The Officers of the Commons, 1363-1978 Philip Marsden, 1979 **The Officers of the Commons, 1363-1978** Philip Kitson Marsden, 1966 **British Sources of Information** P. Jackson, 2003-09-02 This comprehensive and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs life and culture The resources of a detailed bibliography directory and journals listing are combined in this single volume forming a unique guide to a multitude of diverse topics British politics government society literature thought arts economics history and geography Academic subjects as taught in British colleges and universities are covered with extensive reading lists of books and journals and sources of information for each discipline making this an invaluable manual

Modern Methods of Teaching Political Science Prem Lata Sharma, 2002 Parliament and the Public Edmund Marshall, 1982-06-18 **The Uneasy Relationships Between Parliamentary Members and Leaders** Reuven Y. Hazan, Lawrence D. Longley, 2014-04-04 The bases of uneasy member leadership relations their manifestation and sometimes resolution and the consequences of member leadership tension to effective parliamentary performance and policy making are considered in studies ranging from Germany to the US and New Zealand and globally Parliament: A Question of Management V M (Val) Barrett, 2022-10-28 For centuries scholars and practitioners have studied parliament and its potential reform from an institutional perspective Until now few authors have addressed in depth the internal relationships among parliamentary actors their competing beliefs and their influence on parliament s effectiveness Parliament is overwhelmingly an agonistic institution and competition for status resources influence and control has pervaded its administration and impeded reform Parliaments appear to struggle with the concept of institutional management The doctrine of exclusive cognisance or sole jurisdiction implies that parliament and only parliament should retain control of its internal business and processes But why is parliament considered to be unique among public institutions and why do parliaments appear to resist or even defy attempts to manage them more effectively At a time when the public is losing confidence in governments politics and political institutions parliament s role as a broker of ideas and a forum for deliberative policymaking is under threat In an institution where no one has overall authority and direction staying relevant and managing public expectations present major challenges for its members and administrators This book examines parliamentary management in the national parliaments of Australia and the United Kingdom Without claiming to be a how to book it attempts to provide a relatable account of how parliamentary officials and members of parliament carry out their inherently complex roles and how they might be assisted by contemporary public management approaches **The Office of Speaker in the Parliaments of the Commonwealth** Philip Laundy, 1984 Philip Laundy Clerk Assitant of the Canadian Houe of Commons has written a book on the Speakership in the Parliaments of the Commonwealth which is not far short of encyclopaedic in its scope He is the author of an earlier work entitled *The Office Speaker* and joint author of *An Encyclopaedia of Parliament* and has thus devoted many years to the study

of Parliament and its institutions The present book while drawing on some of the material contained in its predecessor is substantially a new work which breaks a great deal of fresh ground It deals with the Speakership in some forty Commonwealth countries and its a tribute to parliamentary democracy and the influence of British parliamentary practices At the same time it highlights how very differently the system of some countries have evolved from the traditions associated with Great Britain In Canada the widely supported movement towards the political independence of the Speakership has yet to become an established practice In India there exists a similar consciousness of the desirability of an independent Speakership but practical obstacles have remained in the way of its attainment In Australia the office is heavily dependent on the party in power and this seems unlikely to change In New Zealand although the Parliament adheres closely to Westminster practices the Speaker is nevertheless likely to change with a change of government There are countries elsewhere in the Commonwealth where the Speaker is not necessarily an elected member of Parliament In most African Parliaments the Speakership is inseparable from the ruling party and loyalty to the party particularly in one party states is a sine qua non But throughout the book the author stresses the similarities which link the office Speaker in the far flung countries of the Commonwealth to its British counterpart The history of the Speakership from its earliest origins is compressed into a single chapter and a second chapter is devoted to an analysis of the British Speakership in the twentieth century He has considered the nature and duties of the modern Speakership the prestige and continuity of the office problems surrounding the selection of the candidate the Speaker s responsibilities relating to procedure privilege and the maintenance of discipline and his statutory duties Parliamentarians historians and students of government throughout the Commonwealth will find this book a mine of information concerning the Speakership and a comparative source of reference which is as complete accurate and up to date as the author has been able to make Enlivened with a wealth of anecdotes it is a highly readable account of a great historic office
