Planning Second Generation Automated Library Systems:

Planning Second Generation Automated Library Systems Edwin Cortez, Tom Smorch, 1993-05-30 This guide focuses on the implementation and management of second generation automated library systems It advances knowledge of the field by describing the migration path of library automated systems Specifically the book is intended to give practical directions in procuring a replacement library automated system As such the text reviews new approaches to library automation which rely on knowledge gained over the past two decades In charting the procurement process the book indicates how to migrate the library's database It discusses state of the art technology such as scanning and imaging devices and provides descriptions and analyses of telecommunications and networking technology and issues This book is intended as an automation planning guide for librarians and library administrators The book expands the subject to include special public and academic libraries and takes into account the experience of those libraries which have already automated and are now considering migration to more powerful automated library systems Special attention is given to integrated library systems and to innovative and still emerging technologies which complement these systems No other text exists that is written at a level that acknowledges the increased sophistication of librarians with automation *New Automation Technology for Acquisitions and Collection*

Development Rosann Bazirjian, 2019-12-06 This book first published in 1995 describes how automation is changing the face of acquisitions as librarians know it and making the future uncertain yet exciting It documents how libraries have increasingly moved to powerful second generation interfaceable or integrated systems that can control all aspects of library operations The libraries presented as examples show that increasing user expectations the siren call of cyberspace and network connectivity and administrative faith in the savings to be obtained from electronic technical services continue to drive the migration to higher level library management systems **Serials Management** Dora Chen Chiou-sen, 1995 This book advises librarians paraprofessional library supervisors and library school students on problems unique to the management of serials *Managing Performing Arts Collections in Academic and Public Libraries* Carolyn A.

Sheehy, 1994-07-21 This professional reference provides solid advice to academic and public librarians for managing performing arts collections The volume is divided into sections on the history of performing arts librarianship dance collections film studies collections music collections and theater collections Each chapter is written by one or more expert contributors and presents current and reliable information on collection management They discuss personnel management collection development technical services public services the impact of new technologies facilities management financial planning and political considerations Each chapter closes with references cited in the chapter and the volume concludes with a valuable selected annotated bibliography of important background sources and management tools **Information**

Services for People with Developmental Disabilities Marilyn M. Irwin, Linda L. Walling, 1995-04-30 Developmental disabilities are the most numerous of disabilities and they are exceptionally complex This professional reference overviews

developmental disabilities discusses the information needs of people with developmental disabilities and provides practical guidance to librarians and information professionals who serve them Particular attention is given to the ramifications of the Americans with Disabilities Act for librarians The first part of the book defines and describes developmental disabilities from perspectives relevant to librarians and information professionals The second part examines key life issues that have a major impact on people with developmental disabilities This section emphasizes the current trend toward the inclusion of people with developmental disabilities in mainstream society References to related information sources are included throughout The third part looks at disabilities from the perspective of the library or other information agency An appendix lists organizations agencies businesses and libraries that provide additional materials

Using Consultants in Libraries and Information Centers Edward D. Garten, 1992-10-13 This handbook offers a comprehensive discussion of the consultant library relationship It includes chapters written by full time professional library consultants information specialists and library administrators who have had extensive experience in using consultants to solve a range of problems in information service Parts I and II address the need to provide a solid foundation based on an understanding of what the consultant will do before arriving on the scene Practical advice is offered by the contributors which should allow for the library or information center staff to more fully accept the activity of the consultant A common thread woven throughout the chapters is the need for strong communication Part III offers views on the roles that consultants may play in the negotiation process the development of proposals and in the evaluation of large scale information systems Specialty areas of consultancy are discussed in Part IV while Part V explores the more vexing dilemmas associated with the consulting process Parts VI and VII provide insights into the future use of consultants and explores alternatives to the use of the traditional external consultant A bibliographic essay and comprehensive index complete the volume New library administrators will find this book of value as they seek to understand the value of using consultants and in establishing effective working relationships with them Middle management library administrators will find the book of interest as they seek to appreciate the range of specialties that consultants now offer In addition library and information science students as well as consultants themselves will find the book of practical value *Journal of the American Society for Information Science* American Society for Information Science, 1994

Technology Planning Joseph R. Matthews, 2004-11-30 Organized around the structure of a technology plan this book explains each subject area and how each part of the plan is related Individual chapters cover The Purpose and Need for a Technology Plan The Description of the Library Challenges Facing the Library Emerging Technologies Current Technology Environment Assessment of the Current Environment Evaluation of the Library's Web Site Recommendations and Evaluation of the Plan *Graduate Announcement* University of Michigan--Dearborn, 1994 *Undergraduate Catalog* University of Michigan--Dearborn, 2006
