Katherine Harmon Courage,2014-11-25 A pleasant chatty book on a fascinating subject Kirkus Reviews Octopuses have been captivating humans for as long as we have been catching them Yet for all of our ancient fascination and modern research we still have not been able to get a firm grasp on these enigmatic creatures Katherine Harmon Courage dives into the mystifying underwater world of the octopus and reports on her research around the world She reveals for instance that the oldest known octopus lived before the first dinosaurs that two thirds of an octopus s brain capacity is spread throughout its arms meaning each literally has a mind of its own and that it can change colors within milliseconds to camouflage itself yet appears to be colorblind

of criminal activity During her years as a consultant to the Italian government agency responsible for combating organized crime Letizia Paoli was given unparalleled insider access to the confessions by pentiti literally repentants former Mafia operatives who had turned This mafia hard core came primarily from the two largest and most influential Southern Italian mafia associations known as Cosa Nostra and Ndrangheta each composed of about one hundred mafia families The sheer volume of these confessions numbering in the hundreds and the detail they contained enabled the Italian government to effectively break up the Italian mafia in one of the dramatic law enforcement successes in modern times It is on these same documents that Paoli draws to provide a clinically accurate portrait of mafia behavior motivations and structure Puncturing academic notions of a modernized Mafia Paoli argues that to view mafia associations as bureaucracies illegal enterprises or an industry specializing in private protection is overly simplistic and often inaccurate These conceptions do not adequately describe the range of functions in which the mafia engages nor do they hint at the mafia's limitations The mafia Paoli demonstrates are essentially multifunctional ritual brotherhoods focused above all on retaining and consolidating their local political power base It is precisely this myopia that has prevented these organizations from developing the skills needed to be a successful and lasting player in the entrepreneurial world of illegal global commerce A truly interdisciplinary work of history politics economics and sociology Mafia Brotherhoods reveals in dramatic detail the true face of one of the world's most mythologized criminal organizations

G8 against Transnational Organized Crime Amandine Scherrer, 2016-04-15 The fight against money laundering drug trafficking illegal immigration cyber crime and the promotion of the enhancement of judicial and police cooperation in criminal matters have been at the core of the G8's actions in this field since the 1990s This book sheds light on the nature structure and modus operandi of the G8's specific expertise on transnational organized crime from a sociological approach in order to understand the elaboration production and diffusion

of international norms and standards It provides a detailed analysis of an under researched aspect of international politics the intensification of expert level exchanges on the international stage over the enhanced cooperation against transnational organized crime that has led to an impressive elaboration of best practices and soft law recommendations Very few studies have focused on the experts who determine these who they are what their socio professional background is and the nature and impact of their collective work in the global fight against organized crime *Hidden Power* James Cockayne,2017-10-01

What should we make of the outsized role organized crime plays in conflict and crisis from drug wars in Mexico to human smuggling in North Africa from the struggle in Crimea to scandals in Kabul How can we deal with the convergence of politics and crime in so called mafia states such as Guinea Bissau North Korea or as some argue Russia Drawing on unpublished government documents and mafia memoirs James Cockayne discovers the strategic logic of organized crime hidden in a century of forgotten political criminal collaboration in New York Sicily and the Caribbean He reveals states and mafias competing and collaborating in a competition for governmental power He discovers mafias influencing elections changing constitutions organizing domestic insurgencies and transnational terrorism negotiating peace deals and forming governmental joint ventures with ruling groups And he sees mafias working with the US government to spy on American citizens catch Nazis try to assassinate Fidel Castro invade and govern Sicily and playing unappreciated roles in the Bay of Pigs fiasco and the Cuban Missile Crisis *The Oxford Handbook of Organized Crime* Letizia Paoli,2014 This handbook explores organized crime which it divides into two main concepts and types the first is a set of stable organizations illegal per se or whose members systematically engage in crime and the second is a set of serious criminal activities that are typically carried out for monetary gain **I'd Much Rather Laugh! Preferisco Ridere!** Vincent Licitra,2013-02 Do not read this book if you are weak scared or otherwise indifferent to the world around you Put this book down if you could care less about America and Americans or if you tire easily are distracted quickly and would rather be superficially entertained while consuming a large bucket of popcorn Stay away if you are content with your lot in life or do not believe in the power of love or the ability of the underdog to overcome hatred and evil intent on pressing down on the lives of your fellow man Don t pick this book up because it can impact your world in ways you may not be prepared to experience This is a story of my life as I ve lived it and as I ve come to see all things including struggle envy scorn individualism prejudice and politics The future must be confronted for it is always but one second removed from the present Prepare to face your destiny and live a little If you are still in possession of this written material let me thank you for being at least willing to think outside the box for examining the possibility of being willing to live outside the box and perhaps for participating in a movement to utterly destroy the box we ve all been placed in which in its current set up permits not the realization of American democracy God Speed **Miami** Anthony P.
