Of Camel Kings And Other Things:

Of Camel Kings and Other Things Roxann Prazniak,1999 From the perspective of village activists across China this book tells the stories of farmers and rural laborers who raised the banner of opposition to constitutional reform during the first decade of the twentieth century The author brings to life the stories of the Camel King of Zunhua county Qu Shiwen and the Four Mountains of Laiyang county and many others who criticized government modernization efforts known collectively as the New Policy Using county archives including oral histories as well as memoirs periodical literature missionary records and official documents both Chinese and foreign Of Camel Kings and Other Things constructs from fragmented sources a coherent historical view vital to our understanding of China s twentieth century crises and the dilemmas of modernity itself

Ecclesiastical Colony Ernest P. Young, 2013-04-25 The French Religious Protectorate was an institutionalized and enduring policy of the French government based on a claim by the French state to be guardian of all Catholics in China The expansive nature of the Protectorate's claim across nationalities elicited opposition from official and ordinary Chinese other foreign countries and even the pope Yet French authorities believed their Protectorate was essential to their political prominence in the country This book examines the dynamics of the French policy the supporting role played in it by ecclesiastical authority and its function in embittering Sino foreign relations In the 1910s the dissidence of some missionaries and Chinese Catholics introduced turmoil inside the church itself The rebels viewed the link between French power and the foreign run church as prejudicial to the evangelistic project The issue came into the open in 1916 when French authorities seized territory in the city of Tianjin on the grounds of protecting Catholics In response many Catholics joined in a campaign of patriotic protest which became linked to a movement to end the subordination of the Chinese Catholic clergy to foreign missionaries and to appoint Chinese bishops With new leadership in the Vatican sympathetic to reforms serious steps were taken from the late 1910s to establish a Chinese led church but foreign bishops their missionary societies and the French government fought back During the 1930s the effort to create an indigenous church stalled It was less than halfway to realization when the Chinese Communist Party took power in 1949 Ecclesiastical Colony reveals the powerful personalities major debates and complex series of events behind the turmoil that characterized the nineteenth and early twentieth century experience of the Catholic church in China **Staging the World** Rebecca E. Karl, 2002-04-22 An historical analysis of how the Chinese constructed their understandings of their place in the world in the late nineteenth and early twentieth centuries

Trial of Modernity, 2008-07-17 This title explores the Chinese judicial system and its operations in the Rebulican era It offers an analysis of how judicial reform initiatives were envisioned and pursued by the central government from 1901 through 1937 how the various initiatives were implemented at the provincial and county levels and much more **Key**Concepts in Practice Paul R. Katz, Stefania Travagnin, 2019-05-20 In recent years the study of modern Chinese religions has developed into a highly innovative yet challenging field One of the main reasons for this involves an ongoing and largely

unresolved debate regarding what methods and theories are appropriate for analyzing the wide range of beliefs and practices we encounter This series of three volumes is based on the conviction that in this critical period of research on modern Chinese religions it is time for scholars to review the development of our field reconsider its present state of theories and analytical models and open a new chapter in the understanding of methodologies we employ Our research is grounded on the need to re evaluate concepts and practices that inform both the religious sphere and contemporary scholarship including endogenous Chinese concepts and exogenous ideas from the West and Japan that have been foundational in shaping our knowledge of the Chinese religious landscape In this third volume of our series we examine a variety of key concepts through their praxis in modern Chinese lived religions **Zheng Guanying** Guo Wu,2010 Guo Wu is an assistant professor of modern Chinese history at Allegheny College He holds a PhD from the State University of New York at Albany an MA from Georgia State University and a BA from Beijing Language University China Dr Wu is the author of several research articles on modern Chinese political thought and contemporary Chinese film Book Jacket Women in China's Long Twentieth **Century** Gail Hershatter, 2007-03-29 An important and much needed introduction to this rich and fast growing field Hershatter has handled a daunting task with aplomb Susan L Glosser author of Chinese Visions of Family and State 1915 Chinese Complaint Systems Qiang Fang, 2013-01-25 Complaint systems have existed in China for many years and in 1953 2004 a debate took place in the People's Republic of China PRC over the Letters and Visits System xinfang zhidu which was designed to allow people to register complaints with the upper levels of the government However both parties generally overlooked several different complaint systems that had preceded the Letters and Visits System during China's history Indeed despite the rich heritage of numerous complaint systems throughout China's past most studies of complaint systems in China have paid little attention to the origins development practices impact and nature of similar institutions in the longue dur e of Chinese history Presenting a comprehensive study of complaint systems in Chinese history from early times to the present this important book fills the gap in existing literature on complaint systems in China Drawing on primary sources Qiang Fang analyses the significance of continuities and changes in historical complaint systems for contemporary China where the state continues to be nominally strong but actually fragile Unlike other major theories of popular resistance to the state in China such as everyday resistance rightful resistance and resistance as legal rights this book develops the theory that behind Chinese complaint systems there was a mentality of natural resistance that has been deeply embedded in Chinese culture political philosophy and folk religion for millennia Given this history Fang concludes that it is likely that some form of complaint system will continue to exist and by helping to mitigate the increasing demands of the Chinese state on the Chinese will serve to strengthen the state An essential contribution understanding the strengths weaknesses and various roles of the Letters and Visits System in contemporary China as well as the systems that have preceded it throughout China's long history this book will be of huge interest to students and scholars of Chinese history politics and law

Communicating with the Gods Matthias Schumann, Elena Valussi, 2023-10-09 Few religious innovations have shaped Chinese history like the emergence of spirit writing during the Song dynasty From a divinatory technique it evolved into a complex ritual practice used to transmit messages and revelations from the Gods This resulted in the production of countless religious scriptures that now form an essential corpus widely venerated and recited to this day that is still largely untapped by research Using historical and ethnographic approaches this volume for the first time offers a comprehensive overview of the history of spirit writing examining its evolution over a millennium the practices and technologies used and the Corruption and Anticorruption in Modern China Qiang Fang, Xiaobing Li, 2018-12-20 communities involved Corruption and Anti Corruption in Modern China collects essays from the scholars in their fields and examines the ongoing corruption in China by addressing this important topic from a historical perspective through a cooperative interdisciplinary research effort among Chinese American scholars interested in the subject Their scholarship makes a significant contribution through multi faceted components from different fields such as history economics political science criminal justice and popular culture The authors introduce and explore the theory and practice of policy patterns political systems and social institutions by identifying key issues in Chinese government and society contained within the larger framework of the international sphere This book describes a historical transition when the Chinese Communist Party CCP maintained its forceful control of cities while the middle class reluctantly sacrificed its rights in exchange for retaining their economic benefits To survive market economy the party leadership became more flexible and was able to adapt to economic and social change The CCP governments in our research responded to the rising demands and expectations of the society They were willing and able to cope with the middle class by making a few compromises and following certain legal procedures in exchange for continuing political support These practical comprises characterized a new political culture in PRC history since 1949 The book voices the complaints and resentments in the cities and interprets government policies and legal practices It emphasizes the consequence for governance human rights and commercial rule of law all of which threatens the legitimacy of the CCP It also suggests an important evolution of the CCP The reform movement since the 1980s has not yet contributed significantly to the country's democratic transformation or to its social stability. The leaders in the 1990s focused on liberal economic reform while discouraging and even stifling political reform As a result economic interest groups successfully established an alliance with CCP officials to control economic policy making and to share political governance In the 2010s Chinese leaders have paid special attention to political scandals corruption and mismanagement in the government and in The Religious Question in Modern China Vincent Goossaert, David A. Palmer, 2011-04-15 Recent events the Party from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion The Religious Question in Modern China highlights parallels and contrasts between

historical events political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present Vincent Goossaert and David A Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms The Religious Question in Modern China integrates historical anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensible reference for specialists and students alike Like Cattle and Horses S. A. Smith, 2002-04-09 Exploration of the development of national and class identities among Shanghai workers claiming that nationalism had a greater hold on working class identity between 1895 and 1927 than class consciousness

Women and China's Revolutions Gail Hershatter, 2018-09-04 If we place women at the center of our account of China's last two centuries how does this change our understanding of what happened This deeply knowledgeable book illuminates the places where the Big History of recognizable events intersects with the daily lives of ordinary people using gender as its analytic lens Leading scholar Gail Hershatter asks how these events affected women in particular and how women affected the course of these events For instance did women have a 1911 revolution A socialist revolution If so what did those revolutions look like Which women had them Hershatter uses two key themes to frame her analysis The first is the importance of women s visible and invisible labor The labor of women in domestic and public spaces shaped China s move from empire to republic to socialist nation to rising capitalist power The second is the symbolic work performed by gender itself What women should do and be was a constant topic of debate during China's transformation from empire to weak state to partially occupied territory to nascent socialist republic to reform era powerhouse What sorts of concerns did people express through the language of gender How did that language work and why was it so powerful Drawing on decades of Hershatter's groundbreaking scholarship and mastery of a range of literatures this beautifully written book will be essential reading for all students of China's modern history The Troublesome Legacy of Commissioner Lin Joyce A. Madancy, 2020-03-23 In 1908 a very public crusade against opium was in full swing throughout China and the provincial capital and treaty port of Fuzhou was a central stage for the campaign This the most successful attempt undertaken by the Chinese state before 1949 to eliminate opium came at a time when according to many historians China's central state was virtually powerless This volume attempts to reconcile that apparent contradiction The remarkable albeit temporary success of the anti opium campaign between 1906 and 1920 is as yet largely unexplained How these results were achieved how that progress was squandered and why China's opium problem proved so tenacious are the questions that inspired this volume The attack on this social problem was led by China's central and provincial authorities aided by reformist elites and

seemingly supported by most Chinese The anti-opium movement relied on the control and oversight provided by a multilayered state bureaucracy the activism and support of unofficial elite led reform groups the broad nationalistic and humanitarian appeal of the campaign and the cooperation of the British government The extent to which the Chinese state was able to control the pace and direction of the anti opium campaign and the evolving nature of the political space in which elite reformers publicized and enforced that campaign are the guiding themes of this analysis **Proletarian China** Ivan Franceschini, Christian Sorace, 2022-06-07 A century of complex relations between Communists and workers in China In 2021 the Chinese Communist Party celebrated a century of existence Since the Party's humble beginnings in the Marxist groups of the Republican era to its current global ambitions one thing has not changed for China's leaders their claim to represent the vanguard of the Chinese working class Spanning from the night classes for workers organised by student activists in Beijing in the 1910s to the labour struggles during the 1920s and 1930s from the turmoil of the Cultural Revolution to the social convulsions of the reform era to China's global push today this book reconstructs the contentious history of labour in China from the early twentieth century to this day and beyond This will be achieved through a series of essays penned by scholars in the field of Chinese society politics and culture each one of which will revolve around a specific historical event in a mosaic of different voices perspectives and interpretations of what constituted the experience of being a worker in China in the past century Contributors Corey Byrnes Craig A Smith Xu Guogi Zhou Ruixue Lin Chun Elizabeth J Perry Tony Saich Wang Kan Gail Hershatter Apo Leong S A Smith Alexander F Day Yige Dong Seung Joon Lee Lu Yan Joshua Howard Bo renlund S rensen Brian DeMare Emily Honig Po chien Chen Yi hung Liu Jake Werner Malcolm Thompson Robert Cliver Mark W Frazier John Williams Christian Sorace Zhu Ruiyi Ivan Franceschini Chen Feng Ben Kindler Jane Hayward Tim Wright Koji Hirata Jacob Eyferth Aminda Smith Fabio Lanza Ralph Litzinger Jonathan Unger Covell F Meyskens Maggie Clinton Patricia M Thornton Ray Yep Andrea Piazzaroli Longobardi Joel Andreas Matt Galway Michel Bonnin A C Baecker Mary Ann O Donnell Tiantian Zheng Jeanne L Wilson Ming sho Ho Yueran Zhang Anita Chan Sarah Biddulph Jude Howell William Hurst Dorothy J Solinger Ching Kwan Lee Chlo Froissart Mary Gallagher Eric Florence Junxi Qian Chris King chi Chan Elaine Sio Ieng Hui Jenny Chan Eli Friedman Aaron Halegua Wanning Sun Marc Blecher Huang Yu Manfred Elfstrom Darren Byler Carlos Rojas Fieldwork in Modern Chinese History Thomas David DuBois, Jan Kiely, 2019-11-19 This book explores how Chen Oiufan fieldwork has been used to research Chinese history in the past and new ways that others might use in it the future It introduces the previous generations of scholars who ventured out of the archive to conduct local investigations in Chinese cities villages farms and temples It goes on to present the techniques of historical fieldwork providing guidance on how to integrate oral history into research plans and archival research conduct interviews and locate sources in the field Chapters by established researchers relate these techniques to specific types of fieldwork including religion the imperial past natural environments and agriculture Combining the past and the future of the craft the book provides a rich resource for scholars

coming new to fieldwork in the history of China Young Mongols and Vigilantes in Inner Mongolia's Interregnum **Decades, 1911-1931** Christopher Atwood, 2022-10-04 In Young Mongols and Vigilantes in Inner Mongolia's Interregnum Decades 1911 1931 a vivid narrative of the underground world of pan Mongolist agitation in China the author shows how the paradoxical legacy of China's New Policies reforms left ethnically based nationalism as the only common denominator for political action In the turbulent years of China's warlord republic educated Mongol nationalists and rural vigilantes sought to unify Inner Mongolia with the independent state in Mongolia proper Brought together by the Soviet embassy the nationalists fought for an autonomous Inner Mongolia until their final doomed uprisings of 1928 Based on previously closed Mongolian archives Young Mongols and Vigilantes is a path breaking contribution to the history of Soviet involvement in Inner Mongolia Chinese Communist nationality policy and the social history of multi ethnic Inner Mongolia The print edition is available as a set of two volumes 9789004126077 Quest for Power Stephen R. Halsey, 2015-10-12 China's late imperial history has been framed as a long coda of decline played out during the Qing dynasty Reappraising this narrative Stephen Halsey traces the origins of China's current great power status to this so called decadent era when threats of war with European and Japanese empirestriggered innovative state building and statecraft Grassroots Political Reform in Contemporary China Elizabeth J. Perry, Merle Goldman, 2009-07-01 Observers often note the glaring contrast between China's economic progress and its stalled political reforms This volume written by experienced scholars explores a range of grassroots efforts initiated by the state and society alike to restrain corrupt behavior and enhance the accountability of local authorities Revolution in the Highlands Stephen C. Averill, 2006-11-06 This extensively researched and elegantly written study offers a fine grained analysis of the origins of the Chinese Communist Revolution in the countryside Building on decades of research in newly available sources and multiple trips to Jiangxi Stephen Averill provides a definitive local perspective on the rise of a revolution that reshaped China and the world A rich work of social history it goes beyond recently popular organizational approaches to explore the ways in which the party and social networks interpenetrated and interacted in the early stages of revolutionary base building The Jinggangshan highlands provided the base for Mao Zedong s first efforts at rural revolution Chinese histories and most Western accounts have focused on the heroic exploits of Mao and his Communist Party comrades battling the natural elements hostile military forces and skeptical authorities in the urban based Communist Central Committee This long awaited work penetrates the hagiographic haze of Mao centered analysis to provide a close narrative and rich social history of the Jinggangshan base The author explores the historical patterns of local strongman rule clientelist politics lineage conflict and ethnic struggle within which the party competed for power Through this multifaceted lens the revolutionary experience in Jinggangshan is equally dramatic but considerably more sobering than the conventional story Among Western studies of the Chinese revolution this work stands out as the definitive account of the critical moment in the 1920s when the physical and ideological center of the Communist movement shifted from the cities to the countryside This

was a process of elite mediated political osmosis and adaptive compromises with local traditions. The party was not simply an outside force manipulating social tensions for its own political ends. There was instead an intricate interweaving of local networks and social cleavages in the highlands with the political structures and policy divisions of t
