Reality And Rhetoric:

Reality and Rhetoric Péter Tamás Bauer, 1985 **Reality and Rhetoric** P. T. Bauer, Péter Tamás Bauer, 1984 *Reality and Rhetoric* is the culmination of P T Bauer's observations and reflections on Third World economies over a period of thirty years He critically examines the central issues of market versus centrally planned economies industrial development official direct and multinational resource transfers to the Third World immigration policy in the Third World and economic methodology In addition he has written a fascinating account of recent papal doctrine on income inequality and redistribution in the Third World The major themes that emerge are the importance of non economic variables particularly people's aptitudes and mores to economic growth the unfortunate results of some current methods of economics the subtle but important effects of the exchange economy on development and the politicization of economic life in the Third World As in Bauer's previous writings this book is marked by elegant prose apt examples a broad economic historical perspective and the masterful use of informal reasoning **Word, Self, Reality** James Edwin Miller, 1972 **Rhetoric and Reality** James A. Berlin, 1987-02-26 Berlin here continues his unique history of American college composition begun in his *Writing Instruction in Nineteenth Century Colleges* 1984 turning now to the twentieth century In discussing the variety of rhetorics that have been used in writing classrooms Berlin introduces a taxonomy made up of three categories objective rhetorics subjective rhetorics and transactional rhetorics which are distinguished by the epistemology on which each is based He makes clear that these categories are not tied to a chronology but instead are to be found in the English department in one form or another during each decade of the century His historical treatment includes an examination of the formation of the English department the founding of the NCTE and its role in writing instruction the training of teachers of writing the effects of progressive education on writing instruction the General Education Movement the appearance of the CCCC the impact of Sputnik and today's literacy crisis **Representing Reality** Bill Nichols, 1992-02-22 a valuable and important book *The Year's Work in Critical and Cultural Theory* *Representing Reality* is the first book to offer a conceptual overview of documentary filmmaking practice It addresses numerous social issues and how they are presented to the viewer by means of style rhetoric and narrative technique The volume poses questions about the relationship of the documentary tradition to power the body authority knowledge and our experience of history This study advances the pioneering work of Nichols's earlier book *Ideology and the Image* Nichols has written a road block of a book which reconfigures the debate on the documentary at a new level of sophistication and complexity which can only be ignored at the risk of ignoring the whole area of documentary film *Sight and Sound* the most important book on documentary film yet published *Canadian Journal of Film Studies* **Rhetoric and Reality in Early Christianities** Willi Braun, 2006-01-01 One of the most pressing issues for scholars of religion concerns the role of persuasion in early Christianities and other religions in Greco Roman antiquity The essays in *Rhetoric and Reality in Early Christianities* explore questions about persuasion and its relationship to early

Christianities The contributors theorize about persuasion as the effect of verbal performances such as argumentation in accordance with rules of rhetoric or as a result of other types of performance ritual behavioural or imagistic They discuss the relationship between the verbal performance of rhetoric and other performative modes in generating sustaining and transmitting a persuasive form of religiosity The essays in this book cover a wide chronological range from the first century to late antiquity and diverse topical examples contribute to the collection s thematic centre the relations among formalized and technical verbal performances rhetoric texts and other forms of persuasive performances ritual practices the social agendas that early Christians pursued by means of verbal rhetorical performances and the larger social context in which Christians and other religious groups competitively jockeyed to attract the minds and bodies of audiences in the Greco Roman world
