Spanning cultures across the 20th century this volume explores how marriage especially in the West was disestablished as the primary institution organizing social life In the developing world the economic social and legal foundations of traditional marriage are stronger but also weakening Marriage changed because an industrial wage economy reduced familial patriarchal control of youth and women and spurred demands and possibilities for greater autonomy and choice in love After the Second World War when more married women pursued education and employment and gays and lesbians gained visibility feminism and gay liberation also challenged patriarchal and restrictive gender roles and helped to reshape marriage In 1920 most people married for life in the twenty first century fewer marry and serial monogamy prevails Marriage is more diverse and flexible in form but also more fragile and optional than it once was Over the century control of courtship shifted from parents to youth and friends as opposed to kin became more important in sustaining marriages Dual wage earner families replaced the male breadwinner Social and political liberalism assailed conservative laws and religious regimes expanding access to divorce and birth control Although norms of masculinity and femininity retain huge power in most cultures visions of more egalitarian and romantic love as the basis of marriage have gained traction made appealing by the global spread of capitalist social relations and also broadcast by culture industries in the developed world The legalization of same sex marriage in over twenty five nations by 2020 epitomizes a century of change toward a less gender defined ideal that includes a continued desire for social recognition and permanence A Cultural History of Marriage in the Modern Age presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage

*A Cultural History of Marriage in the Age of Empires* Paul Puschmann, 2021-11-18

**A Cultural History of Marriage in the Medieval Age** Joanne M. Ferraro, Frederik Pedersen, 2021-11-18

Marriage in Europe became a central pillar of society during the medieval period. Theologians, lawyers, and secular and church leaders agreed on a unique outline of the institution and its legal framework, the essential features of which remained in force until the 1980s. The medieval Western European definition of marriage was unique before the legal consequences of marriage came into being: the parties had to promise to engage in sexual union only with one partner and to remain in the marriage until one of the parties died. This requirement had profound implications for inheritance rules and for the organization of the family economy. It was explained and justified in a multitude of theological discussions and legal decisions across all faiths on the European continent. Normative texts built on the foundations of the scriptures of several religious traditions provided an impressive intellectual framework around marriage. In addition, developments in iconography, including sculpture and painting, projected the dominant model of marriage, while social demographic and cultural changes encouraged its adoption. This volume traces the medieval discussion of marriage in practice, law, theology, and iconography. It provides an examination of the wider political and economic context of marriage and offers an overview of the ebb and flow of society's ideas about how expressions of human sexuality fit within the confines of a clearly defined social structure and ideology.

**A Cultural History of Marriage in the Medieval Age** presents an overview of the period with essays on Courtship and Ritual, Religion, State and Law, Kinship and Social Networks, the Family Economy, Love and Sex, the Breaking of Vows, and Representations of Marriage. **A Cultural History of Marriage in the Renaissance and Early Modern Age** Joanne M. Ferraro, 2021-11-18. Why marry? The personal question is timeless. Yet the highly emotional desires of men and women during the period between 1450 and 1650 were also circumscribed by external forces that operated within a complex arena of sweeping economic, demographic, political, and religious changes. The period witnessed dramatic religious reforms in the Catholic confession and the introduction of multiple Protestant denominations, the advent of the printing press, European encounters and exchange with the Americas, North Africa, and southwestern and eastern Asia, the growth of state bureaucracies, and a resurgence of ecclesiastical authority in private life. These developments, together with social, religious, and cultural attitudes including the constructed norms of masculinity, femininity, and sexuality, impinged upon the possibility of marrying. The nine scholars in this volume aim to provide a comprehensive picture of current research on the cultural history of marriage for the years between 1450 and 1650 by identifying both the ideal templates for nuptial unions in prescriptive writings and artistic representation and actual practices in the spheres of courtship and marriage, rites, sexual relationships, the formation of family networks, marital dissolution, and the overriding choices of individuals over the structural and cultural constraints of the time.

**A Cultural History of Marriage in the Renaissance and Early Modern Age** presents an overview of the period with essays on Courtship and Ritual, Religion, State and Law, Kinship and Social Networks, the Family Economy, Love and Sex, the Breaking of Vows, and Representations of Marriage. **A Cultural History of Marriage in the Age of Enlightenment** Edward Behrend-Martínez, 2021-11-18. Could an institution as sacred and

traditional as marriage undergo a revolution Some people living during the so called Age of Enlightenment thought so By marrying for that selfish personal emotion of love rather than to serve religious or family interests to serve political demands or the demands of the pocketbook a few but growing number of people revolutionized matrimony around the end of the eighteenth century Marriage went from being a sacred state instituted by the Church and involving everyone to for a few intrepid people a secular contract a deal struck between two individuals based entirely on their mutual love and affection Few would claim today that love is not the cornerstone of modern marriage The easiest argument in favor of any marriage today no matter how star crossed the individuals is that the couple is deeply and hopelessly in love with one another But that was not always so clear Before the eighteenth century very few couples united simply because they shared a mutual attraction and affection for one another Yet only a century later most people would come to believe that mutual love and even attraction were necessary for any marriage to succeed A Cultural History of Marriage in the Age of Enlightenment explores the ways that new ideas cultural ideals and economic changes big and small reshaped matrimony into the institution that it is today allowing love to become the ultimate essential ingredient for modern marriages A Cultural History of Marriage in the Age of Enlightenment presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage

**Once More Unto the Speech, Dear Friends: The comedies** William Shakespeare, 2006 Applause Books There has been a great change in the last twenty years to actor auditions which now require the demonstration of enormous flexibility The actor is often expected to show more range than ever before and often several shorter audition

speeches are asked for instead of one or two longer ones To stay at the top of his or her game the Shakespearean actor needs more knowledge of what makes the play tick especially since the early plays demand a different style from the later ones Each genre comedy history tragedy has different requirements No current monologue book deals directly with the bulk of these concerns One More unto the Speech Dear Friends now fills that gap This three volume set will help actors discover the extra details of humanity that the original folio texts automatically offer Of Shakespeare's 37 plays only Pericles is not included In the trilogy of books there are over 900 separate audition possibilities This represents about 600 more monologues than are available in any other series There are four parts to each speech A background giving context and approximate timing A modern text version The original folio version Commentary to explain the differences between the two texts including full discussion of the devices peculiar to that speech's genre the age and gender of the character and more

**The Laws of Marriage** John Fulton, 1883      Marriage by Force? Annie Bunting, Benjamin N. Lawrance, Richard L. Roberts, 2016-06-15 With forced marriage as with so many human rights issues the sensationalized hides the mundane and oversimplified popular discourses miss the range of experiences In sub Saharan Africa the relationship between coercion and consent in marriage is a complex one that has changed over time and place rendering impossible any single interpretation or explanation The legal experts anthropologists historians and development workers contributing to Marriage by Force focus on the role that marriage plays in the mobilization of labor the accumulation of wealth and domination versus dependency They also address the crucial slippage between marriages and other forms of gendered violence bondage slavery and servile status Only by examining variations in practices from a multitude of perspectives can we properly contextualize the problem and its consequences And while early and forced marriages have
