Digital Library Use Ann Peterson-Kemp,Nancy A. Van House,Barbara P. Battenfield,2003-10-10 Viewing digital libraries as sociotechnical systems networks of people and technology interacting with society The contributors to this volume view digital libraries DLs from a social as well as technological perspective They see DLs as

sociotechnical systems networks of technology information artifacts and people and practices interacting with the larger world of work and society As Bruce Schatz observes in his foreword for a digital library to be useful the users the documents and the information system must be in harmony The contributors begin by asking how we evaluate DLs how we can understand them in order to build better DLs but they move beyond these basic concerns to explore how DLs make a difference in people s lives and their social worlds and what studying DLs might tell us about information knowledge and social and cognitive processes The chapters using both empirical and analytical methods examine the social impact of DLs and also the web of social and material relations in which DLs are embedded these far ranging social worlds include such disparate groups as community activists environmental researchers middle school children and computer system designers Topics Documents and society the real boundaries of a library without walls the ecologies of digital libraries usability and evaluation information and institutional change transparency as a product of the convergence of social practices and information artifacts and collaborative knowledge construction in digital libraries

Dreaming and Memory: Philosophical Issues Daniel Gregory,Kourken Michaelian,2024-10-22 This edited volume is the first systematic philosophical investigation of the complex and multifarious relationships between dreaming and memory Featuring fifteen contributions by leading researchers it explores a range of issues that arise when dreaming and memory are considered together What does one remember when one remembers what one dreamt and what is it for a memory of a dream to be accurate What are the phenomenological cognitive and epistemic similarities and dissimilarities between dreaming and remembering How does the self figure in dreams and memories The book will serve as an indispensable resource both for philosophers interested in dreaming or memory and for their philosophically minded colleagues in empirical disciplines and will provide an invaluable starting point for advanced students in need of a snapshot of the state of the art in philosophical research on dreaming and memory Chapters 2 10 and 16 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Language Change and Sociolinguistics Jonathan Marshall,2004-03-30 This sociolinguistic study offers a new theoretical framework for understanding the diffusion of language change within a community Advanced statistical analysis methods are used in rigorously testing the supposed norm enforcement effect of social networks Revisions to the social network model are proposed allowing the effects of various social factors operating simultaneously on the individual to be considered in evaluating the process of resistance to language change

Emotion in Social Relations Brian Parkinson,Agneta Fischer,A. S. R. Manstead,2005 Within psychology emotion is often treated as something private and personal In contrast this book tries to understand emotion from the outside by examining the everyday social settings in which it operates Three levels of social influence are considered in decreasing order of inclusiveness starting with the surrounding culture and subculture moving on to the more delimited organization or group and finally focusing on the interpersonal setting

Rational Choice Theory Margaret S. Archer,Jonathan Q. Tritter,2013-04-03 Rational Choice

Theory is flourishing in sociology and is increasingly influential in other disciplines Contributors to this volume are convinced that it provides an inadequate conceptualization of all aspects of decision making of the individuals who make the decisions of the process by which decisions get made and of the context within which decisions get made The critique focuses on the four assumptions which are the bedrock of rational choice rationality the theory's definition of rationality is incomplete and cannot satisfactorily incorporate norms and emotions individualism rational choice is based upon atomistic individual decision makers and cannot account for decisions made by couples groups or other forms of collective action process the assumption of fixed well ordered preferences and perfect information makes the theory inadequate for situations of change and uncertainty aggregation as methodological individualists rational choice theorists can only view structure and culture as aggregates and cannot incorporate structural or cultural influences as emergent properties which have an effect upon decision making The critique is grounded in discussion of a wide range of social issues including race marriage health and education
