Primary English Curriculum Guide Christine Moorcroft, Ray Barker, 2013-11-26 First Published in 2001 The purpose of this curriculum guide is to help student teachers and newly qualified teachers to make a start on learning how to become competent teachers of English Despite the emphasis given in training courses to the teaching of English newly qualified teachers often feel underprepared for it and frequently mention their concerns about this These concerns can be partly explained by a general lack of confidence in this key area and partly by widespread media and political criticism of the teaching of literacy It is also because it is often difficult for a student to make the connection between observation of key teaching strategies and his or her own personal practice *The Stationery Office Annual Catalogue 1999* Stationery Office, 2001 **The Stationery Office Annual Catalogue** Great Britain. Evaluation of the Voluntary National Tests, Year 2 National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on the Evaluation of the Voluntary National Tests, Year 2, 1999-12-17.

In his 1997 State of the Union address, President Clinton announced a federal initiative to develop tests of 4th grade reading and 8th grade mathematics that could be administered on a voluntary basis by states and school districts beginning in spring 1999. The principal purpose of the Voluntary National Tests (VNT) is to provide parents and teachers with systematic and reliable information about the verbal and quantitative skills that students have achieved at two key points in their educational careers. The U.S. Department of Education anticipated that this information would serve as a catalyst for continued school improvement by focusing parental and community attention on achievement and by providing an additional tool to hold school systems accountable for their students' performance in relation to nationwide standards. Shortly after initial development work on the VNT, Congress transferred responsibility for VNT policies, direction, and guidelines from the department to the National Assessment Governing Board (NAGB), the governing body for the National Assessment of Educational Progress. Test development activities were to continue, but Congress prohibited pilot and field testing and operational use of the VNT pending further consideration. At the same time, Congress called on the National Research Council (NRC) to assess the VNT development activities. Since the evaluation began, the NRC has issued three reports on VNT development: an interim and final report on the first year's work and an interim report earlier on this second year's work. This final report includes the findings and recommendations from the interim report, modified by new information and analysis, and presents our overall conclusions and recommendations regarding the VNT. Governance for Harmony in Asia and Beyond Julia Tao, Anthony B. L. Cheung, Martin Painter, Chenyang Li, 2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated
