Of Shoes and Ships and Sealing Wax Robert M. Laughlin, 1980 Part 1 contains the travel of two Mayan Indians from Zinacantan Chiapas Mexico who accompanied the author to the United States in 1963 and again in 1967 part 2 is a miscellany of ethnographic text supplied by Romin Teratol one of the travelers in response to the author's occasional requests for re-creations of Zinacantec dialogue and activities *Supplement to the Handbook of Middle American Indians, Volume 3* Munro S. Edmonson, Patricia A. Andrews, Victoria Reifler Bricker, 1985 [The Mayan Languages](#) Judith Aissen, Nora C. England, Roberto Zavala Maldonado, 2017-05-12 The Mayan Languages presents a comprehensive survey of the language family associated with the Classic Mayan civilization AD 200-900 a family whose individual languages are still spoken today by at least six million indigenous Maya in Mexico Guatemala Belize and Honduras This unique resource is an ideal reference for advanced undergraduate and postgraduate students of Mayan languages and linguistics Written by a team of experts in the field The Mayan Languages presents in depth accounts of the linguistic features that characterize the thirty-one languages of the family their historical evolution and the social context in which they are spoken The Mayan Languages provides detailed grammatical sketches of approximately a third of the Mayan languages representing most of the branches of the family includes a section on the historical development of the family as well as an entirely new sketch of the grammar of Classic Maya as represented in the hieroglyphic script provides detailed state-of-the-art discussions of the principal advances in grammatical analysis of Mayan languages includes ample discussion of the use of the languages in social conversational and poetic contexts Consisting of topical chapters on the history sociolinguistics phonology morphology syntax semantics discourse structure and acquisition of the Mayan languages this book will be a resource for researchers and other readers with an interest in historical linguistics linguistic anthropology language acquisition and linguistic typology

[Tongues of Fire](#) Nancy Farriss, 2018-09-05 In Tongues of Fire Nancy Farriss investigates the role of language and translation in the creation of Mexican Christianity during the first centuries of colonial rule Spanish missionaries collaborated with indigenous intellectuals to communicate the gospel in dozens of unfamiliar local languages that had previously lacked grammars dictionaries or alphabetic script The major challenge to translators more serious than the absence of written aids or the great diversity of languages and their phonetic and syntactical complexity was the vast cultural difference between the two worlds The lexical gaps that frustrated the search for equivalence in conveying fundamental Christian doctrines derived from cultural gaps that separated European experiences and concepts from those of the Indians Farriss shows that the dialogue arising from these efforts produced a new culturally hybrid form of Christianity that had become firmly established by the end of the 17th century The study focuses on the Otomangue languages of Oaxaca in southern Mexico especially Zapotec and relates their role within the Dominican program of evangelization to the larger context of cultural contact in post-conquest Mesoamerica Fine-grained analysis of translated texts reveals the rhetorical

strategies of missionary discourse Spotlighing the importance of the native elites in shaping what emerged as a new form of Christianity Farriss shows how their participation as translators and parish administrators helped to make evangelization an indigenous enterprise and the new Mexican church an indigenous one [Selected References, in English, on the Ethnology of the Indians of Mexico, Central and South America](#) ,1981 [Supplement to the Handbook of Middle American Indians, Volume 3](#) Victoria Reifler Bricker,Munro S. Edmonson,2010-07-22 The sixteen volume Handbook of Middle American Indians completed in 1976 has been acclaimed the world over as the single most valuable resource ever produced for those involved in the study of Mesoamerica When it was determined in 1978 that the Handbook should be updated periodically Victoria Reifler Bricker well known cultural anthropologist was elected to be general editor This third volume of the Supplement is devoted to the aboriginal literatures of Mesoamerica a topic receiving little attention in the original Handbook According to the general editor This volume does more than supplement and update the coverage of Middle American Indian literatures in the Handbook It breaks new ground by defining the parameters of a new interdisciplinary field in Middle American Indian studies The aim of the present volume is to consider literature from five Middle American Indian languages Nahuatl Yucatecan Maya Quiche Tzotzil and Chorti The first three literatures are well documented for both the Classical and Modern variants of their languages and are obvious candidates for inclusion in this volume The literatures of Tzotzil and Chorti on the other hand are oral and heretofore little has been written of their genres and styles Taken together these essays represent a substantial contribution to the Handbook series with the volume editor s introduction placing in geographic perspective the five literatures chosen as representative of the Middle American literary tradition **Chronicling Cultures** Robert V. Kemper,Any Peterson Royce,2002 Description of methods used in long term anthropological field projects some extending over half a century Visit our website for sample chapters **Telling Maya Tales** Gary H. Gossen,2013-12-02 Telling Maya Tales offers an experimental ethnographic portrait of the San Juan Chamula the largest and most influential Maya community of Highland Chiapas in the late twentieth century the era of the Zapatistas In this collection of essays the author whose field work in the area spans two generations of anthropological thought explores several expressions of Tzotzil ethnic affirmation ranging from oral narrative to ritual drama and political action His work covers the current era when the Chamula Tzotzils mingle chaotically and sometimes violently with the social and political space of modern Mexico most recently in the context of the Maya Zapatista movement of 1994 **Space in Language and Linguistics** Peter Auer,Martin Hilpert,Anja Stukenbrock,Benedikt Szmrecsanyi,2013-11-27 This book brings together three perspectives on language and space that are quite well researched within themselves but which so far are lacking productive interconnections Specifically the book aims to interconnect the following research areas Language space and geography Grammar space and cognition Language and interactional spaces The contributions in this book cover geographical language variation within and across languages language use in stationary and mobile interactional spaces computer mediated communication and spatial reasoning across

languages This range of issues showcases the thematic and methodological breadth of research on language and space In order to identify interconnections the respective contributions are accompanied by commentaries that highlight common threads

Ritual Communication Gunter Senft, Ellen B Basso, 2020-05-15 Ritual Communication examines how people create and express meaning through verbal and non verbal ritual Ritual communication extends beyond collective religious expression It is an intrinsic part of everyday interactions ceremonies theatrical performances shamanic chants political demonstrations and rites of passage Despite being largely formulaic and repetitive ritual communication is a highly participative and self oriented process The ritual is shaped by time space and the individual body as well as by language ideologies local aesthetics contexts of use and relations among participants Ritual Communication draws on a wide range of contemporary cultures from Africa America Asia and the Pacific to present a rich and diverse study for students and scholars of anthropology sociology and sociolinguistics

Pragmatics of Word Order Flexibility Doris L. Payne, 1992-01-01 For some time the assumption has been widely held that for a majority of the world's languages one can identify a basic order of subject and object relative to the verb and that when combined with other facts of the language the basic order constitutes a useful way of typologizing languages New debate has arisen over varying definitions of basic with investigators encountering languages where branding a particular order of grammatical relations as basic yielded no particular insightfulness This work asserts that explanatory factors behind word order variation go beyond the syntactic and are to be found in studies of how the mind grammaticizes forms processes information and speech act theory considerations of speakers attempts to get their hearers to build one rather than another mental representation of incoming information Thus three domains must be distinguished in understanding order variation syntactic cognitive and pragmatic The works in this volume explore various aspects of this assertion

Context and Development Robert Cohen, Alexander W. Siegel, 2014-02-04 The purpose of this book is to explore meaningful integrations of developmental processes and functioning with conceptualizations of context a term traditionally denoting physical settings social arenas or perceptual or social backdrops in relation to a focal point However the study of context has taken a considerably more unique and vibrant form in recent years the term is becoming more than a substitute for background independent variables Rather the contributions of context to behavior thought feelings and vice versa are becoming central issues in many research domains This text is a collection of empirical and theoretical accounts for understanding context its focus is on integrating the study of context with the science of developmental psychology Although the authors work in many different areas of the field and with different populations they all converge on a central methodological conceptual theme of contextualism which is presented as the dynamic integration of intraindividual factors with environmental and social environmental factors
