Post-9/11 Cinema John Markert, 2011-08-05 In contemporary society cinema has become a primary way in which people gain knowledge about events taking place in the world Films often go beyond news reports by showing in depth behind the scenes footage whether in a documentary or recreated in fictional features More than fleeting scenes of events shown on the nightly news a film can influence people's feelings about war and what our political leaders should do about it This has certainly been the case since the attack on 9/11 and the subsequent incursions into Iraq and Afghanistan In Post 9/11 Cinema Through a Lens Darkly John Markert takes a close look at the films depicting these events Covering cinematic portrayals of 9/11 and the attacks that followed this book examines both dramas and documentaries that depict what some have termed Bush's war as well as rebuttal films films about terrorist activities and

films seen from the vantage point of journalists and military personnel Post 9 11 Cinema not only shows how motion pictures reflect societal values but also how such works can influence social attitudes and thus promote change In addition Markert appraises the film industry and critiques how images are manipulated to sway the viewer to appreciate the side being advocated Examining such dramas as The Messenger Stop Loss The Lucky Ones In the Valley of Elah and The Hurt Locker as well as documentaries including Fahrenheit 9 11 Soldiers of Conscience and Taxi to the Dark Side Post 9 11 Cinema is a valuable read for professors of media and mass communication popular culture and film studies as well as cultural sociologists

The Cambridge History of the English Novel Robert L. Caserio, Clement Hawes, 2012-01-12. The Cambridge History of the English Novel chronicles an ever-changing and developing body of fiction across three centuries. An interwoven narrative of the novel's progress unfolds in more than fifty chapters, charting continuities and innovations of structure, tracing lines of influence in terms of themes and techniques, and showing how greater and lesser authors shape the genre. Pushing beyond the usual period-centered boundaries, the History's emphasis on form reveals the range and depth the novel has achieved in English. This book will be indispensable for research libraries and scholars but is accessibly written for students. Authoritative, bold, and clear, the History raises multiple useful questions for future visions of the invention and re-invention of the novel.

Us, Relatives Nurit Bird-David, 2017-02-21. Anthropologists have long looked to forager-cultivator cultures for insights into human lifeways. But they have often not been attentive enough to local horizons of concern and to the enormous disparity in population size between these groups and other societies. *Us, Relatives* explores how scalar blindness skews our understanding of these cultures and the debates they inspire. Drawing on her long-term research with a community of South Asian foragers, Nurit Bird-David provides a scale-sensitive ethnography of these people as she encountered them in the late 1970s and reflects on the intellectual journey that led her to new understandings of their lifeways and horizons. She elaborates on indigenous modes of being many that have been eclipsed by scale-blind anthropology, which generally uses its large-scale conceptual language of persons, relations, and ethnic groups for even tiny communities. Through the idea of pluripresence, Bird-David reveals a mode of plural life that encompasses a diversity of humans and nonhumans through notions of kinship and shared life. She argues that this mode of belonging subverts the modern ontological touchstone of imagined communities rooted not in sameness among dispersed

strangers but in intimacy among relatives of infinite diversity
