## **Realistic Socio Legal Theory Pragmatism And A Social Theory Of Law:**

**Realistic Socio-legal Theory** Brian Z. Tamanaha, 1997 Combining philosophical pragmatism with a methodological foundation Tamanaha formulates a framework for a realistic approach to socio legal theory The strengths of this approach are contrasted with that of the major schools of socio legal theory by application to core issues in this area Thus Tamanaha explores the problematic state of socio legal studies the relationship between behaviour and meaning the notion of legal ideology the problem of indeterminacy in rule following and application and the structure of judicial decision making These issues are tackled in a clear and concise fashion while articulating a social theory of law which draws equally from legal theory and socio legal theory

**A Realistic Theory of Law** Brian Z. Tamanaha, 2017-04-24 The book re orients jurisprudence and develops an empirically informed theory of law that applies throughout history and across different societies

Theory and Method in Socio-Legal Research Reza Banakar, Max Travers, 2005-12-19 Socio legal researchers increasingly recognise the need to employ a wide variety of methods in studying law and legal phenomena and the need to be informed by an understanding of debates about theory and method in mainstream social science The papers in this volume illustrate how a range of topics including EU law ombudsmen judges lawyers Shariah Councils and the quality assurance industry can be researched from a socio legal perspective The objective of the collection is to show how different methods can be used in researching law and legal phenomena how methodological issues and debates in sociology are relevant to the study of law and the importance of the debate between structural and action traditions in researching law It also approaches the methodological problem of how sociology of law can address the content of legal practice from a variety of perspectives and discusses the relationship between pure and applied research The editors provide a critical introduction to each of the six sections and a general introduction on law sociology and method The collection will provide an invaluable resource for socio legal researchers law school researchers and postgraduates

*Ubiquitous Law* Emmanuel Melissaris, 2016-02-17 *Ubiquitous Law* explores the possibility of understanding the law in dissociation from the State while at the same time establishing the conditions of meaningful communication between various legalities This book argues that the enquiry into the legal has been biased by the implicit or explicit presupposition of the State's exclusivity to a claim to legality as well as the tendency to make the enquiry into the law the task of experts who purport to be able to represent the legal community's commitments in an authoritative manner Very worryingly the experts point of view then becomes constitutive of the law and parasitic to and distortive of people's commitments *Ubiquitous Law* counter suggests a new methodology for legal theory which will not be based on rigid epistemological and normative assumptions but rather on self reflection and mutual understanding and critique so as to establish acceptable differences on the basis of a commonality

**Flexible Regional Economic Integration in Africa** Timothy Masiko, 2022-04-21 This book examines the relationship between flexible regional economic integration in the East African Community EAC through its application of variable geometry and the establishment

of the African Continental Free Trade Area AfCFTA as a continent wide form of integration It uses a historical political legal and economic analysis of the processes that led to the adoption of flexible regional integration in Africa with particular regard to the EAC This takes place in the inescapable context of pan Africanism showing how regional integration efforts in Africa are based on pan Africanist ideals and how an evolution of these ideals has led to an evolution in the goals of integration With growing awareness of the weaknesses and impracticality of consensus based decision making on a global level it makes the case for the pursuit of flexibility in multilateral trade drawing lessons from the experience of the AfCFTA and blocs in other regions This book is a historical evaluation of regional economic integration efforts in Africa and it follows the path of attempts to integrate the economies on the continent from colonial times to the birth of the AfCFTA While it is a study in law it relies heavily on politics economics and history to weave together a more complete theory of economic integration based on the African experience Flexible Regional Economic Integration in Africa was awarded the 2020 SIEL Hart Prize in International Economic Law

**Law in Modern Society** Denis Galligan, 2006-09-14 Providing an introduction to law in modern society D J Galligan considers how legal theory and particularly H L A Hart s The Concept of Law has developed the idea of law as a highly developed social system which has a distinctive character and structure and which shapes and influences people s behaviour The concept of law as a distinct social phenomenon is examined through reference to and analysis of the work of prominent legal and social theorists in particular M Weber E Durkheim and N Luhmann Galligan s approach is guided by two main ideas that the law is a social formation with its own character and features and that at the same time it interacts with and is affected by other aspects of society In analysing these two ideas Galligan develops a general framework for law and society within which he considers various aspects including the nature of social rules and the concept of law as a system of rules whether law has particular social functions and how legal orders run in parallel the place of coercion the characteristic form of modern law and the social conditions that support its implementation and compliance and what happens when laws are used to change society Law in Modern Society encourages legal scholars to consider the law as an expression of social relations examining the connections and tensions between the positive law of modern society and the spontaneous relations they often try to direct or change

Reconstructing Judicial Review Sarah Nason, 2016-12-01 This book offers a new interpretation of judicial review in England and Wales as being concerned with the advancement of justice and good governance as opposed to being concerned primarily with ultra vires or common law constitutionalism It is developed both from examining the functions and values that ought to be served by judicial review and from analysis of empirical social facts about judicial review primarily as experienced in the Administrative Court Based on ground up case law analysis it constructs a new taxonomy on the grounds of judicial review mistake procedural impropriety ordinary common law statutory interpretation discretionary impropriety relevant irrelevant considerations breach of an ECHR protected right or equality duty and constitutional allocation of powers constitutional rights or other complex constitutional principles It explains each of these grounds what academic and judicial support there might be for them outside case law analysis and their similarities and differences when viewed against popular existing taxonomies It concludes that Administrative Court judges are engaged in ordinary common law statutory interpretation in approximately half of all cases and that where discretionary judgement is involved on the part of the initial decision maker judges do indeed consider their task to be one of determining whether the challenged decision was justified by reasoning of adequate quality It finds that judges apply ordinary common law principles of statutory interpretation with historical pedigrees including assessing the initial decision maker's reasoning with reference to statutory purpose and sifting

relevant from irrelevant considerations including moral considerations The result is a ground breaking reassessment of the grounds of judicial review in England and Wales and the practice of the Administrative Court
