Scared Stiff Sara Latta,2014-02-04 Fear is a primal human emotion and it often plays an important role in keeping us safe from threats It s part of our evolutionary makeup after all But fears can also spiral out of control and if your perfectly reasonable fear of snakes swells to the point that you run screaming from every uncoiled hose then news flash you ve got yourself a phobia Phobias are as strange as they are diverse but they actually have the power to teach us about who we are and where we came from Sara Latta blends biology psychology history and pop culture to provide a comprehensive account of fifty fears from arachnophobia to zoophobia Publishers Trade List Annual, 1992 ,1992 The Publishers' Trade List Annual ,1992 The publishers weekly ,1992 **Children's Books in Print** R R Bowker Publishing,Bowker,1999-12

Children's Books In Print 1998 Bowker Editorial Staff,R R Bowker Publishing,Bowker,1998 *Forthcoming Books* Rose Army,1992-10 *Skye Stories* Raymond Moore,2021-10-30 My life was far from normal Sometimes I wish it was From the streets of Glasgow to the hills of Skye And that was just the beginning Join me in my journey of early 80 s Edinburgh My Student Nurse days The highs and lows of being a male Nurse My days of being a local impresario and Record label owner Pub singer and occasional actor My loves my losses My travelling and working in other cities and other countries Marrying a young Thai girl and becoming a father not once but thrice all in my mid forties and early 50s This is the story of the best and worst bits *Rethinking the Education of Deaf Students* Sue Livingston,1997 Here is a compelling and controversial text which asserts that Deaf students should be treated no differently than non Deaf students The author a veteran and practicing teacher rejects the predominant view of Deaf students as special learners in need of language remediation and repair Instead she maintains that for Deaf students as well as their hearing counterparts the primary educational goal is the making and sharing of understandings in various subjects Furthermore she views this as a process that occurs naturally concomitantly and reciprocally with the acquisition of language regardless of one s hearing ability Livingston s assertion clashes with conventional Deaf education which presumes that the wider learning begins after students master a sign system that codifies and reconstructs English With a cumbersome orderly piecemeal and unnatural approach this traditional view frequently forces teachers to water down curriculums in an attempt to make English more readily acquired As a result Deaf students are deprived of rich and challenging content *Rethinking the Education of Deaf Students* offers an alternative and demonstrates

how American Sign Language ASL and English can coexist in the same classroom embedded in the content of what is being taught Through clear theoretical explanations field tested teaching strategies authentic examples of students work lesson plans and sections on assessment Livingston suggests ways to help students become educated language users Her ideas hold enormous implications for those who teach Deaf students develop school budgets design programs and train future teachers More important they may hold the key that unlocks the potential of Deaf students of all ages to become voracious readers and accomplished writers
