Nelson,2019-12-10 This volume analyses the societal legacy of Lutheranism in Finland in broad terms It contributes to the recent renewed interest in the history of religion in Finland and the Nordic countries by bringing together researchers in history political science economics social psychology education linguistics media studies and theology to examine the mutual relationship between Lutheranism and society in Finland The two main foci are i the historical effects of the Reformation and

its aftermath on societal structures and on national identity values linguistic culture education and the economy and ii the adaptation of the church and its theology to changes in the geo political and sociocultural context Important sub themes include nationalism and religion the secularization and institutionalization of traditional values multiple Protestant ethics and long continuities in history Overall the book argues that large changes in societies cannot be explained via secular factors alone such as economic development or urbanization but that factors pertaining to religion provide substantial explanatory power for understanding societal change and the resulting societal structures *Finland* ,1927 **Finland: the Country, Its People and Institutions** ,1926 **Globalizing Educational Accountabilities** Bob Lingard,Wayne Martino,Goli Rezai-Rashti,Sam Sellar,2015-07-30 Globalizing Educational Accountabilities analyzes the influence that international and national testing and accountability regimes have on educational policy reform efforts in schooling systems around the world Tracing the evolution of those regimes with an emphasis on the OECD s PISA it reveals the multiple effects of policy as numbers in countries with different types of government and different education systems From the effect of Shanghai s PISA success on nations trying to compete economically to the perverse effects of linking funding to performance targets in Australia the analysis links testing and accountability to new modes of network governance new spatialities and the significance of data infrastructures This highly illustrative text offers scholars and policy makers a critical policy sociology framework for doing education policy analysis today **The Way It Turned Out** Herant Katchadourian,2012-09-05 Spanning seven decades this memoir is an account of the life of Herant Katchadourian on three continents The Middle East Europe and the United States While the memoir is highly distinctive the issues the author focuses on have many features that are common with other people s lives such as the role of chance and the reconstruction of past events in the light of the present The book is the account of a fascinating life that is not only interesting to read but instructive by placing the various stages and facets of life in their historical and cultural contexts *Migrants and Minorities in the Community* European Network of Training Organisations for Local and Regional Authorities.
