Metaphorical Metaphysics in Chinese Philosophy Derong Chen,2011-08-16 In *Metaphorical Metaphysics in Chinese Philosophy* Illustrated with Feng Youlan s *New Metaphysics* Derong Chen explores Chinese philosophy through a comprehensive study and critical analysis of Feng Youlan s new metaphysics proposing a systematic analysis of meaning that differs from the approach of the comparative linguistic analysis that A C Graham and Chad Hasen employed in their studies of Chinese philosophy This detailed analysis of Feng Youlan s new metaphysics demonstrates that Feng s system is not the completely Westernized philosophical system many scholars identify it as nor is it the pure logical and analytical system Feng himself intended to construct Rather the essence and characteristics of the new metaphysics at the core of Feng s philosophical system expose his philosophy as a continuation of the Chinese philosophical tradition in a new era This approach is most applicable to scholars of comparative philosophy and of any era of Chinese philosophy

What is Present Reality Vipin Gupta, 2021-02-16 What is present reality is an incredibly profound but straightforward exposition of the limits of science. Every scientist wishes that someone will falsify the world crafted using the present body of scientific methods one day. One such world comprises the manifold versions of relativity theories measuring $E=mc^2$. Suppose one deified scientist had not mathematically derived the value of energy in this way. In that case, today's scientists will not bind their understanding to the light serviced by the deified leader. The scientist traded and squared by them as a devoted follower. Evidently, when one conceives energy as mc^2 , its value without the presence of the leader deity is zero. This landmark work, grounded in India's ancient cultural metaphysics, challenges the present reality of what we know and believe to be true, whether about divinity or spirituality or the universe of objects or subjects or us as a person. A unique feature is the precise quantification of the lightless energies of both the present reality as well as the varying paradigms and doctrines working on modifying that. It is a part of a series of twelve books that democratizes the ability to understand our present reality beyond those who are experts in modern science and use this understanding for personal as well as societal well-being. The beta reviewers note: This is unbelievable work that would change the way life is seen and lived, and looking forward to this being a massive success. Dr. Vipin Gupta has a Ph.D. in managerial science and applied economics from the
