal to a broad spectrum of critics and scholars particularly those concerned with the historical basis of critical language and its political and educational implications

Forms of Modernity Rachel Lynn Schmidt, 2011-01-01 It's a critical cliché that Cervantes' Don Quixote is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In *Forms of Modernity* Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes' masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt's discussion covers the views of well known thinkers such as Friedrich Schlegel José Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists' examinations of Cervantes' fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing from both intellectual and literary history *Forms of Modernity* richly explores the development of the categories and theories that we use today to analyze and understand novels *Forms of Modernity* Rachel Schmidt, 2011-04-09 It's a critical cliché that Cervantes' Don Quixote is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In *Forms of Modernity* Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes' masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt's discussion covers the views of well known thinkers such as Friedrich Schlegel José Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists' examinations of Cervantes' fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing from both intellectual and literary history *Forms of Modernity* richly explores the development of the categories and theories that we use today to

Maps and Mirrors Steve Martinot, 2001 *Maps and Mirrors* explores the links and gaps between the aesthetic and the political at the intersection of philosophy and literature Testing the major voices of aesthetic and literary theory it raises important questions about the implicit political contexts and commitments of thinkers from Kant to de Man Taken together the essays provide a tour of the complexities and richness of contemporary modes of critique **Lukacs's Road to God**
