Realism Rationalism Surrealism Art Between The Wars:

Realism, Rationalism, Surrealism Fer, Francis Haskell, Briony Fer, David Batchelor, Paul Wood, 1993-01-01 This book begins by considering responses by French artists to the First World War showing how Purism Dada and early Surrealism are related to the ethos of post war reconstruction The authors then discuss the language of construction in places as dissimilar as France Germany and the Soviet Union the contrasting demands of the utility and decoration of objects and paintings and the relationship of surrealism to questions of sexuality and gender and to Freudian theory The book concludes by addressing the widespread debate over realism in art whether it represents an alternative to the elitism of the avant garde or whether avant garde art should play a role in the development of a modern realism *The Social and the Real: Political Art of the 1930s in the Western Hemisphere*, 2006 *Modernist Magazines and the Social Ideal* Tim Satterthwaite, 2020-09-03 The new photo illustrated magazines of the 1920s traded in images of an ideal modernity promising motorised leisure scientific progress and social and sexual emancipation Modernist Magazines and the Social Ideal is a pioneering history of these periodicals focusing on two of the leading European titles the German monthly UHU and the French news weekly VU taken as representative of the broad class of popular titles launched in the 1920s The book is the first major study of UHU and the first scholarly work on VU in English Modernist Magazines explores in particular the striking use of regularity and repetition in photographs of modernity reading these repetitious images as symbolic of modernist ideals of social order in the aftermath of the First World War Introducing a novel methodology pattern theory the book argues for a critical return to the Gestalt tradition in visual studies Alongside the UHU and VU case studies Modernist Magazines offers an essential primer to interwar magazine culture in Europe Accounts of rival titles are woven into the book's thematic chapters which trace the evolution of the two magazines photography and graphic design in the tumultuous years up to 1933 Marsden Hartley Donna Cassidy, 2005 A provocative new reading of the great American avant garde artist Marsden Hartley's late work

Corporate Imaginations Mari Dumett, 2017-08-22 The first extended study of the renowned artists collective Fluxus Corporate Imaginations examines the group as it emerged on three continents from 1962 to 1978 in its complexities contradictions and historical specificity The collective's founder George Maciunas organized Fluxus like a multinational corporation simulating corporate organization and commodity flows yet it is equally significant that he imagined critical art practice in this way at that time For all its avant garde criticality Fluxus also ambivalently shared aspects of the rising corporate culture of the day In this book Mari Dumett addresses the business of Fluxus and explores the larger discursive issues of organization mediatization routinization automation commoditization and systematization that Fluxus artists both manipulated and exposed A study of six central figures in the group George Brecht Alison Knowles George Maciunas Nam June Paik Mieko Shiomi and Robert Watts reveals how they developed historically specific strategies of mimicking the capitalist system These artists appropriated tools occupied spaces revealed operations and ultimately performed the system

itself via aesthetics of organization communication events branding routine and global mapping Through corporate imaginations Fluxus artists proposed strategies for living as conscious creative subjects within a totalizing and increasingly global system demonstrating how these strategies must be repeated in an ongoing negotiation of new relations of power and control between subject and system

Fantasies of Precision Ashley Lazevnick,2023-07-11 Redefining the artistic movement that helped shape American modernism In the early decades of the twentieth century a loose contingent of artists working in and around New York City gave rise to the aesthetic movement known as precisionism primarily remembered for its exacting depictions of skyscrapers factories machine parts and other symbols of a burgeoning modernity Although often regarded as a singular group these artists were remarkably varied in their subject matter and stylistic traits Fantasies of Precision excavates the surprising ties that connected them exploring notions of precision across philosophy technology medicine and many other fields Bookended by discussions of the landmark First Biennial Exhibition of Painting at the Whitney Museum in 1932 this study weaves together a series of interconnected chapters illuminating the careers of Charles Sheeler Georgia O Keeffe and Charles Demuth Built on a theoretical framework of the writing of modernist poets Marianne Moore and William Carlos Williams Fantasies of Precision outlines an ethos of precision that runs through the diverse practices of these artists articulating how the broad range of enigmatic imagery they produced was underpinned by shared strategies of restraint humility and slowness Questioning straightforward modes of art historical classification Ashley Lazevnick redefines the concept that designated the precisionist movement Through its cross disciplinary approach and unique blend of historiography and fantasy Fantasies of Precision offers a comprehensive reevaluation of one of the defining movements of artistic modernism

Anarchy and Art Allan Antliff,2007-04-01 One of the powers of art is its

ability to convey the human aspects of political events In this fascinating survey on art artists and anarchism Allan Antliff interrogates critical moments when anarchist artists have confronted pivotal events over the past 140 years The survey begins with Gustave Courbet s activism during the 1871 Paris Commune which established the French republic and ends with anarchist art during the fall of the Soviet empire Other subjects include the French neoimpressionists the Dada movement in New York anarchist art during the Russian Revolution political art of the 1960s and gay art and politics post World War II Throughout Antliff vividly explores art s potential as a vehicle for social change and how it can also shape the course of political events both historic and present day it is a book for the politically engaged and art aficionados alike Allan Antliff is the author of *Anarchist Modernism* [2015](#) Günter Berghaus,2015-07-01 The special issue of *International Yearbook of Futurism Studies* for 2015 will investigate the role of Futurism in the uvre of a number of Women artists and writers These include a number of women actively supporting Futurism e g R ena Z tkov Edyth von Haynau Olga Rozanova Eva K hn others periodically involved with the movement e g Valentine de Saint Point Aleksandra Ekster Mary Swanzy others again inspired only by certain aspects of the movement e g Natalia Goncharova Alice Bailly Giovanna Klien Several artists operated on the margins of a Futurist inspired aesthetics but they felt attracted to Futurism because of its support for women artists or because of its innovatory roles in the social and intellectual spheres Most of the artists covered in Volume 5 2015 are far from straightforward cases but exactly because of this they can offer genuinely new insights into a still largely under researched domain of twentieth century art and literature Guiding questions for these investigations are How did these women come into contact with Futurist ideas Was it first hand knowledge poems paintings manifestos etc or second hand knowledge usually newspaper reports or personal conversions with artists who had been in contact with Futurism How did the women respond to the positive or negative reports How did this show up in their uvre How did it influence their subsequent often non Futurist career *Drapery* Gen Doy,2001-12-21 Gen Doy investigates the hitherto neglected meanings of drapery and the draped body in visual culture The baroque and the classical are her subjects as are Freud s Gravidia Clerambault s writings and photographs of draped figures the fetishistic play between veiling and revealing and the meanings of drapery in recent art from Christo s wrapped Reichstag to the impact of the modern women s movement on fine art practice Yet she also finds and focuses on the draped body now in places like Algeria and Kosovo where drapery s connotations are no longer those of purity and civilized elegance but of barbarism poverty and savage death [New Mythologies in Design and Culture](#) Rebecca Houze,2016-05-19 Taking as its point of departure Roland Barthes classic series of essays *Mythologies* Rebecca Houze presents an exploration of signs and symbols in the visual landscape of postmodernity In nine chapters Houze considers a range of contemporary phenomena from the history of sustainability to the meaning of sports and children s building toys Among the ubiquitous global trademarks she examines are BP McDonald s and Nike What do these icons say to us today What political and ideological messages are hidden beneath their surfaces Taking the idea of

myth in its broadest sense the individual case studies employ a variety of analytic methods derived from linguistics psychoanalysis anthropology sociology and art history In their eclecticism of approach they demonstrate the interdisciplinarity of design history and design studies Just as Barthes meditations on culture concentrated on his native France New Mythologies is rooted in the author's experience of living and teaching in the United States Houze's reflections encompass both contemporary American popular culture and the history of American industry with reference to such foundational figures as Thomas Jefferson and Walt Disney The collection provides a point of entry into today's complex postmodern or post postmodern world and suggests some ways of thinking about its meanings and the lessons we might learn from it

Art in Consumer Culture Grace McQuilten, 2017-07-05 Written with beautiful clarity *Art in Consumer Culture* Mis Design asks the contemporary art world to be honest about the pervasive effects of commodification and the difficulty of staging critique The book examines the collusion of art and design in contemporary artistic practices in order to find avenues of critique in a commercially driven cultural landscape Grace McQuilten focuses on the work of Takashi Murakami Andrea Zittel Adam Kalkin and Vito Acconci four contemporary artists who claim to be working in the field of design rather than the traditional art world McQuilten argues that Zittel Acconci and Kalkin engage with design only to reactivate the critical practice of art in a more direct engagement with capital and conceives of and affirms a future for art outside of the art world as a parasite in the complex beast of late capitalism This book is an important and timely provocation to a cynical and apathetic consumer culture and a call to arms for creative freedom and critical thought

The Memory Factory Julie M. Johnson, 2012-05-15 The Memory Factory introduces an English speaking public to the significant women artists of Vienna at the turn of the twentieth century each chosen for her aesthetic innovations and participation in public exhibitions These women played important public roles as exhibiting artists both individually and in collectives but this history has been silenced over time Their stories show that the city of Vienna was contradictory and cosmopolitan despite men only policies in its main art institutions it offered a myriad of unexpected ways for women artists to forge successful public careers Women artists came from the provinces Russia and Germany to participate in its vibrant art scene However and especially because so many of the artists were Jewish their contributions were actively obscured beginning in the late 1930s Many had to flee Austria losing their studios and lifework in the process Some were killed in concentration camps Along with the stories of individual women artists the author reconstructs the history of separate women artists associations and their exhibitions Chapters covering the careers of Tina Blau Elena Luksch Makowsky Bronica Koller Helene Funke and Teresa Ries among others point to a more integrated and cosmopolitan art world than previously thought one where women became part of the avant garde accepted and even highlighted in major exhibitions at the Secession and with the Klimt group
