*Reason, History, and Politics* David Ingram, 1995-01-01 The author shows that conceptions of rationality in current theories of science and law can account for neither the legitimacy of paradigm shifts nor the communitarian integrity internal to paradigms generally He proposes an alternative conception of rationality that does **Reason and Self-Enactment in History and Politics** F.M. Barnard, 2006-03-03 Reason and Self Enactment in History and Politics also offers a reappraisal of basic political principles and constructs Barnard argues for bridging differences among a plurality of truths and forming practical judgments through cultivation of a sense of situational appropriateness **Jean François Lyotard: Politics and history of philosophy** Victor E. Taylor, Gregg Lambert, 2006 *Idealism, Politics and History* George Armstrong Kelly, 2010-06-10 Through a series of linked studies this text provides a wide ranging analysis of the meeting of two vital themes in the French Revolutionary period **The Iowa Journal of History and Politics**, 1903 Untimely Politics Samuel A. Chambers, 2003-12 The standard linear view of history is founded on the belief that political outcomes are predetermined by what has gone before This book challenges this view arguing for what Samuel A Chambers calls an untimely politics which renders the past problematic and the future unpredictable This pathbreaking argument is advanced through a close reading of key texts in political theory and by entering into debates involving metaphysics philosophy of language and psychoanalysis versus discursive analysis Chambers focuses on the theme of the relevance of language analysis to political debate answering those critics who insist discourse approaches to politics are irrelevant Heidegger Nietzsche Foucault and Derrida are used to challenge the political burden which is placed on language analysis to prove its value in the real world Drawing from political theory and cultural studies Chambers takes on the same sex marriage debate showing how the use and misuse of language has contributed to an impasse that is not likely to be broken Wide ranging and insightful Untimely Politics makes a timely plea for a more politically relevant and culturally engaged form of intellectual engagement **Jewish history and politics [&c.]** sir Edward Strachey (3rd bart.), 1874 **Iowa Journal of History and Politics** Benjamin Franklin Shambaugh, 1909 *Kant and his German Contemporaries: Volume 2, Aesthetics, History, Politics, and Religion* Daniel O. Dahlstrom, 2018-10-11 Kant's philosophical achievements have long overshadowed those of his German contemporaries often to the point of concealing his contemporaries influence upon him This volume of new essays draws on recent research into the rich complexity of eighteenth century German thought examining key figures in the development of aesthetics and art history the philosophy of history and education political philosophy and the philosophy of religion The essays range over numerous thinkers including Baumgarten Mendelssohn Meyer Winckelmann Herder Schiller Hamann and Fichte showing how they variously influenced challenged and revised Kant's philosophy at times moving it in novel directions unacceptable to the magister himself The volume will be valuable for all who are interested in this distinctive period of German philosophy **History of Concepts** Iain Hampsher-Monk, Karin Tilmans, Frank van Vree, 1998 Hoewel enorm

invloedrijk in Duitstalig Europa heeft de conceptuele geschiedschrijving Begriffsgeschichte tot nu toe weinig aandacht in het Engels gekregen Dit genre van intellectuele geschiedschrijving verschilt van zowel de Franse geschiedschrijving van mentaliteit als de Engelstalige geschiedschrijving van verhandelingen door het concept Aan de hand van praktische voorbeelden in de geschiedschrijving wordt deze vorm toegelicht door Bram Kempers Eddy de Jongh en Rolf Reichardt Aesthetic Politics F. R. Ankersmit, 1996 Taking as its point of departure a sharp critique of Rawls's influential A Theory of Justice this book looks at politics from an aesthetic perspective The Annual Register, Or, A View of the History, Politics, and Literature for the Year ..., 1830 *Georg Picht: A Pioneer in Philosophy, Politics and the Arts* Enno Rudolph, Johannes Picht, 2023-01-21 Aimed at an international readership this book offers a representative collection of essays by the German philosopher Georg Picht 1913-1982 who was a specialist in Greek philosophy practical philosophy and philosophy of religion Picht's themes address different disciplines such as ancient philosophy systematic philosophy and political analysis and often contain critical statements on significant developments from the European Enlightenment to the Cold War era Other essays offer a distinctive interdisciplinary approach characteristic of the author These contributions are relevant to both philosophy and science as they discuss for instance philosophical definitions of space and time or the relationship between history and evolution Another part of the book includes texts on art that present Picht's authentic definition of art and his theory of the interdependence of art and politics For the first time key texts of the German philosopher and political thinker Georg Picht are presented to a global readership in English Like Nietzsche's philosophy Picht's work is grounded in his outstanding professionalism in the different fields of classics embracing not only texts and theories of the great thinkers from the pre-Socratic to the post-Aristotelian and Stoic philosophies but also the main currents of ancient literature Picht's importance as a political author and public adviser is exceptional and may explain why his lifelong friend Carl Friedrich von Weizsäcker another pioneer presented in this series called him his teacher The Liberal Politics of John Locke M. Seliger, 2019-08-01 Originally published in 1968 This book presents the synthesis of a coherent view of the Lockean argument from his various works This tests the inner consistency of Locke's political theory against his own examples from history The layers of Locke's argumentation are analysed on metaphysics in the first part his attitude towards historical precedents in the second and in the third with the nature of the regime which he was ready to endorse This provides the guidelines for a comprehensive reassessment of the liberal tradition as well as an evaluation of what is still vital to it Kant, Critique and Politics Kimberly Hutchings, 2013-01-11 Why does the ghost of Kant continue to haunt contemporary critical theory Kant Critique and Politics examines the influence of Kantian critique on the work of such major and diverse theorists as Habermas Arendt Foucault and Lyotard It offers an entirely new reading of Kant challenging the orthodox distinctions between modernist and postmodernist theorizing by illuminating how Kant's influence continues to structure critical debate This is the first book to offer both a systematic reading of Kant and to contextualise his work in the light of the continental tradition It will be central to political

philosophers and students of international relations and feminist theory

**History, Politics and Theory in the Great Divergence Debate** Olya Murphy, 2023-12-31 World history suffers from a paucity of clearly articulated convincing explanations While the rise of postmodernism and challenges to Eurocentrism did lead to some important correctives the pendulum has swung too far the other direction with a corresponding danger of throwing the baby out with the bathwater We need careful theoretically informed debates about ways of organizing world history What constitutes a good historical explanation What should guide historians to choose relevant facts Which theoretical schools could be made useful and to what ends These questions are especially relevant to the main topic of this book the great divergence between the west and the rest of the world and how this historical rupture is to be explained The book provides extensive critical analyses of some of the key claims in world history analyzing their strengths as well as their major weaknesses too often rooted in insufficient familiarity of historians with theories they discard It also historicizes the field and the debates to partly account for what caused some theories to become more influential and others to fall into oblivion despite the fact that the more influential frameworks are seriously flawed and some of the more marginalized ideas are more coherent and plausible The book offers insights regarding the theoretical and political relevance of older debates about the transition to capitalism and historical materialism Three major schools of thought in world history are critically examined through an in depth theoretical and comparative analysis that has not been undertaken elsewhere the so called California School World Systems Analysis and Marxist theories of history capitalism and the transition from feudalism to capitalism Murphy argues that despite some of the more recent criticisms of older approaches to world history the older theories remain indispensable for the writing of world history and for coming to terms with issues of global poverty inequality and eco catastrophe

*History, Politics, and the American Past* Ari Helo, 2020-02-25 History Politics and the American Past assesses the connection between historiography and politics in America on the basis of an important methodological distinction between the past and the history written about it While necessarily interpreting the past professional historians and those with a general interest alike remain tempted consciously or not to make American history serve their own political and moral views There is a tendency to impose our present values on the past and sometimes go so far as to believe the past can be changed by present action In this volume Ari Helo analyzes examples of this including metahistorical narratives presidential speeches and the occasionally vague rhetoric of the Confederate statue campaigns before diagnosing the source of doing so and suggesting how we might avoid it Taking America as its example the book illuminates essential methodological issues related to history writing while deciphering the complicated relationship of history and politics The book will be of interest to scholars and students of American history historiography American studies and cultural studies providing a vivid account of how to make sense of American history

**The New annual register, or General repository of history, politics, and literature** ,1788

**The Politics of the Ancient Constitution** Glenn Burgess, 1992-09-02 The Politics of the Ancient Constitution is a close

examination of the political ideas of common lawyers in early Stuart England and includes important surveys of the ideas of Sir Edward Coke and John Selden. It provides an original interpretation of the lawyers' theory of the ancient constitution and on this basis it provides a novel interpretation of the basic structure of political thought and ideology in pre-Civil War England. In this way the book is able to make a substantial contribution to debates over the ideological origins of the English Revolution.

*Narrative Power and Liberal Truth* Eldon J. Eisenach, 2002. Liberal political thought from its origins in the seventeenth century through today's rights discourse is grounded in the ideal of the autonomous individual. As the theory holds, these individuals are born in freedom from religious, political, social, or economic obligations and then construct these systems through individual and collective choices. Over the past thirty years, however, this understanding of freedom has been challenged from a variety of perspectives. Eldon J. Eisenach has been at the forefront of that challenge, stressing the centrality of religious elements and assumptions in liberal writings that many scholars suppressed or ignored. In *Narrative Power and Liberal Truth*, Eisenach brings together eleven of his previously published essays to demonstrate that many postmodernist ideas of persons and freedom are already present within the tradition of liberal political philosophy and that liberalism itself is more capacious of human experience and meanings than modern critiques allow.
