Oeuvres Complètes Charles de Secondat baron de Montesquieu, 1966 **Oeuvres Complètes. Tome 2** Molière, *Oeuvres Complètes. Tome 3* Molière, **Oeuvres Complètes** André Malraux, 1989-10-01 *Oeuvres Complètes. Tome 1* Molière, *Oeuvres complètes* Jean-Jacques Rousseau, 1871 *Oeuvres Complètes*, 1984 **Pareto, Economics and Society** Michael McLure, 2002-06-01 Vilfredo Pareto was one of the great systems theorists of the twentieth century embracing economics psychology sociology and politics In this important work Michael McLure takes as his subject of study the rapport between Pareto's economic and sociological theory and consequently illuminates the role of economics in public policy development **Tides in Astronomy and Astrophysics** Jean Souchay, Stéphane Mathis, Tadashi Tokieda, 2012-12-14 Based on the lecture notes of a school titled Tides in Astronomy and Astrophysics that brought together students and researchers this book focuses on the fundamental theories of tides at different scales of the universe from tiny satellites to whole galaxies and on the most recent developments It also attempts to place the study of tides in a historical perspective Starting with a general tutorial on tides the theme of tides is approached in 9 chapters from many directions They allow non experts to pick up a physical intuition and a sense of orders of magnitude in the theory of tides These carefully prepared lecture notes by leaders in the field include many illustrative figures and drawings Some even offer a variety of simple back of the envelope problems **Einstein Manifolds** Arthur L. Besse, 2007-12-03 Einstein's equations stem from General Relativity In the context of Riemannian manifolds an independent mathematical theory has developed around them This is the first book which presents an overview of several striking results ensuing from the examination of Einstein's equations in the context of Riemannian manifolds Parts of the text can be used as an introduction to modern Riemannian geometry through topics like homogeneous spaces submersions or Riemannian functionals **Vilfredo Pareto** John Cunningham Wood, Michael McLure, 1999 *Yahyā ibn 'Adī: Treatise on Divine Unity According to the Doctrine of the Christians* Giovanni Mandolino, 2023-10-16 How do intellectual traditions interact This is the fundamental question driving this book which explores a case study set in the early Islamic world the *Treatise on Divine Unity According to the Doctrine of the Christians* by the Christian Arabic theologian and philosopher Yahyā ibn Adī d. 974 The book attempts to contextualise the treatise and its intellectual environment by exploring the interplay between philosophy Christian theology and Islam This volume includes a revised Arabic text of Samir's 2015 edition collated with the manuscript Tehran Madrasa yi Marw 19 recently discovered by prof Robert Wisnovsky *Catalogue* John D. Sherman (jr.), 1923 **An Index of the Grey Collection**, 1884 *French Orientalist Literature in Algeria, 1845-1882* Sage Goellner, 2018-03-06 This book applies the growing theoretical field of hauntology to a body of literature which has previously been examined through the lenses of Orientalism and exoticism Through a chronological study and close readings of the writings of Théophile Gautier Eugène Fromentin Gustave Flaubert and Pierre Loti the project identifies haunting echoes within the texts which demonstrate an

ambivalence of attitudes towards colonialism and which undermine any claim towards a monolithic imperialist French ideology Whereas hauntological theory has been used to illuminate literature from the Francophone post colonial period it has not yet been applied to texts produced during the French colonial period The originality of this project thus lies in the application of Derridean hauntological theory to works from an earlier period each of which in one way or another addresses the theme of colonial violence By revisiting four classic works of colonial Orientalism with haunting as a principal theme this analysis provides a critical witnessing of France's violent colonization of Algeria that demonstrates France's latent anxieties about the colonial project at the time
