Oedipus In The Trobriands:

Oedipus in the Trobriands ,1993-01-01 Spiro challenges the argument of Bronislaw Malinowski that the matrilineal society of the Trobriand Islands produced a psychological constellation a matrilineal complex different from Freud s Oedipus complex and the generalization regarding the restrictive provenance of the Oedipus complex to which it gave rise Spiro undertakes a reanalysis of Malinowski s data and shows that there is enough to suggest the presence of a strong Oedipus complex Melford E Spiro is professor emeritus of anthropology at the University of California San Diego where he founded the Anthropology Department in 1968 His other works include Gender and Culture Oedipus in the Trobriands and Culture and Human Nature The Trobriand Islanders' Ways of Speaking Gunter Senft,2010-07-19 Bronislaw Malinowski claimed in his monograph Argonauts of the Western Pacific that to approach the goal of ethnographic field work requires a collection of ethnographic statements characteristic narratives typical utterances items of folk lore and magical formulae as a corpus inscriptionum as documents of native mentality This book finally meets Malinowski s demand Based on more than 40 months of field research the author presents documents and illustrates the Trobriand Islanders own indigenous typology of text categories or genres covering the spectrum from ditties children chant while spinning a top to gossip songs tales and myths The typology is based on Kilivila metalinguistic terms for these genres and considers the relationship they have with registers or varieties which are also metalinguistically distinguished by the native speakers of this language Rooted in the ethnography of speaking paradigm and in the anthropological linguistics linguistic anthropology approach the book highlights the relevance of genres for researching the role of language culture and cognition in social interaction and demonstrates the importance of understanding genres for achieving linguistic and cultural competence In addition to the data presented in the book its readers have the opportunity to access the original audio and video data presented via the internet on a special website which mirrors the structure of the book Thus the reader can check the transcriptions against the original data recordings This makes the volume particularly valuable for teaching purposes in general Austronesian Oceanic documentary and anthropological linguistics and ethnology **Readings for a History of Anthropological Theory, Fifth Edition** Paul A. Erickson,Liam D. Murphy,2016-10-19 The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory with a sharpened focus on gender and anthropology and the anthropology of new media and technology Short introductions and key terms accompany every reading and light annotations have been added to aid students in reading original articles Used on its own or together with A History of Anthropological Theory Fifth Edition this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today Readings for a History of Anthropological Theory, Fifth Edition Liam D. Murphy,2017-01-01 The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory with a sharpened focus on gender and anthropology and the anthropology of new media and technology Short

introductions and key terms accompany every reading and light annotations have been added to aid students in reading original articles Used on its own or together with *A History of Anthropological Theory* Fifth Edition this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today Inconsistencies in Greek and Roman Religion. 1, Ter Unus H. S. Versnel,1990 This is the first of a two volume collection of studies in inconsistencies in Greek and Roman religion Their common aim is to argue for the historical relevance of various types of ambiguity and dissonance The first volume focuses on the central paradoxes in ancient henotheism The term henotheism a modern formation after the stereotyped acclamation EIS O QEOS one is the god common to early Christianity and contemporaneous paganism denotes the specific devotion to one particular god without denying the existence of or even cultic attention to other gods After its prime in the twenties and thirties of this century the term fell into disuse Nonetheless the notion of henotheism represents one of the most remarkable and significant shifts in Graeco Roman religion and hence deserves fresh reconsideration **Readings for a History of Anthropological Theory, Sixth Edition**

Paul A. Erickson,Liam D. Murphy,2021-04-23 The sixth edition of this bestselling text offers a concise history of anthropological theory from antiquity to the twenty first century with new and significantly revised sections that reflect the current state of the field Theories of Africans Christopher L. Miller,1990-12-03 Situating literature and anthropology in mutual interrogation Miller s book actually performs what so many of us only call for Nowhere have all the crucial issues been brought together with the sort of critical sophistication it displays Henry Louis Gates Jr a superb cross disciplinary analysis Y Mudimbe Culture and Human Nature Horace Kallen,Melford E. Spiro,2020-03-02 This volume illustrates Melford Spiro s explorations of key relationships among culture society and human nature He addresses such fundamental issues as the limitations of cultural relativism the problem of explanation in the social sciences and the importance of a comparative approach to the study of social and cultural system Psychoanalytic Approaches to Myth Daniel Merkur,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Embodied Progress ,**

Sensual Relations David Howes,2010-02-22 Offers a full bodied approach to the study of culture in which each sense serves as a potent register of meaning **Conceiving the New World Order** Faye D. Ginsburg,Rayna Rapp,1995-07-31 This volume provides an investigation of the dynamics of reproduction Using reproduction as an entry point the authors examine how cultures are produced contested and transformed as people imagine their collective future in the creation of the next generation **Depth Psychology, Interpretation, and the Bible** Brayton Polka,2001-02-12 Polka also raises the larger issue of the relationship between modernity hermeneutics and biblical ontology He argues that the origins and structure of modern values can be understood only through a theory of hermeneutics whose ontology overcomes the dualism between the secular and the religious between philosophy and religion Polka shows this to be possible when biblical ontology is understood to be at once rational and faithful secular and religious He uses the work of Spinoza Kant Hegel and

Kierkegaard to articulate the ontological framework that makes clear how typically modern Freud is in being unable to account for the relationship of his thought to biblical religion Polka argues that Freudian metapsychology precisely because it cannot account for its own principles of explanation contradicts the insights of depth psychology Paradoxically religion returns in Freud as the repressed as it does in so much of modern thought Polka shows that what is therefore required is a hermeneutical theory whose ontological articulation of biblical religion is critically self conscious

Inconsistencies in Greek and Roman Religion, Volume 1: Ter Unus. Isis, Dionysos, Hermes. Three Studies in Henotheism Henk Versnel, 2015-09-01 This is the first of a two volume collection of studies in inconsistencies in Greek and Roman religion Their common aim is to argue for the historical relevance of various types of ambiguity and dissonance The first volume focuses on the central paradoxes in ancient henotheism The term henotheism a modern formation after the stereotyped acclamation EIS O QEOS one is the god common to early Christianity and contemporaneous paganism denotes the specific devotion to one particular god without denying the existence of or even cultic attention to other gods After its prime in the twenties and thirties of this century the term fell into disuse Nonetheless the notion of henotheism represents one of the most remarkable and significant shifts in Graeco Roman religion and hence deserves fresh reconsideration

Culture and Psyche Simon Dein, 2019-11-21 This book originates from a lecture series given on Psychology and Anthropology at Goldsmiths College London in 2018 It offers an introduction to psychological anthropology and will be useful both for undergraduates and postgraduates While providing a critical overview of topics commonly included in psychological anthropological texts such as psychoanalysis culture and personality child development personality emotion the self memory and cognition this book also offers a chapter on Darwin sociobiology and evolutionary psychology to emphasise that behaviour is not infinitely malleable but rather culture impacts existent biological and psychological structures As shown here while culture impacts psychological processes these processes are constrained by genetic biological and evolutionary factors

The Critique of Coloniality Rita Segato, 2022-03-30 This translation of Rita Segato s seminal book *La crítica de la colonialidad en ocho ensayos* offers an anthropological and critical perspective on the coloniality of power as theorized by the Peruvian thinker Anibal Quijano Segato begins with an overview of Quijano s conceptual framework emphasizing the power and richness of his theory and its relevance to a range of fields Each of the seven subsequent chapters presents a scenario in which a persistent colonial structure or form of subjectivity can be identified These essays address urgent issues of gender sexuality race and racism and indigenous forms of life They set the decolonial perspective to work and are connected by two central preoccupations the critical analysis of coloniality and the effort to reimagine anthropology as responsive anthropology a practice at once answerable and useful to the communities previously regarded as the objects of ethnographic thought The Critique of the Coloniality makes important and original contributions to our understanding of colonial and decolonial processes drawing on the author s experience of feminist and antiracist movements and struggles for indigenous and human

rights This book will appeal to students and scholars working in anthropology Latin American studies political theory feminist and gender studies indigenous studies and anticolonial post colonial and decolonial thought **Culture and Personality**

Victor Barnouw,1985 **Personality and the Cultural Construction of Society** David K. Jordan,Marc J.

Swartz,2010-05-31 Psychological anthropology is a vital area of contemporary social science and one of the field s most important and innovative thinkers is Melford E Spiro This volume brings together sixteen essays that review Spiro s theoretical insights and extend them into new areas The essays center on several general problems In what ways is it meaningful to speak of a social act as having functions What elements and processes of human personality are universal and why What is the relationship between religion and personality Why What are the pyschological underpinnings of social manipulation *Psychoanalysis, Fatherhood, and the Modern Family* Liliane Weissberg,2021-10-30 To what extent are the concepts of fatherhood and family as proposed by Sigmund Freud still valid Psychoanalysis Fatherhood and the Modern Family traces the development of Freud s theory of the Oedipus complex and discusses his ideas in the context of recent psychoanalytic work new sociological data and theoretical explorations on gender and diversity Contributors include representatives from many academic disciplines as well as practicing psychoanalysts who reflect on their experience with patients Their exciting essays break new ground in defining who a father is and what a father may be **Textbook of Applied Psychoanalysis** Salman Akhtar,Stuart Twemlow,2020-09-10 The Textbook of Applied Psychoanalysis is a unique and original contribution to the field of psychoanalysis Emphasizing and underscoring the need for interdisciplinary discourse in understanding the dialectical relationship between mind and culture this volume addresses a multiplicity of realms These include anthropology religion philosophy history as well as evolutionary psychology medicine race poverty migration and prejudice Dimensions of social praxis such as education health policy and cyberpsychology are also addressed The enrichment of our understanding of the fine arts e g painting sculpture poetry and performing arts e g music dance cinema by the application of psychoanalytic principles and the enhancement of psychoanalysis by bringing such arts to bear upon it also form areas of this book s concern This magisterial volume brings distinguished psychoanalysts philosophers musicians poets businessmen architects and movie critics together to create a chorus of modern anthropologically informed and culturally sensitive psychoanalysis
