Just War Thinkers Revisited Daniel R. Brunstetter, Cian O'Driscoll, 2024-11-25 This book comprises essays that focus on a range of thinkers who challenge the boundaries of the just war tradition The ethics of war scholarship has become a rigid and highly disciplined activity closely associated with a very particular canon of thinkers This volume moves beyond this by presenting thinkers not typically regarded as part of that canon but who have interesting and potentially important things to say about the ethics of war The book presents 20 profile essays on an eclectic cast of heretics humanists and radicals from ancient Greece to the twenty first century who lived through and theorized about violence The book asks how ethics of war scholars might benefit from engaging with them Some of these thinkers engage directly with to augment or criticize the just war tradition while others contribute to military thinking across the ages pushing the boundaries of what was acceptable in war Many proffer alternative moral frameworks regarding the legitimacy of political violence The present volume thus invites scholars to reconsider the ethics of war in a way that challenges the standard delineation between just war theory realism and pacifism and to reflect on how those positions might inform our own approach to these matters This book will be of much interest to students of just war theory ethics of war war studies and International Relations

Uncivil Disobedience David M. Gides,2022-12-13 This book addresses the need for theological reflection on uncivil disobedience Existing scholarship in theology and politics mostly treats church state relations theoretically with studies in non violent resistance or civil disobedience or in other ways largely assuming traditional forms of governance and means of protest all while paying little to no attention to post modern political philosophies Recent eruptions of uncivil disobedience oftentimes involving violence like we have seen with Antifa Black Lives Matter protests the storming of the U S Capitol Building and in the actions of other right wing leftist and religious groups assume new ways of protesting and new forms of organizing or mobilizing Additionally these groups and their activities are often informed by post modern philosophies These new political dynamics present an opportunity for theologians to produce scholarship in response After establishing philosophical underpinnings related to uncivilly disobedient action the contributors cover traditional historical and theological responses to political unrest as a foundation for considering or evaluating attempts to address theologically present day manifestations of uncivil disobedience

Suffering, Politics, Power Cynthia Halpern,2002-01-03 Suffering Politics Power argues that human suffering on a global scale constitutes the most urgent and least understood question of contemporary politics and political theory In the modern age the experience of suffering is primarily a political problem constructed out of crucial conflicting perspectives The book draws on a genealogy of suffering through the conflicting perspectives of four major political theorists Martin Luther Thomas Hobbes Jean Jacques Rousseau and Friedrich Nietzsche Although supplying contradictory accounts of the nature of suffering

and human response to it these theorists when examined together provide a historical foundation for the political structures of our time and a trajectory for the problematic of suffering which defies all limits This book works to foster a contemporary political response to suffering addressing the techniques of its production and representation and the dilemmas of ascertaining causes and responsibilities

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1976 **War, Religion and Empire** Andrew Phillips, 2010-12-23 What are international orders how are they destroyed and how can they be defended in the face of violent challenges Advancing an innovative realist constructivist account of international order Andrew Phillips addresses each of these questions in War Religion and Empire Phillips argues that international orders rely equally on shared visions of the good and accepted practices of organized violence to cultivate cooperation and manage conflict between political communities Considering medieval Christendom s collapse and the East Asian Sinosphere s destruction as primary cases he

further argues that international orders are destroyed as a result of legitimation crises punctuated by the disintegration of prevailing social imaginaries the break up of empires and the rise of disruptive military innovations He concludes by considering contemporary threats to world order and the responses that must be taken in the coming decades if a broadly liberal international order is to survive

Christianity and Politics C. C. Pecknold, 2010-08-06 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings on the country It is because the relatively new form of power we call the nation state arose out of a Western political imagination steeped in Christianity In this brief guide to the history of Christianity and politics Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time participation and communion with God and neighbor The ancient view of the Church as the mystical body of Christ is singled out in particular as the author traces shifts in its use and meaning throughout the early medieval and modern periods shifts in how we understand the nature of the person community and the moral conscience that would give birth to a new relationship between Christianity and politics While we have many accounts of this narrative from either political or ecclesiastical history we have few that avoid the artificial separation of the two This book fills that gap and presents a readable concise and thought provoking introduction to what is at stake in the contentious relationship between Christianity and politics
