sublime ou encore de la mimésis peuvent faire l'objet Un dialogue approfondi avec la littérature artistique la critique et les sciences de l'art apparaît en effet comme un axe nécessaire de l'approche philosophique elle-même dont la dynamique propre oriente néanmoins l'ensemble ici proposé Le volume se structure en deux parties La première la plus importante par le nombre de pages retrace la genèse historique des grands concepts esthétiques de la tradition occidentale de Platon Derrida de la pensée analytique anglo-saxonne la phénoménologie en passant par la thologie de l'image et l'idéalisme allemand Dans la seconde partie les concepts ainsi dégagés entrent en action face quelques interrogations majeures que rencontrent aujourd'hui la philosophie de l'art et l'esthétique On y relance les outils que nous a livrés la tradition sans se refuser emprunter telle ou telle voie rapide qui par exemple remonte de l'art contemporain la Grèce antique ou propulse des Encyclopédistes au post-modernisme L'attention concrète aux œuvres d'art elles-mêmes tient la place qui lui revient dans le cadre de ces questionnements de premier degré

"Art, Theatre, and Opera in Paris, 1750-1850 " Richard Wrigley, 2017-07-05 Art Theatre and Opera in Paris 1750-1850 Exchanges and Tensions maps some of the many complex and vivid connections between art theatre and opera in a period of dramatic and challenging historical change thereby deepening an understanding of familiar and less familiar artworks practices and critical strategies in the eighteenth and nineteenth centuries Throughout this period new types of subject matter were shared fostering both creative connections and reflection on matters of decorum legibility pictorial and dramatic structure Correspondances were at work on several levels conception design and critical judgement In a time of vigorous social political and cultural contestation the status and role of the arts and their interrelation came to be a matter of passionate public scrutiny Scholars from art history French theatre studies and musicology trace some of those connections and clashes making visible the intimately interwoven and entangled world of the arts Protagonists include Diderot Sedaine Jacques Louis David Ignace Eug Marie Degotti Marie Malibran Paul Delaroche Casimir Delavigne Marie Dorval the Bleeding Nun from Lewis's The Monk the Comédie Française and Etienne Jean Deluze

Théorie des sentiments esthétiques Pierre Demeulenaere, 2002-01-23 Pierre Demeulenaere est professeur de philosophie à l'Université de Paris IV Agé de 35 ans auteur de nombreux articles dans la Revue de métaphysique et de morale il prépare un ouvrage sur la naissance des normes sociales Pierre Demeulenaere a entrepris dans ses articles dans son enseignement un travail qui se situe à l'intersection de la philosophie de l'esthétique et de la sociologie Il a ainsi écrit une problématique très féconde dont l'objet pourrait ainsi se résumer lorsque nous prouvons un sentiment esthétique devant un tableau une musique une sculpture un roman qu'est-ce qui se mêle à notre sentiment Ou encore pourquoi devant une copie parfaite de La Joconde sommes-nous moins musés que devant l'original Ou encore quand nous contemplons le châteaude Versailles qu'est-ce qui en nous décide que nous allons le contempler comme une simple harmonie architecturale ou comme un symbole de la monarchie absolutiste En d'autres termes Pierre Demeulenaere s'interroge dans ce livre sur les fondements culturels historiques motionnels qui structurent nos

perceptions esthétiques Il explore ce qui dans l'esthétique précède et façonne nos jugements Du coup il renouvelle profondément l'histoire du goût un peu dans la voie ouverte par L'Homo Aestheticus de Luc Ferry Il s'agit d'un ouvrage exigeant novateur

The Cambridge History of Eighteenth-century Philosophy Knud Haakonssen, 2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted

Art's Philosophical Work Andrew Benjamin, 2015-06-03 What is the work of art How does art work as art Andrew Benjamin contends that the only way to address these questions is by developing a radically new materialist philosophy of art and by rethinking the history of art from within that perspective A materialist philosophy of art starts with the contention that meaning is only ever the after effect of the way in which materials work Starting with the relation between history materials and work art's work this book opens up a highly original reconfiguration of the philosophy of art Benjamin undertakes a major project that seeks to develop a set of complex interarticulations between art history and an approach to art's work that emphasizes art's material presence A philosophy of art emerges from the limitations of aesthetics

Absorption and Theatricality Michael Fried, 2023-11-15 This book offers a groundbreaking interpretation of the evolution of painting in France from the mid 1750s to 1781 a period that witnessed the emergence of artists like Vien Greuze and David The study examines a unique and autonomous progression in French painting that diverged from the prevailing international influences of the time With a fresh perspective the author delves into the dynamics of French art notably the reaction against the Rococo and the development of new artistic concerns within France By focusing on the writings of contemporary critics such as Diderot and La Font de Saint Yenne the book sheds light on how their insights guided the interpretation of the art of the period offering an enriched understanding of both the paintings and the critical literature of the era This approach breaks new ground challenging the established narratives and bringing to light features of French painting previously overlooked The book also emphasizes the crucial relationship between painting and the viewer a concept that Diderot himself explored in his critical writings Through a detailed analysis of the interaction between art and its audience the author presents a double process of interpretation where paintings and critical texts illuminate one another This study anchored in the work of Denis Diderot reveals how the interplay between visual art and art criticism shaped the evolution of painting in France during this transformative period By connecting critical commentary with the paintings themselves the book provides compelling evidence of the importance of the viewer's role in French artistic developments and highlights the beginnings of a tradition that has influenced modern art to this day This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980

The Idea

of Art as Propaganda in France, 1750-1799 James A Leith, 1964-12-15 One of the most modern features of the French Revolution was its intention of shaping a new kind of citizen by exposing him from childhood to inspirational messages and behavioral models In this effort to regenerate the masses the French Revolutionaries sought to employ not only schools but newspapers festivals dramas poems songs paintings statues and engravings as well At the peak of the Terror French leaders brought the West to the threshold of the totalitarian state in the fullest sense of the world they established a single party state directed a regimented economy created a mass army and sought to mobilize all the media capable of influencing the human mind In was an interest in both art and the Revolution which led Professor Leith to explore the growth of the idea of using art as one instrument of propaganda The idea proved to have deep roots in western civilization going back to classical thinkers medieval churchmen and the art officials of such monarchs as Louis XIV But following the hedonistic rococo art of the first half of the eighteenth century this idea of didactic art took on a new lease of life reaching a crescendo during the Terror This book analyses the contribution of the philosophes the Encyclopedists royal officials art critics and revolutionary leaders to the resurgence of the idea it also probes the peculiar psychological assumptions which led eighteenth century thinkers to believe in the efficacy of visual propaganda The outcome of this idea of art as an ideological weapon was involved in the fate of the Revolution itself yet it was also affected by certain curious tensions already evident in the minds of its advocates under the Old Regime Lingering interest in purely aesthetic values the affirmation of the need for creative freedom and determination to maintain French cultural hegemony all complicated the effort to turn art into a vehicle of civic instruction The final chapter examines the role of these tensions in the development of the idea in the closing phase of the Revolution This book should appeal not only to those interested in French civilization the age of Enlightenment and the French Revolution but to those concerned with the role of art and the artist in modern society as well *Quelques Leçons*
