Lure Of Perfection:

Graphic Culture Jillian Lerner, 2018-07-30 Nineteenth century Paris is often celebrated as the capital of modernity. However, this story is about cultural producers who were among the first to popularize and profit from that idea. *Graphic Culture* investigates the graphic artists and publishers who positioned themselves as connoisseurs of Parisian modernity in order to market new print publications that would amplify their cultural authority while distributing their impressions to a broad public. Jillian Lerner's exploration of print culture illuminates the changing conditions of vision and social history in July Monarchy Paris. Analyzing a variety of caricatures, fashion plates, celebrity portraits, city guides, and advertising posters from the 1830s and 1840s, she shows how quotidian print imagery began to transform the material and symbolic dimensions of metropolitan life. The author's interdisciplinary approach situates the careers and visual strategies of illustrators such as Paul Gavarni and Achille Devéria in a broader context of urban entertainments and social practices; it brings to light a rich terrain of artistic collaboration and commercial experimentation that linked the worlds of art, literature, fashion, publicity, and the theatre. A timely historical meditation on the emergence of a commercial visual culture that prefigured our own, *Graphic Culture* traces the promotional power of artistic celebrities and the crucial perceptual and social transformations generated by new media.

The Green Halo Erazim Kohák, 2011-04-15 *The Green Halo* is a highly readable introduction to the vast field of contemporary ecological thought. It is a basic education in environmental philosophy and a welcome propaedeutic for understanding the most crucial problem facing humankind in the coming century: How can humans live on this earth so that they do not destroy the preconditions for their own existence?

The Judgment of Paris Ross King, 2012-01-11 Another fascinating book by the author of Brunelleschi's Dome and Michelangelo and the Pope's Ceiling, a saga of artistic rivalry and cultural upheaval in the decade leading to the birth of Impressionism. If there were two men who were absolutely central to artistic life in France in the second half of the nineteenth century, they were Edouard Manet and Ernest Meissonier. While the former has been labelled the Father of Impressionism and is today a household name, the latter has sunk into obscurity. It is difficult now to believe that in 1864, when this story begins, it was Meissonier who was considered the greatest French artist alive and who received astronomical sums for his work, while Manet was derided for his messy paintings of ordinary people and had great difficulty getting any of his work accepted at the all-important annual Paris Salon. Manet and Meissonier were the Mozart and Salieri of their day: one a dangerous challenge to the establishment, the other beloved by rulers and the public alike for his painstakingly meticulous oil paintings of historical subjects. Out of the fascinating story of their parallel careers, Ross King creates a lens through which to view the political tensions that dogged Louis Napoleon during the Second Empire, his ignominious downfall, and the bloody Paris Commune of 1871. At the same time, King paints a wonderfully detailed and vivid portrait of life in an era of radical social change. When Manet painted *Dejeuner sur l'herbe* or *Olympia*, he shocked not only with his casual brushstrokes but with his subject matter: top-hatted white-collar workers and their mistresses were not

considered suitable subjects for Art Ross King shows how benign as they might seem today these paintings changed the course of history The struggle between Meissonier and Manet to see their paintings achieve pride of place at the Salon was not just about artistic competitiveness it was about how to see the world Full of fantastic tidbits of information and a colourful cast of characters that includes Baudelaire Courbet and Zola with walk on parts for Monet Renoir Degas and Cezanne The Judgment of Paris casts new light on the birth of Impressionism and takes us to the heart of a time in which the modern French identity was being forged
