Places David Kolb questions widely held assumptions about our built environments Kolb agrees there is a lot not to like about many contemporary places but to write them off simply as commodified nonplaces does not treat them critically Too often Kolb says aesthetic character and urban authenticity are the focus of critics when it is more important to understand a place s complexity and connectedness Kolb acknowledges that the places around us increasingly have banal exteriors yet they can be complex and can encourage their inhabitants to use them in multiple nonlinear ways Ultimately Kolb believes human activity within a place is what defines it Even our most idealized classical places he shows change over the course of history when subjected to new linkages and different flows of activity Engaging with the work of such writers and critics as Henri Lefebvre Manuel Castells Karsten Harries and Christian Norberg Schulz Kolb seeks to move discussions about sprawl away from the idea that we must choose between being rooted in the local Black Forest soil or wandering in directionless space By increasing our awareness of complexity and other issues Kolb hopes to broaden and deepen people s thinking about the contemporary built environment and to encourage better designs in the future

Our Urban Future Sabina Shaikh, Emily Talen, 2024-06-11 A practical comprehensive textbook that uses active learning techniques to teach about the challenges and opportunities associated with urban sustainability While the problem of urban sustainability has long been a subject of great scholarly interest there has until now been no single source providing a multi disciplinary exhaustive view of how it can be effectively taught Filling this gap Our Urban Future uses active learning techniques to comprehensively relate the theory of urban sustainability and the what why and how of sustainable cities This practical pedagogically rich textbook concisely covers all the key subjects of the field including ecosystem services and transects the internal design and patterning of urban elements how cities mitigate and adapt to climate change and questions of environmental justice It functions as both an illuminating roadmap and active reference to which any student of sustainability can turn to find essential resources and perspectives in pursuit of creating sustainable cities Approachable discrete exercises introduce students to key sustainability subjects Learn by doing approach encourages critically engaging from multiple angles Ideal for students across environmental sustainability urban planning urban design urban studies sociology architecture landscape architecture and geography Robust suite of ancillaries includes links and downloadable data to support activities and additional readings and resources

Fevered Lives Katherine Ott, 1996 Consider two polar images of the same medical condition the pale and fragile Camille ensconced on a chaise in a Victorian parlor daintily coughing a small spot of blood onto her white lace pillow and a wretched poor man in a Bowery flophouse spreading a dread and deadly infection Now Katherine Ott chronicles how in one century a romantic ambiguous affliction of the spirit was transformed into a disease that threatened public health and civic order She persuasively argues that there was no constant identity to the disease over time no core tuberculosis What we understand today as pulmonary tuberculosis would have been largely unintelligible to a physician or patient in the late nineteenth century Although medically the two terms described the same disease of the lungs Ott shows that tuberculosis

and consumption were diagnosed defined and treated distinctively by both lay and professional health workers Ott traces the shift from the pre industrial world of 1870 in which consumption was conceived of primarily as a middle class malaise that conferred virtue heightened spirituality and gentility on the sufferer to the post industrial world of today in which tuberculosis is viewed as a microscopic enemy fought on an urban battleground and attacking primarily the outcast poor and AIDS patients Ott s focus is the changing definition of the disease in different historical eras and environments She explores its external trappings from the symptoms doctors chose to notice whether a pale complexion or a tubercle in a dish to the significance of the economic and social circumstances of the patient Emphasizing the material culture of disease medical supplies advertisements for faraway rest cures outdoor sick porches and invalid hammocks Ott provides insight into people s understanding of illness and how to combat it *Fevered Lives* underscores the shifting meanings of consumption tuberculosis in an extraordinarily readable cultural history      Ambient Television Anna McCarthy,2001-03-16 Examines the role of television in public space at different points in the history of the medium and how that differs from the normal assumptions of domestic viewing space      Theme Town Thomas Wayne Paradis,2003-02-26 This book changes the way we view our everyday human landscapes by taking us on a 22 stop adventure through the heart of Flagstaff Arizona In Flagstaff s America Tour the reader encounters four distinct though interacting landscape scenes a themed historic business district a pre War multi ethnic neighborhood an expanding university campus and a dynamic automobile commercial strip Prior to the tour Part 1 introduces us to the fascinating study of geography and the interpretation of human landscapes In Part 2 Paradis discusses the expansion of the AT SF Railway and its role in Flagstaff s own historical development He further analyzes the implications of this global cargo corridor on Flagstaff s local community and themed landscapes The entire book integrates a variety of cultural economic political global and environmental perspectives to understand the complexities of our everyday world Whether enjoyed from the bustling streets of downtown Flagstaff or from the comfort of our own homes Theme Town will encourage us to see our own local places with fresh and inquisitive eyes      Community Design W. Arthur Mehrhoff,1999-06-10 Community design has grown in importance in the public policy agenda over the past decade This book focuses on the author s experience and work in Minnesota where a design team of architects planners and economic and community development practitioners provided planning and design assistance to local communities The book explores the advantages of a systems approach to community design and uses the work of the Minnesota team to consider the issues involved in the implementation of successful community design      The Television Studies Reader Robert Clyde Allen,Annette Hill,2004 The Television Studies Reader brings together key writings in the expanding field of television studies providing an overview of the discipline and addressing issues of industry genre audiences production and ownership and representation The Reader charts the ways in which television and television studies are being redefined by new and alternative ways of producing broadcasting and watching TV such as cable satellite and digital broadcasting home video

internet broadcasting and interactive TV as well as exploring the recent boom in genres such as reality TV and docusoaps It brings together articles from leading international scholars to provide perspectives on television programmes and practices from around the world acknowledging both television's status as a global medium and the many and varied local contexts of its production and reception Articles are grouped in seven themed sections each with an introduction by the editors
