Machine Politics and Money in Elections in New York City William Mills Ivins, 1887 [Machine Politics and Money in Elections in New York City](#) William Mills Ivins, 1887 **Machine Politics and Money in Elections in New York City / by William M. Ivins** William Mills Ivins, 2004-01-01 **New York Exposed** Daniel Czitrom, 2016-04-07 Animated by a vivid cast of characters ranging from the bosses of Tammany Hall to prostitutes and counterfeiters to the do gooders determined to change business as usual Daniel Czitrom's New York Exposed offers an unforgettable portrait of a formative moment when muckraking journalism and urban reform were beginning to alter the American social and political landscape **The Quarterly Review** William Gifford, Sir John Taylor Coleridge, John Gibson Lockhart, Whitwell Elwin, William Macpherson, William Smith, Sir John Murray (IV), John Murray, Rowland Edmund Prothero (Baron Ernle), George Walter Prothero, 1890 [The Money Machines](#) Clifton K. Yearley, Professor Clifton K Yearley, 1970-01-01 The Money Machines advances the provocative thesis that the mechanisms for financing state and local government in the Northern United States from 1860 to 1920 were deeply enmeshed with those financing the extralegal often illegal activities of the major political parties complicating reform or change mandated by the post Civil War breakdown of the North's legal fiscal machinery Few reformers then recognized the interdependence of government and the party money machines fewer still acknowledged the effectiveness or social value of the extralegal machines On the contrary basic fiscal reform in this period was characterized by attempts to exorcise politics in any form which in turn provoked counteraction from politicians whose organizations had the same need for efficient reliable revenue systems as did governments Dr Yearley demonstrates the failure of the established legal money machines to cope with the demands of postwar governments facing industrialization and urbanization He characterizes the revolt of old and new middle classes against fiscal inequity and inefficiency and shows how much of the North's new wealth escaped taxation altogether while much of its old wealth similarly went into hiding Because of its forbidding complexities tax reform was sustained by a small group of experts from the middle class whose sincerity and competence were unquestionable but whose reformism evidenced the peculiar views and prejudices of their class Here therefore the graft grabbing politician is presented in a fresh light In his efforts to maintain his sources of revenue and power he emerges as a vital instrument of mass democracy of the new politics of the ever growing urban lower classes as well as their principal source of government welfare or support The author reevaluates the Gilded Age politician in several important ways principally regarding his power relationship to the business communities and his ability to perform his job well despite middle class disdain and continual allegations of fraud and incompetence Further Dr Yearley shows that often politicians were ahead of reformers in their fiscal thinking in recognizing and utilizing taxation of income rather than of property The volume considers in some depth several individual reformers revealing them to be among other things prototypes of present academic experts used by government to manage problems too complex for laymen The book then proceeds to explain

essential changes made in local fiscal systems and which of these were to be the most effective explanations that are of particular interest in view of the continuing crises in state and local financing today The Decline of Popular Politics Michael E. McGerr, 1988-05-19 In the 1984 presidential election only half of the eligible electorate exercised its right to vote Why does politics no longer excite many of not most Americans Michael McGerr attributes the decline in voting in the American North to the transformation of political style after the Civil War The Decline of Popular Politics vividly recreates a vanished world of democratic ritual and charts its disappearance in the rapid change of industrial society A century ago political campaigns meant torchlight parades spectacular pageants staged by opposing parties and crowds of citizens attired in military dress or proudly displaying their crafts at well attended rallies The intense partisanship of presidential campaigns and party newspapers made political choice easy for people from all walks of life In the late 1860s and 1870s however the rise of liberalism led to a rejection of partisanship by the press and a move towards educational rather than spectacular electioneering This style then lost out at the turn of the century to the sensational journalism of Joseph Pulitzer and William Randolph Hearst and the advertised campaigning of Mark Hanna and other politicians McGerr shows how these new developments made it increasingly difficult for many Northerners to link their political impulses with political action By the 1920s Northern politics resembled our own public life today A vital democratic culture had yielded to advertised campaigns an emphasis on personalities rather than issues or partisanship and low voter turnout **Five Points** Tyler

Anbinder, 2012-06-05 The very letters of the two words seem as they are written to redden with the blood stains of unavenged crime There is Murder in every syllable and Want Misery and Pestilence take startling form and crowd upon the imagination as the pen traces the words So wrote a reporter about Five Points the most infamous neighborhood in nineteenth century America the place where slumming was invented All but forgotten today Five Points was once renowned the world over Its handful of streets in lower Manhattan featured America's most wretched poverty shared by Irish Jewish German Italian Chinese and African Americans It was the scene of more riots scams saloons brothels and drunkenness than any other neighborhood in the new world Yet it was also a font of creative energy crammed full of cheap theaters and dance halls prizefighters and machine politicians and meeting halls for the political clubs that would come to dominate not just the city but an entire era in American politics From Jacob Riis to Abraham Lincoln Davy Crockett to Charles Dickens Five Points both horrified and inspired everyone who saw it The story that Anbinder tells is the classic tale of America's immigrant past as successive waves of new arrivals fought for survival in a land that was as exciting as it was dangerous as riotous as it was culturally rich Tyler Anbinder offers the first ever history of this now forgotten neighborhood drawing on a wealth of research among letters and diaries newspapers and bank records police reports and archaeological digs Beginning with the Irish potato famine influx in the 1840s and ending with the rise of Chinatown in the early twentieth century he weaves unforgettable individual stories into a tapestry of tenements work crews leisure pursuits both licit and otherwise and riots

and political brawls that never seemed to let up Although the intimate stories that fill Anbinder s narrative are heart wrenching they are perhaps not so shocking as they first appear Almost all of us trace our roots to once humble stock Five Points is in short a microcosm of America **Bulletin of the Public Library of the City of Boston** Boston Public Library,1889 **The Spectator** ,1889 A weekly review of politics literature theology and art **List of Works Relating to Political Parties in the United States** Library of Congress. Division of Bibliography,1907 **Select List of Books with Reference to Periodicals on Reciprocity with Canada** Library of Congress. Analyzing Electoral History Jerome M. Clubb,William H. Flanigan,Nancy H. Zingale,1981-10-01 This book deals with the problems that arise in the analysis of electoral history the sources for which are fragmentary or biased or plagued with discrepancies The contributors discuss ways of uncovering new previously untapped data detecting vote fraud by using computer readable sources and using new statistical techniques for working with quantitative data Outside of its specialist subject it is a much needed overview for the historian an informative introduction to the use of electoral statistics Canadian Journal of History Vol 18 No 3 December 1983 **"The" Quarterly Review** ,1890 **Bulletin of Books in the Various Departments of Literature and Science Added to the Public Library of Cincinnati During the Year...** ,1888

Annual List of Books Added to the Public Library of Cincinnati Public Library of Cincinnati and Hamilton County,1888 **Practicing Democracy** Daniel Peart,Adam I. P. Smith,2015-07-07 In Practicing Democracy eleven historians challenge conventional narratives of democratization in the early United States offering new perspectives on the period between the ratification of the Constitution and the outbreak of the Civil War The essays in this collection address critical themes such as the origins evolution and disintegration of party competition the relationship between political parties

and popular participation and the place that parties occupied within the wider world of United States politics In recent years historians of the early republic have demolished old assumptions about low rates of political participation and shallow popular partisanship in the age of Jefferson raising the question of how if at all Jacksonian politics departed from earlier norms This book reaffirms the significance of a transition in political practices during the 1820s and 1830s but casts the transformation in a new light Whereas the traditional narrative is one of a party driven democratic awakening the contributors to this volume challenge the correlation of party with democracy They both critique constricting definitions of legitimate democratic practices in the decades following the ratification of the Constitution and emphasize the proliferation of competing public voices in the buildup to the Civil War Taken together these essays offer a new way of thinking about American politics across the traditional dividing line of 1828 and suggest a novel approach to the long standing question of what it meant to be part of We the People Contributors Tyler Anbinder George Washington University Douglas Bradburn Fred W Smith National Library for the Study of George Washington at Mount Vernon John L Brooke The Ohio State University Andrew Heath University of Sheffield Reeve Huston Duke University Johann N Neem Western Washington University Kenneth Owen University of Illinois Springfield Graham A Peck Saint Xavier University Andrew W Robertson Graduate Center of the City University of New York and Lehman College CUNY
