Burnett, 2003 Here Dr J C Burnett relates his experiences and his conversion from allopathic drugging to the homoeopathic curative methods mentioned in the various cases **A Glance at Deans' 120 Reasons for Being a Universalist** Joseph Walker, 1828 **The age of Christian reason: being a refutation of the principles of T. Thomas BROUGHTON, 1820 The Age of Christian Reason: Being a Refutation of the Theological and Political Principles of Thomas Paine, M. Volney, and the Whole Class of Political Naturalists, Whether Atheists Or Deists Thomas Broughton (Fellow of Exeter College, Oxon.), 1820 *A Father's Reasons for Being a Christian ...* Charles POWLETT, 1812 The Age of Reason; being an investigation of true and fabulous theology Thomas Paine, 1794 **Reason and Revelation. Being an Examination Into the Nature and Contents of Scripture Revelation as Compared with Other Poems of Truth** William Horne, 2024-06-25 Reprint of the original first published in 1876 Every Reason to Be a Christian Byron Bledsoe, 2006-06 Bledsoe offers a comprehensive and compelling case for Christianity Extensive intense and scholarly the text contains more than 1 400 Bible and 235 other references Social Issues **Being Apart from Reasons** Cláudio Jr. Michelin, 2006-03-09 Being Apart from Reasons deals with the question of how we should go about using reasons to decide what to do More particularly the book presents objections to the most common response given by contemporary legal and political theorists to the moral complexity of decision making in modern societies namely the attempt to release public agents from their argumentative burden by insulating a particular set of reasons from the general pool of reasons and assigning the former systematic priority over all other reasons That strategy is apparent both in Rawls claim that reasons concerning the right are systematically prior to reasons concerning the good and in Raz s claim that pre emptive reasons are systematically prior to first order reasons The same strategy is also instantiated by certain arguments for the procedural value of law such as Jeremy Waldron s In the book each of those arguments for the insulation of reasons is objected to in order to defend the thesis the reasoning by public agents must always be as comprehensive as possible The remaining chapters object to those arguments mentioned above which aim at justifying the exclusion of certain reasons from public agents decision making **Being Realistic about Reasons** T. M. Scanlon, 2013-01-16 T M Scanlon offers a qualified defense of normative cognitivism the view that there are irreducibly normative truths about reasons for action He responds to three familiar objections that such truths would have troubling metaphysical implications that we would have no way of knowing what they are and that the role of reasons in motivating and explaining action could not be explained if accepting a conclusion about reasons for action were a kind of belief Scanlon answers the first of these objections within a general account of ontological commitment applying to mathematics as well as

normative judgments He argues that the method of reflective equilibrium properly understood provides an adequate account of how we come to know both normative truths and mathematical truths and that the idea of a rational agent explains the link between an agent's normative beliefs and his or her actions Whether every statement about reasons for action has a determinate truth value is a question to be answered by an overall account of reasons for action in normative terms Since it seems unlikely that there is such an account the defense of normative cognitivism offered here is qualified statements about reasons for action can have determinate truth values but it is not clear that all of them do Along the way Scanlon offers an interpretation of the distinction between normative and non normative claims a new account of the supervenience of the normative on the non normative an interpretation of the idea of the relative strength of reasons and a defense of the method of reflective equilibrium

The Dispositional Architecture of Epistemic Reasons Hamid Vahid, 2020-09-06 This book is concerned with the conditions under which epistemic reasons provide justification for beliefs The author draws on metaethical theories of reasons and normativity and then applies his theory to various contemporary debates in epistemology In the first part of the book the author outlines what he calls the dispositional architecture of epistemic reasons The author offers and defends a dispositional account of how propositional and doxastic justification are related to one another He then argues that the dispositional view has the resources to provide an acceptable account of the notion of the basing relation In the second part of the book the author examines how his theory of epistemic reasons bears on the issues involving perceptual reasons He defends dogmatism about perceptual justification against conservatism and shows how his dispositional framework illuminates certain claims of dogmatism and its adherence to justification internalism Finally the author applies his dispositional framework to epistemological topics including the structure of defeat self knowledge reasoning emotions and

motivational internalism The Dispositional Architecture of Epistemic Reasons demonstrates the value of employing metaethical considerations for the justification of beliefs and propositions It will be of interest to scholars and advanced students working in epistemology and metaethics      Reports from Committees Great Britain. A Conceptual-analytic Study of Classical Indian Philosophy of Morals Rajendra Prasad,2008 Using reconstructive ideas available in classical Indian original works this book makes a departure in the style of modern writings on Indian moral philosophy It presents Indian ethics in an objective secular and wherever necessary critical manner as a systematic down to earth philosophical account of moral values virtues rights and obligations It thereby refutes the claim that Indian philosophy has no ethics as well as the counter claim that it transcends ethics It demonstrates that moral living proves that the individual his society and the world are really real and not only taken to be real for behavioral purposes as the Advaitins hold the self is amoral being a non agent moksa is not a moral value and the Karmic theory because of involving belief in rebirth does not fuarantee that the doer of an action is also the experiencer of its results contrary to what is commonly held and Indian ethics can sustain itself even if such notions are dropped Rajendra Prasad calls Indian ethics organismic because along with ethical concerns it also covers issues related to professions politics administration sex environment etc Therefore in one format it is theoretical and applied normative and metaethical humanistic and non humanistic etc of course within the limits of the then cognitive enquiry      *Happiness and Well-Being* Rajendra M. Chakrabarti,2019-01-03 The book seeks to answer the following main questions What is meant by happiness What are the sources of happiness What is meant by the well being of man What is the end in human life When can we say that a man is successful in life How can he be happy and successful It is argued that happiness is not pleasure it does not come through high income and consumption beyond certain levels income and consumption cause dissatisfaction unhappiness and alienation The book upholds the Aristotelian view that happiness means living well living a life of excellence It discusses how moral judgment and habituation help the development of good life It analyses paths of spiritual liberation the highest state of human happiness It also argues for a liberal state where people enjoy different negative and positive freedoms making possible flourishing of human diversities
