Sex Offenders Fabian M. Saleh, John M. Bradford, Dr. John Bradford, Daniel J. Brodsky, 2021 In his annual lecture to second year medical students, Dr. Fred Berlin describes an interview he had early in his career with a man whom he was evaluating following the man's arrest for child sexual abuse. Halfway through the interview, the arrested man interrupted Dr. Berlin's questions and said, "You know Doctor, your society takes a newborn baby, boy, gathers family and friends, takes a knife and without any anesthesia cuts skin off the tip of his penis. This is accepted as a religious act. I bend over and kiss that same penis and I am arrested as a child sexual abuser. Can you explain that to me?" Berlin, 2000.

Sexual Offending Amy Phenix, Harry M. Hoberman, 2015-12-07 This expert reference provides a broad comprehensive review of the major domains of sexual offending. Beginning with an integrated etiological model of sexual offending, chapters follow addressing the primary predisposing conditions related to sexual offending, e.g., pedophilic, hebephilic, paraphilic, rape, and non-contact paraphilic disorders, hypersexuality, and personality factors. In addition, special subgroups of sexual offenders, females, youth, and the intellectually disabled, are considered. Both broad and specific perspectives on the assessment of sexual offenders are provided. Overviews are offered of clinical and forensic evaluations of such offenders and the utility of structured psychological assessment. A novel conceptual model of risk assessment is proposed. More specifically, each of the primary approaches or instruments related to risk assessment of sexual offending are addressed: the Static risk assessment measures, the Sex Offender Risk Appraisal Guide, structured professional judgment, and the varied measures of dynamic or criminogenic needs assessment. Finally, multiple aspects of management of sexual offenders are discussed, including models of psychosocial treatment, the question of the effectiveness of such treatment, biological interventions, civil commitment, circles of support, and the containment approach to community management. Chapters are authored by both prominent experts and experienced professionals for a breadth of perspective. Among the topics covered: Pedophilic, Hebephilic, Rape, Paraphilic Disorders, and the variety of Non-Contact sexual offending conditions; Personality related conditions, their association with sexual offending, motivators, and disinhibition in context; Disorders of hypersexuality; Assessments of sexual offenders, including the role of psychological testing, clinical interview approaches, as well as forensic evaluations; Conceptual models of risk assessment.
