Reasons for Our Faith. Six Lectures on Modern Misrepresentations of the Christian Religion and the Christian Evidences, Etc

William ANDERSON (Minister of the Octagon Chapel, Bath.), 1874

From Promise to Contract Dori Kimel, 2003-03-14

Liberal theory of contract is traditionally associated with the view according to which contract law can be explained simply as a mechanism for the enforcement of promises The book bucks this trend by offering a theory of contract law based on a careful philosophical investigation of not only the similarities but also the much overlooked differences between contract and promise Drawing on an analysis of a range of issues pertaining to the moral underpinnings of promissory and contractual obligations the relationships in the context of which they typically feature and the nature of the legal and moral institutions that support them the book argues for the abandonment of the over simplified notion that the law can systematically replicate existing moral or social institutions or simply enforce the rights or the obligations to which they give rise without altering these institutions in the process and while leaving their intrinsic qualities intact In its place the book offers an intriguing thesis concerning not only the relationship between contract and promise but also the distinct functions and values that underlie contract law and explain contractual obligation In turn this thesis is shown to have an important bearing on theoretical and practical issues such as the choice of remedy for breach of contract and broader concerns of political morality such as the appropriate scope of the freedom of contract and the role of the state in shaping and regulating contractual activity The book's arguments on such issues while rooted in distinctly liberal principles of political morality often produce very different conclusions to those traditionally associated with liberal theory of contract thus lending it a new lease of life in the face of its traditional as well as contemporary critiques

Love, Reason and Morality Katrien Schaubroeck, Esther Kroeker, 2016-07-28 This book brings together new essays that explore the connection between love and reasons The observation that considerations of love carry significant weight in the deliberative process opens up new perspectives in the classic discussion about practical reasons and gives rise to many interesting questions about the nature of love's reasons

about their source and legitimacy about their relation to moral and epistemic reasons and about the extent to which love is sensitive to reasons The contributors to this volume orient questions related to love within the broader context of the contemporary discussion on practical reasons and move forward the conversation about the normative dimensions of love Love Reason and Morality will be of interest to philosophers working on issues of normativity meta ethics and moral psychology and especially those interested in the source of practical reasons and the role of attachments in practical deliberation

The Rules of Rescue Theron Pummer, 2023 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations In The Rules of Rescue Theron Pummer argues that we are often morally required to engage in effective altruism directing altruistic efforts in ways that help the most Even when the personal sacrifice involved makes it morally permissible not to help at all he contends it often remains wrong to provide less help rather than more He argues that the ubiquity of opportunities to help distant strangers threatens to make morality extremely demanding and that it is only thanks to adequate permissions grounded in considerations of cost and autonomy that we may pursue our own plans and projects He concludes that many of us are required to provide no less help over our lives than we would have done if we were effective altruists

Reasons for our faith, 6 lects. on modern misrepresentations of the Christian religion and the Christian evidences, with references and notes William Anderson, 1874 Responsibility and the Demands of Morality Stephen J. White, 2025-01-08 Stephen J White 1983-2021 was developing a comprehensive view of responsibility and its limits when his life was tragically cut short This volume contains his collected papers White's view of responsibility spans across ethics action theory and interpersonal epistemology Its core idea is that to be responsible for doing or believing something is to be answerable for why one has done it or why one believes it and to be responsible for a state of affairs is to be answerable for why things are that way rather than some other way White deploys this conception of responsibility to illuminate the notions of autonomy coercion shared reasoning self prediction doxastic wronging and peer disagreement He also investigates the nature of practical reasoning he argues against a production oriented conception of practical reasoning delineates the scope of transmission principles in means ends reasoning and identifies a limited for self prediction in practical reasoning that is subject to an anti opportunism constraint The papers form the outline of a deep ethical outlook that takes seriously our personal and collective responsibilities and yet leaves room for personal autonomy both in thought and in action

Moral Choices Scott B. Rae, 2000 Rae's Moral Choices helps readers navigate the rough waters of today's ethical dilemmas assisting them in making decisions and judging right from wrong both as individuals in terms of society He explores such issues as abortion reproductive technologies euthanasia capital punishment war and sexuality Includes a chapter on genetic technologies and human cloning

Personal Identity in Moral and Legal Reasoning Richard Prust, Jeffery Geller, 2019-10-31 Many questions about moral and legal judgments hinge on how we understand the identity of

the agents The intractability of many of these questions stems this book argues from ignoring how we actually connect actions with agents When making everyday judgments about the morality or legality of actions we do not use Aristotelian logic but what is termed character logic The difference is crucial because implicit in character logic is an understanding of personal identity that is both coherent and intuitively familiar A person as we conceptualize him in moral and legal contexts is a character of resolve By unpacking what it means to be a character of resolve this book reveals what underwrites our most fundamental beliefs about a person's rights and responsibilities It also provides a new and useful perspective on a variety of issues about rights and responsibilities that perennially occupy philosophers This book discusses the following How we can make better sense of human rights if we think of them as personal rights How the right to be civilly disobedient in contrast with ordinary law breaking can be justified as a personal right What basis we have for holding that someone's responsibility is diminished How it makes sense to hold someone responsible for acting irresponsibly How it makes sense to distinguish a juvenile offender from someone who should be tried in criminal court What kind of correction we should expect from our correctional institutions and how we should design them to achieve that By making explicit the axioms of character logic and exploring their origins and justification the book provides a conceptually powerful tool for interpreting the protocols of a person respecting society
