Moment to Monument Ladina Bezzola Lambert, Andrea Ochsner, 2015-07-15 Why do certain works of art make it into the canon while others just enjoy a brief moment of recognition if at all How do moments produce monuments and why are monuments erased from our cultural memory in only a moment Taking into account these cultural processes of creating storing remembering and forgetting that are omnipresent and have an immense influence on how we perceive artefacts and cultural events the articles in this collection analyze the phenomenon of cultural production transmission and reception from various angles drawing on approaches from both literary and cultural studies With its transdisciplinary approach this book uniquely responds to an everyday cultural phenomenon that so far has not received such wide ranging attention *Esthetics of the Moment* Thomas M. Artificial Evolution Pierre Collet, Cyril Fonlupt, Jin-Kao Hao, Evelyne Lutton, Marc Schoenauer, 2003-08-01

The Evolutionary Artificial Cycle of conferences was originally initiated as a forum for the French-speaking evolutionary computation community. Previous EA meetings were held in Toulouse EA 94, Brest EA 95, LNCS 1063, Nîmes EA 97, LNCS 1363, Dunkerque EA 99, LNCS 1829, and finally EA 2001 was hosted by the Université de Bourgogne in the small town of Le Creusot in an area of France renowned for its excellent wines. However, the EA conferences have been receiving more and more papers from the international community; this conference can be considered fully international with 39 submissions from non-francophone countries on all five continents out of a total of 68. Out of these 68 papers, only 28 were presented orally (41%) due to the formula of the conference: single session with presentations of 30 minutes that all participants seem to appreciate a lot. The Organizing Committee wishes to thank the members of the International Program Committee for their hard work, mainly due to the large number of submissions and for the service they rendered to the community by ensuring the high scientific content of the papers presented. Actually, the overall quality of the papers presented was very high, and all 28 presentations are included in this volume, grouped in 8 sections which more or less reflect the organization of the oral session.
