## Reason To Vote:

To Vote or Not to Vote? Andre Blais,2000-08-15 What makes people decide to vote In addressing this simple question Andre Blais examines the factors that increase or decrease turnout at the aggregate cross national level and considers what affects people s decision to vote or to abstain In doing so Blais assesses the merits and limitations of the rational choice model in explaining voter behavior The past few decades have witnessed a rise in the popularity of the rational choice model in accounting for voter turnout and more recently a groundswell of outspoken opposition to rational choice theory Blais tackles this controversial subject in an engaging and personal way bringing together the opposing theories and literatures and offering convincing tests of these different viewpoints Most important he handles the discussion in a clear and balanced manner Using new data sets from many countries Blais concludes that while rational choice is an important tool even when it doesn t work its empirical contribution to understanding why people vote is quite limited Whether one supports rational choice theory or opposes it Blais s evenhanded and timely analysis will certainly be of interest and is well suited for advanced undergraduate and graduate level classes
