on both sides of the Atlantic The strongest aspects of the work are the weaving together of personalities and ideas in a quasi historical narrative together with a look back at what the life of the mind meant in one professional s work Steve Tozer UIC College of Education Chicago IL USAnbsp **Irish nationalism and European integration** Katy Hayward,2013-07-19

How has it been possible for Irish political leaders to actively promote two of the largest challenges to Irish nation statehood the concession of sovereignty to the European Union and the retraction of the constitutional claim over Northern Ireland The author of this book argues that such discourses are integrally connected and what is more embody the enduring relevance of nationalism in modern Ireland As the most comprehensive study to date of official discourse in twentieth century Ireland this book traces the ways in which nationalism can be simultaneously redefined and revitalised through European integration The text begins with an overview of the origins and development of Irish official nationalism It then analyses the redefinition of this nationalism in meeting the challenges to Irish nation statehood posed by the conflict in Northern Ireland and membership of the EU New interpretations of the symbolic and practical importance of the island of Ireland have been central to this process Indeed the genius of the Irish was to employ innovative EU inspired concepts in finding agreement with and within Northern Ireland on the one hand whilst on the other legitimising further European integration through the notion that it furthers traditional nationalist ideals such as Irish unity Thus Irish political leaders were remarkably successful in not only accommodating potent nationalist and pro European discourses but in making them appear complementary An over reliance on this discourse however plus a critical failure to adjust it to the conditions it helped to fashion contributed to the failure of the Yes campaigns in the Irish referendums on the EU Treaties of Nice and Lisbon The book concludes with an assessment of the reasons for these results and argues that the symbiotic relationship between Irish nationalism and European integration can be redeemed for a new era in EU member state relations This book will appeal to any reader with an interest in the changing dynamics of Ireland s relationship with the European Union and with Northern Ireland as well as scholars of discourses on identity territory and governance in Europe **In the Shadow of Authoritarianism** Thomas D.

Fallace,2018 In the Shadow of Authoritarianism explores how American educators in the wake of World War I created a student centered curriculum in response to authoritarian threats abroad For most of the 20th century American educators lived in the shadow of ideological political cultural and existential threats including Prussianism propaganda collectivism dictatorship totalitarianism mind control the space race and moral relativity To meet the perceived threat the American curriculum was gradually moved in a more student centered direction that focused less on what to think and more on how to think This book examines the period between World War I and the 1980s focusing on how U S schools countered the influence of fascist and communist ideologies as well as racial discrimination Fallace also considers this approach in light of current interests in the Common Core State Standards Perhaps the recent rise of new authoritarian threats not just abroad but also at home will rejuvenate our long tradition of democratic education Schools have served as the bulwarks of

democracy before Let s hope they can do so again guided by this smart little book Jonathan Zimmerman University of Pennsylvania Fallace offers a fresh provocative history of democratic education as it has been practiced in the United States Walter Parker University of Washington Sidney Hook Reconsidered Matthew J. Cotter,2010-08-25 Afterword by Richard RortyThe current intensification of scholarly interest in the response of American intellectuals to the rise and fall of American and Soviet Communism the Cold War the student movement and Neo Conservatism has brought the controversial and fascinating work of Sidney Hook once again to the attention of scholars of American political thought and culture Beginning his career as the first American scholar of Marxism a leading disciple of John Dewey and an early supporter of Soviet Communism Hook eventually renounced Marxism and came to be one of the most vehement supporters of the Cold War Throughout his long and unquiet life Hook was revered as the heir to Dewey s legacy feared as a fierce polemicist and criticized from all points of the political spectrum The essays in this volume are the outcome of a centennial celebration honoring his life and career In addition to some of his former students colleagues allies and adversaries this volume contains several essays by relatively unknown scholars The value of their contributions is measured by fresh insights into Hook s philosophical significance as well as the underlying argument that adequate distance is needed to evaluate his historical relevance Despite the contentious nature of these two approaches ultimately these essays represent the comprehensive attempt to both reexamine Hook s legacy and celebrate his life The contributors include Jo Ann Boydston Gary Bullert Steven Cahn Matthew Cotter Michael Eldridge Barbara Forrest Nathan Glazer Neil Jumonville Marvin Kohl Paul Kurtz Tibor Machan Christopher Phelps Kathleen Poulos Edward Shapiro David Sidorsky Robert Talisse and Bruce Wilshire With a completely revised and updated bibliography of Hook s works plus an afterword by Richard Rorty this outstanding collection of essays examining the rich and varied experience of one of America s most misunderstood intellectuals will be of great interest to students and scholars of American intellectual history and philosophy Matthew J Cotter Brooklyn NY has been a lecturer at William Paterson University Baruch College and Hunter College at the City University of New York CUNY He is currently pursuing a Ph D in American history at the City University of New York s Graduate Center **The Bloomsbury**
