Realism And Hope:

The Realist Hope Christopher J. Insole, 2016-02-24 Taking into consideration analytical continental historical post modern and contemporary thinkers Insole provides a powerful defence of a realist construal of religious discourse Insole argues that anti realism tends towards absolutism and hubris Where truth is exhausted by our beliefs about truth there is no conceptual space for doubting those beliefs only a conception of truth as absolute given and accessible can guarantee the very humility sense of fallibility and sensitivity to difference that the anti realist rightly values Cutting through some of the tired and well rehearsed debates in this area Insole provides a fresh perspective on approaches influenced by Wittgenstein Kant and apophatic theology The defence of realism offered is unusual in being both analytically precise and theologically sensitive with a view to some of the wider and less well explored cultural ethical and political implications of the debate
