The Passion of Infinity Daniel Greenspan, 2008-11-03 The Passion of Infinity generates a historical narrative surrounding the concept of the irrational as a threat which rational culture has made a series of attempts to understand and relieve It begins with a reading of Sophocles Oedipus as the paradigmatic figure of a reason that having transgressed its mortal limit becomes catastrophically reversed It then moves through Aristotle s ethics psychology and theory of tragedy which redefine reason s collapses in moral psychological rather than religious terms By changing the way in which the irrational is conceived and the nature of its
