Lying Down Together Law Metaphor And Theology Rhetoric Of The Human:

The Rhetoric of the Human Sciences John S. Nelson, Allan Megill, Deirdre N. McCloskey, 1987 Opening with an overview of the renewal of interest in rhetoric for inquiries of all kinds this volume addresses rhetoric in individual disciplines mathematics anthropology psychology economics sociology political science and history Drawing from recent literary theory it suggests the contribution of the humanities to the rhetoric of inquiry and explores communications beyond the academy particularly in women's issues religion and law The final essays speak from the field of communication studies where the study of rhetoric usually makes its home

Lying Down Together Milner S. Ball, 1985 Law is understood interpreted and practiced by metaphor The presently dominant conceptual metaphor for law is that law is the bulwark of freedom Milner S. Ball in this experimental statement invites the reader to consider an alternate metaphor law is a medium of human solidarity A more humane metaphor for law Ball's alternative connotes an open ended conductor allowing for exchange and flow rather than the defensive wall or barrier associated with bulwark To discover how this alternate metaphor may take concrete form Ball explores the law of the sea and coast while basing his discussion in broad theological terms This provocative analysis of jurisprudence will interest academic and practicing lawyers theologians philosophers and political scientists concerned with legal studies Law as bulwark suggests a static defensive posture that is all divisions and boundaries a contradiction to the meaning and purpose of law as well as destructive of human community Law as medium illuminated by Ball's analysis of international federal and state marine law releases these barriers and promotes a flow of dialogue When viewed in this way law serves the dynamics of a transfigured society The metaphorical context of law as bulwark depicted by Ball is Fortress America the metaphorical context of law as medium is the Peaceable Kingdom Ball examines the possibilities and practice of law as the medium of the Peaceable Kingdom through a theological perspective based on a nonreligious political theology of the natural The author also draws imaginatively upon ecology physics art literature ethics and rhetoric to persuade the reader to join him in his hope for a jurisprudence more authentically human and less inherently victimizing than that of the legal system today

The Making Sense of Politics, Media, and Law Gary Watt, 2023-04-13 From Trump's make America great again to Johnson's build back better performative politicians use The Making Sense to persuade their public audiences Law makers do it too A courtroom trial is a truth factory in which facts are not found but forged The court of popular opinion is another such factory though its processes are often flawed and its products faulty Where courts of law aim to make civil peace trial by Twitter makes civil strife Even in mainstream media journalists make news for public consumption so that all news is to an extent fake news In a world of making how can we separate craft from craftiness With insights from disciplines including law politics rhetoric media studies psychology sociology marketing and performance studies The Making Sense of Politics Media and Law offers a constructive way to approach controversies from transgender identity to cancel culture This title is also available as open access on Cambridge Core

Metaphor II Jean-Pierre

Noppen, Edith Hols, 1990-01-01 Metaphor though not now the scholarly mania it once was remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis Warren Shibles *Metaphor An Annotated Bibliography and History* Bloomington Ind 1971 recorded the initial interest Then *Metaphor A Bibliography of Post 1970 Publications* published by John Benjamins continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language Five years later there is a need for a report on the newest thinking and tendencies in the field This need is fulfilled by *Metaphor II* which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources including many sometimes hard to find publications from Eastern Europe *Metaphor II* systematically collects references of books articles and papers published between 1985 and May 1990 and includes for completeness corrections and additions to the earlier bibliographies Abstracts are given for many of the titles while four indices disciplines semantic fields metaphor theory and names multiply the number of access points to the information

The Rhetoric of Reason James Crosswhite, 2012-11 Responding to skeptics within higher education and critics without James Crosswhite argues powerfully that the core of a college education should be learning to write a reasoned argument A trained philosopher and director of a university wide composition program Crosswhite challenges his readers teachers of writing and communication philosophers critical theorists and educational administrators to reestablish the traditional role of rhetoric in education To those who have lost faith in the abilities of people to reach reasoned mutual agreements and to others who have attacked the right or wrong model of formal logic this book offers the reminder that the rhetorical tradition has always viewed argumentation as a dialogue a response to changing situations an exchange of persuading listening and understanding Crosswhite's aim is to give new purpose to writing instruction and to students writing to reinvest both with the deep ethical interests of the rhetorical tradition In laying out the elements of argumentation for example he shows that claiming questioning and giving reasons are not simple elements of formal logic but communicative acts with complicated ethical features Students must learn not only how to construct an argument but the purposes responsibilities and consequences of engaging in one Crosswhite supports his aims through a rhetorical reconstruction of reason offering new interpretations of Plato and Aristotle and of the concepts of reflection and dialogue from early modernity through Hegel to Gadamer And in his conclusion he ties these theoretical and historical underpinnings to current problems of higher education the definition of the liberal arts and especially the teaching of written communication

Towards a Rhetoric of Everyday Life Martin Nystrand, John Duffy, 2003 Rhetoric has traditionally studied acts of persuasion in the affairs of government and men but this work investigates the language of other non traditional rhetors including immigrants women urban children and others who have long been on the margins of civic life and political forums

The Rhetoric of Economics Deirdre N. McCloskey, 1998-05-15 A classic in its field this pathbreaking book humanized the scientific rhetoric of economics to reveal its literary soul Economics needs to admit that it

like other sciences works with metaphors and stories Its most mathematical and statistical moments are properly dominated by comparison and narration that is to say human persuasion The book was McCloskey s opening move in the development of a humanomics and unification of the sciences and the humanities on the field of ordinary business life Media and Sovereignty Monroe E. Price,2002 A study of the relationship between international media regulations and efforts by nation states to assert sovereignty and shape media at home and abroad *Overtured* Clarke Rountree,2024-12-17 A timely and lively summary and analysis of the Supreme Court s justifications for overruling nearly 300 prior rulings in its history An audacious US Supreme Court is overturning a number of long standing precedents and *Overtured* offers a lively account of the court s history of overturning prior cases and examples and analyses of 300 cases overruled in its history The immense controversy surrounding the case of *Dobbs v Jackson Women s Health Organization* in 2022 which overruled *Roe v Wade* and erased the constitutional right to abortion in the United States has focused public attention on how and why the Supreme Court knocks down long established precedents In his vivid and accessible style scholar Clarke Rountree recounts the rhetorical pirouettes and linguistic acrobatics the court has deployed to explain its reversal of *Dobbs* and numerous other landmark decisions He reviews strategies the court uses to undermine a previous court s standing without undermining its own He analyzes overrulings across time by type constitutional cases versus statutory and common law cases by the ages of the overturned precedents with changes in the court s membership and through other variables Rountree gives engrossing accounts of pivotal overrulings in the past such as when Lincoln s Treasury Secretary Salmon Chase used the Legal Tender Act in 1862 to raise money for the Civil War then ruled the same law unconstitutional in 1870 when he served as chief justice Rountree retells Thomas Edison s attempt to monopolize the burgeoning film industry which was stopped only when the Supreme Court overturned an earlier patent rights case in 1917 Finally Rountree applies his myriad insights to the politically fraught *Dobbs* case *Overruled* makes a valuable contribution to law rhetoric politics and history and readers interested in the role and function of America s highest court will find Rountree s account fast paced lively and engaging **Textual**
