DARE to Say No Max Felker-Kantor, 2024-02-14 With its signature DARE to keep kids off drugs slogan and iconic t shirts DARE Drug Abuse Resistance Education was the most popular drug education program of the 1980s and 1990s But behind the cultural phenomenon is the story of how DARE and other antidrug education programs brought the War on Drugs into schools and ensured that the velvet glove of antidrug education would be backed by the iron fist of rigorous policing and harsh sentencing Max Felker Kantor has assembled the first history of DARE which began in Los Angeles in 1983 as a joint venture between the police department and the unified school district By the mid 90s it was taught in 75 percent of school districts across the United States DARE received near universal praise from parents educators police officers and politicians and left an indelible stamp on many millennial memories But the program had more nefarious ends and Felker Kantor complicates simplistic narratives of the War on Drugs He shows how policing entered US schools and framed drug use as the result of personal responsibility moral failure and poor behavior deserving of punishment rather than something deeply rooted in state retrenchment the abandonment of social service provisions and structures of social and economic inequality

Perspectives on Microsoft Office 2000 Visual Basic for Applications Rebekah Tidwell, Neil Thomas, 2001 A case based problem solving approach to learning basic through intermediate VBA skills and how they can be used to write data for Office applications *Resources in Education* ,2001-04 *A History of the U.S. Army's Residential Communities Initiative, 1995-2010* Matthew C. Godfrey, Paul Sadin, 2012 Prepared for the Office of the Assistant Secretary of the Army Installations Energy Environment **Race and Education in New Orleans** Walter Stern, 2018-05-04 Surveying the two centuries that preceded Jim Crow's demise *Race and Education in New Orleans* traces the course of the city's education system from the colonial period to the start of school desegregation in 1960 This timely historical analysis reveals that public schools in New Orleans both suffered from and maintained the racial stratification that characterized urban areas for much of the twentieth century Walter C Stern begins his account with the mid eighteenth century kidnapping and enslavement of Marie Justine Sirnir who eventually secured her freedom and played a major role in the development of free black education in the Crescent City As Sirnir's story and legacy illustrate schools such as the one she envisioned were central to the black antebellum understanding of race citizenship and urban development Black communities fought tirelessly to gain better access to education which gave rise to new strategies by white civilians and officials who worked to maintain and strengthen the racial status quo even as they conceded to demands from the black community for expanded educational opportunities The friction between black and white New Orleanians continued throughout the nineteenth century and well into the twentieth when conflicts over land and resources sharply intensified Stern argues that the post Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity segregated schools gave rise to segregated communities which in turn created structural inequality in housing that impeded desegregation's capacity to promote racial justice By taking a long view of the interplay between education race and urban change Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process A vital and accessible history *Race and Education in New Orleans* provides a comprehensive look at the ways the New Orleans school system shaped the city's racial and urban landscapes

Official Gazette of the United States Patent and Trademark Office ,2003 **Time to Heal** Kenneth M. Ludmerer M.D., 1999-11-11 Already the recipient of extraordinary critical acclaim this magisterial book provides a landmark account of American medical education in the twentieth century concluding with a call for the reformation of a system currently handicapped by managed care and by narrow self centered professional interests Kenneth M Ludmerer describes the evolution of American medical education from 1910 when a muck raking report on medical diploma mills spurred the reform and expansion of medical schools to the current era of managed care when commercial interests once more have come to the fore compromising the training of the nation's future doctors Ludmerer portrays the experience of learning medicine from the perspective of students house officers faculty administrators and patients and he traces the immense impact on academic

medical centers of outside factors such as World War II the National Institutes of Health private medical insurance and Medicare and Medicaid Most notably the book explores the very real threats to medical education in the current environment of managed care viewing these developments not as a catastrophe but as a challenge to make many long overdue changes in medical education and medical practice Panoramic in scope meticulously researched brilliantly argued and engagingly written *Time to Heal* is both a stunning work of scholarship and a courageous critique of modern medical education The definitive book on the subject it provides an indispensable framework for making informed choices about the future of medical education and health care in America

An Education in Politics Jesse Rhodes, 2012-05-01 Since the early 1990s the federal role in education exemplified by the controversial No Child Left Behind Act NCLB has expanded dramatically Yet states and localities have retained a central role in education policy leading to a growing struggle for control over the direction of the nation's schools In *An Education in Politics* Jesse H Rhodes explains the uneven development of federal involvement in education While supporters of expanded federal involvement enjoyed some success in bringing new ideas to the federal policy agenda Rhodes argues they also encountered stiff resistance from proponents of local control Built atop existing decentralized policies new federal reforms raised difficult questions about which level of government bore ultimate responsibility for improving schools Rhodes's argument focuses on the role played by civil rights activists business leaders and education experts in promoting the reforms that would be enacted with federal policies such as NCLB It also underscores the constraints on federal involvement imposed by existing education policies hostile interest groups and above all the nation's federal system Indeed the federal system which left specific policy formation and implementation to the states and localities repeatedly frustrated efforts to effect changes national reforms lost their force as policies passed through iterations at the state county and municipal levels Ironically state and local resistance only encouraged civil rights activists business leaders and their political allies to advocate even more stringent reforms that imposed heavier burdens on state and local governments Through it all the nation's education system made only incremental steps toward the goal of providing a quality education for every child
