China's Second Capital - Nanjing under the Ming, 1368-1644 Jun Fang, 2014-05-23 This book is a study of the dual capital system of Ming dynasty China 1368 1644 with a focus on the administrative functions of the auxiliary Southern Capital Nanjing It argues that the immense geographical expanse of the Chinese empire and the poor communication infrastructure of pre modern times necessitated the establishment of an additional capital administration for effective control of the Ming realm The existence of the Southern Capital which has been dismissed by scholars as redundant and insignificant was the author argues justified by its ability to assist the primary Northern Capital better control the southern part of the imperial land The practice of maintaining auxiliary capitals where the bureaucratic structures of the primary capital were replicated in varying degrees was a unique and valuable approach to effecting bureaucratic control over vast territory in pre modern conditions Nanjing translates into English as Southern Capital and Beijing as Northern Capital

Luxurious Networks Yulian Wu, 2017-01-04 From precious jade articles to monumental stone arches Huizhou salt merchants in Jiangnan lived surrounded by objects in eighteenth century China How and why did these businessmen devote themselves to these items What can we learn about eighteenth century China by examining the relationship between merchants and objects Luxurious Networks examines Huizhou salt merchants in the material world of High Qing China to reveal a dynamic interaction between people and objects The Qianlong emperor purposely used objects to expand his influence in economic and cultural fields Thanks to their broad networks outstanding managerial skills and abundant financial resources these salt merchants were ideal agents for selecting and producing objects for imperial use In contrast to the typical caricature of merchants as mimics of the literati these wealthy businessmen became respected individuals who played a crucial role in the political economic social and cultural world of eighteenth century China Their life experiences illustrate the dynamic relationship between the Manchu and Han central and local and humans and objects in Chinese history

*State, Market and Salt-Tobacco Road in Modern China (1935-1949)* Benmo Jiang, Zhao Zhou, Yujing Tan, Haoqi Meng, 2024-12-16 Through a meticulous analysis of various historical sources the authors of this book have uncovered a wealth of information on the trade of salt and tobacco in Guizhou province southwest of China

in the 1930s and 1940s Their findings not only shed light on how commercial networks and the flow of these commodities formed and transformed with the development of wartime state monopoly but also offer a more comprehensive perspective on the role of merchants and entrepreneurs in regulated commodity chains to go beyond the dichotomous state market perspective of socioeconomic analysis *Chinese Economic Journal and Bulletin* ,1929 *The Post Office Directory of Durham and Northumberland* ,1879 *Salt and State* Cecilia Chien,2020-08-06 Salt and State is an annotated translation of a treatise on salt from Song China From its inception in the Han dynasty 206 B C 220 A D the salt monopoly was a key component in the Chinese government s financial toolkit Salt with its highly localized and large scale production was an ideal target for bureaucratic management In the Song dynasty 960 1279 fiscal pressures on the government had intensified with increased centralization and bureaucratization A bloated administration and an enormous standing army maintained against incursions by aggressive steppe neighbors placed tremendous strain on Song finances Developing the salt monopoly seemed a logical and indeed urgent strategy but each actor in this plan the emperor local officials monopoly administrators producers merchants and consumers had his own interests to protect and advance Thus attempts to maximize the effectiveness of the monopoly meant frequent policy swings and led to levels of corruption that would ultimately undo the Song Unlike other contemporary sources the Songshi treatise organizes its subject into an intelligible and detailed narrative elucidating special terminology the bureaucracy and its processes and debates relating to Chinese finance and politics as well as the salt industry itself Professor Chien s extensive annotation relies on parallel histories that corroborate and supplement the Songshi account together providing a comprehensive study of this important institution in China s premodern political economy **Kelly's Directory of Merchants, Manufacturers and Shippers** ,1897 *The Weekly Notes* Frederick Pollock,1873 **Kelly's Post Office London Directory** ,1891 *Post office [afterw.] Kelly's directory of Hampshire, Dorsetshire, Wiltshire (the Isle of Wight, and the Channel Islands)*. Kelly's directories, ltd,1880 **Gore's Directory of Liverpool and Its Environs for the Year ...** ,1834 **The Post Office London Directory** ,1847 *The Rise and Fall of a Public Debt Market in 16th-Century China* Wing-kin Puk,2015-11-16 During the Ming dynasty 1368 1644 the government invited merchants to deliver grain in return for salt certificates with which merchants drew salt as reward The salt certificate therefore represented a national debt denominated in salt the government thereby owed merchants A speculative market of salt certificates was created in Yangzhou and brought into being powerful financiers in the early 17th century The government financially hard pressed abolished the speculative market of salt certificates by franchising these financiers in return for their hereditary obligation to pay salt certificate surcharge China was therefore deprived of a possibility to develop a public debt market This story is a testimony to Fernand Braudel s argument of the nondevelopment of Capitalism in China
