London in Cinema Charlotte Brunsdon, 2019-07-25 Charlotte Brunsdon's illuminating study explores the variety of cinematic Londons that appear in films made since 1945 Brunsdon traces the familiar ways that film makers establish that a film is set in London by use of recognisable landmarks and the city's shorthand iconography of red buses and black taxis as well as the ways in which these icons are avoided She looks at London weather fog and rain and everyday locations like the pub and the housing estate while also examining the recurring patterns of representation associated with films set in the East and West Ends of London from *Spring in Park Lane* 1948 to *Mona Lisa* 1986 and from *Night and the City* 1950 to *From Hell* 2001 Brunsdon provides a detailed analysis of a selection of films exploring their contribution to the cinematic geography of London and showing the ways in which feature films have responded to and created changing views of the city She traces London's transformation from imperial capital to global city through the different ways in which the local is imagined in films ranging from Ealing comedies to *Pressure* 1974 as well as through the shifting imagery of the River Thames and the Docks She addresses the role of cinematic genres such as horror and film noir in the constitution of the cinematic city as well as the recurrence of figures such as the cockney the gangster and the housewife Challenging the view that London is not a particularly cinematic city Brunsdon demonstrates that many London set films offer their own meditation on the complex relationships between the cinema and the city

Patriots Richard Weight, 2013-10-17 Who are the British today For nearly three hundred years British national identity was a unifying force in times of glory and despair It has now virtually disappeared In *Patriots* Richard Weight explores the decline of Britishness and the rise of powerful new identities in England Scotland Wales and Ireland Based on a wealth of original research it is scholarly in depth and scope yet never departs from a thoroughly readable and entertaining style Here are the themes of Orwell's *The Lion and the Unicorn* stretched over the subsequent sixty years and widened to embrace the whole United Kingdom Brimming with zest and feel this is politico cultural history at its best Peter Hennessy Wide ranging intelligent sensible and important Max Hastings Sunday Telegraph A marvellously rich ambitious and at times iconoclastic study by a young historian of how in the broadest sense national identity in Britain has changed in the last 60 or so years David Kynaston Financial Times A major work the fruit of long research wide reading and hard thinking engagingly written bubbling with fresh ideas Stephen Howe Independent

Films and British National Identity Jeffrey Richards, 1997-09-15

This book seeks to examine the ways in which the cinema has defined mythified and disseminated British national identity during the course of the twentieth century. It takes the form of a series of linked essays which examine chronologically thematically and by specific case studies of films stars and genres the complexities and ambiguities in the process of evolution and definition of the national identity. It argues for the creation of a distinctive British national identity both in cinema and the wider culture. But it also assesses the creation of alternative identities both ethnic and regional and examines the interaction of cinema and other cultural forms music literature and television.

A State of Play Steven Fielding, 2014-04-24 *A State of Play* explores how the British have imagined their politics from the parliament worship of Anthony Trollope to the cynicism of *The Thick of It*. In an account that mixes historical with political analysis Steven Fielding argues that fictional depictions of politics have played an important but insidious part in shaping how the British think about their democracy and have helped ventilate their many frustrations with Westminster. He shows that dramas and fictions have also performed a significant role in the battle of ideas in a way undreamt of by those who draft party manifestos. The book examines the work of overtly political writers have treated the subject discussing the novels of H G Wells the comedy series *Yes Minister* and the plays of David Hare. However it also assesses how less obvious sources such as the films of George Formby the novels of Agatha Christie the *Just William* stories and situation comedies like *Steptoe and Son* have reflected on representative democracy. *A State of Play* is an invaluable distinctive and engaging guide to a new way of thinking about Britain's political past and present.

David Lean Lydia Goehr, 2025-07-10 David Lean's extraordinary films work philosophically through the modern reproductive and transportive technologies of sight and sound through trains planes ships and automobiles from one perspective and through the modern technology of the radio and gramophone from another. Lean's musical motifs are known worldwide: Lara's theme in *Zhivago* the Colonel Bogey March in *Kwai* Estella's motif in *Great Expectations* Rosy's motif in *Ryan's Daughter* Lawrence's motif for his adventure in Arabia and of course Rachmaninoff's pounding chords in *Brief Encounter*. When however Lean described his cutting of pictures as akin to how music flows through pictures what sort of music or musicality had he in mind a classical or popular music or a way of using musical form to mix up the meaning and material of his films. Lydia Goehr's new book tracks the soundscape in Lean's films not only through the musical scores composed for the films but also and more through the technology of radio and gramophone that at the start of Lean's career were becoming indispensable household items for the home. The book begins and ends with a motif running from the early more domestic films locally situated in the English home to the later more extensive epics of colony commonwealth and empire. The fidelity infidelity relationship defined by marriage extends to the loyalty betrayal relationship regarding countries of war and peace after which this relationship is extended to the witty British manner of making film as a perfected and not so perfected symphonic work of a great cutter's art. Here as few other books on Lean have emphasized the influence of Noel Coward on Lean cannot be overestimated.

Shakespeare and British World War Two Film Garrett A. Sullivan, Jr, 2022-03-31 During World War Two many British writers and thinkers turned to Shakespeare in order to articulate the values for which their nation was fighting Yet the cinema presented moviegoers with a more multifaceted Shakespeare one who signalled division as well as unity Shakespeare and British World War Two Film models a synchronic approach to adaptation that by situating the Shakespeare movie within histories of film and society avoids the familiar impasse in which the playwright's works are the beginning middle and end of critical study Through close analysis of works by Laurence Olivier Leslie Howard Humphrey Jennings and the partners Michael Powell and Emeric Pressburger among others this study demonstrates how Shakespeare served as a powerful imaginative resource for filmmakers seeking to think through some of the most pressing issues and problems that beset wartime British society
