**The Behaviour of the Domestic Cat** John W. S. Bradshaw,Rachel A. Casey,Sarah L. Brown,2012 The behaviour of domesticated animals is a subject of great importance to students of animal behaviour and veterinary medicine as well as interested pet owners This new edition of the 1992 book fully updates the original chapters with new research from the past two decades while also including two new chapters covering behavioural disorders due to pathologies and from misdirected natural behaviour Fully updated throughout New chapters Written by well renowned feline behaviour expertsThe book aims

to present a readable overview of the behaviour of the domestic cat adopting both a mechanistic and functional approach The first half of the book is mainly concerned with physiological developmental and psychological aspects this includes chapters on domestication the development of the senses learning communication and feeding behaviour To provide a comprehensive resource on the subject the second half of the book looks at social behaviour hunting and predation cat human interactions and welfare Also essential reading for cat breeders and researchers of domestic animal behaviour this new textbook is the quintessential source of cat behaviour information

**Palestine** John Kitto,1841      **The Pictorial History of Palestine and the Holy Land, Including a Complete History of the Jews** John Kitto,1844      **Your Magickal Cat** Gerina Dunwich,2000      Crossover Picturebooks Sandra L. Beckett,2013-06-17 This book situates the picturebook genre within the widespread international phenomenon of crossover literature examining an international corpus of picturebooks including artists books wordless picturebooks and celebrity picturebooks that appeal to readers of all ages Focusing on contemporary picturebooks Sandra Beckett shows that the picturebook has traditionally been seen as a children s genre but in the eyes of many authors illustrators and publishers it is a narrative form that can address any and all age groups Innovative graphics and formats as well as the creative often complex dialogue between text and image provide multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children s books The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre Crossover picturebooks are often very complex texts that are challenging for adults as well as children Many are characterized by difficult adult themes genre blending metafictional discourse intertextuality sophisticated graphics and complex text image interplay Exciting experiments with new formats and techniques as well as novel interactions with new media and technologies have made the picturebook one of the most vibrant and innovative contemporary literary genres one that seems to know no boundaries Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation and contributes significantly to the field of children s literature as a whole

**Citizen Canine** David Grimm,2014-04-08 Dogs are getting lawyers Cats are getting kidney transplants Could they one day be fellow citizens Cats and dogs were once wild animals Today they are family members and surrogate children A little over a century ago pets didn t warrant the meager legal status of property Now they have more rights and protections than any other animal in the country Some say they re even on the verge of becoming legal persons How did we get here and what happens next In this fascinating exploration of the changing status of dogs and cats in society pet lover and award winning journalist David Grimm explores the rich and surprising history of our favorite companion animals He treks the long and often torturous path from their wild origins to their dark days in the middle ages to their current standing as the most

valued animals on Earth As he travels across the country riding along with Los Angeles detectives as they investigate animal cruelty cases touring the devastation of New Orleans in search of the orphaned pets of Hurricane Katrina and coming face to face with wolves and feral cats Grimm reveals the changing social attitudes that have turned pets into family members and the remarkable laws and court cases that have elevated them to quasi citizens The journey to citizenship isn't a smooth one however As Grimm finds there's plenty of opposition to the rising status of cats and dogs From scientists and farmers worried that our affection for pets could spill over to livestock and lab rats to philosophers who say the only way to save society is to wipe cats and dogs from the face of the earth the battle lines are being drawn We are entering a new age of pets one that is fundamentally transforming our relationship with these animals and reshaping the very fabric of society For pet lovers or anyone interested in how we decide who gets to be a person in today's world *Citizen Canine* is a must read It is a pet book like no other

Studies in No-Self Physicalism Feng Ye, 2022-12-12 This book demonstrates how a radical version of physicalism No Self Physicalism can offer an internally coherent and comprehensive philosophical worldview It first argues that a coherent physicalist should explicitly treat a cognitive subject merely as a physical thing and should not vaguely assume an amorphous or even soul like subject or self This approach forces the physicalist to re-examine traditional core philosophical notions such as truth analyticity modality apriority because our traditional understandings of them appear to be predicated on a cognitive subject that is not literally just a physical thing In turn working on the assumption that a cognitive subject is itself completely physical namely a neural network based robot programmed by

evolution hence the term No Self the book proposes physicalistic theories on conceptual representation truth analyticity modality the nature of mathematics epistemic justification knowledge apriority and intuition as well as a physicalistic ontology These are meant to show that this No Self Physicalism perhaps the most minimalistic and radical version of physicalism proposed to date can accommodate many aspects that have traditionally interested philosophers Given its refreshingly radical approach and painstakingly developed content the book is of interest to anyone who is seeking a coherent philosophical worldview in this age of science

**Dwelling(s) in Nineteenth-Century Ireland** Heather Laird, Jay R. Roszman, 2023-10-15 What did it mean to have an Irish dwelling in the nineteenth century How did Irish people write about think about visually represent or imagine what constituted home Showcasing research from scholars based in Ireland the United Kingdom and further afield this interdisciplinary volume seeks to answer these questions by exploring the physicality and symbolism of Irish dwellings and the home as a place of repose exercise and work Using a range of methodological approaches including history folklore and literature this volume offers new perspectives on the material culture of home fictionalized homes social housing schemes suburban living spaces home and social mobility institutional living migration and memories of the home house and gender and eviction Rather than focus on the Big House which has already received considerable scholarly attention this volume foregrounds dwelling spaces that were especially vulnerable to economic forces the homes of the urban and rural poor Additionally the book acknowledges the importance to nineteenth century Ireland of a class that has arguably received even less attention in Irish scholarship than the poor a rising urban suburban middle class exploring their impact on housing and on cultural and leisure activities An Open Access version of Christopher Cusack's chapter Back into the old homestead The Irish Cottage in Irish American Fiction 861 1910 will be made available on publication
