J. Michael Stewart and Peter C. Hodgson

Reason In Religion The Foundations Of Hegels Philosophy Of Religion

**Paolo Diego Bubbio, Alessandro De
Cesaris, Maurizio Pagano, Hager
Weslati**

Reason In Religion The Foundations Of Hegels Philosophy Of Religion:

Reason in Religion Walter Jaeschke,1990 This book is the first to take account of the clarification in Hegel interpretation and on these documents in particular made possible by the entirely new critical edition Jaeschke is able to give fresh interpretations and new insights into long standing controversies in the field Robert R Williams Hiram College Ohio

An Introduction to Hegel's Lectures on the Philosophy of Religion Jon Stewart,2022 This work gives a basic introduction to Hegel s religious thinking by seeing it against the backdrop of the main religious trends in his own day that he responded to **Hegel's Interpretation of the Religions of the World** Jon Stewart,2018-09-12 In his Lectures on the Philosophy of Religion Hegel treats the religions of the world under the rubric the determinate religion This is a part of his corpus that has traditionally been neglected since scholars have struggled to understand what philosophical work it is supposed to do In Hegel s Interpretation of the Religions of the World Jon Stewart argues that Hegel s rich analyses of Buddhism Hinduism Zoroastrianism Judaism Egyptian and Greek polytheism and the Roman religion are not simply irrelevant historical material as is often thought Instead they play a central role in Hegel s argument for what he regards as the truth of Christianity Hegel believes that the different conceptions of the gods in the world religions are reflections of individual peoples at specific periods in history These conceptions might at first glance appear random and chaotic but there is Hegel claims a discernible logic in them Simultaneously a theory of mythology history and philosophical anthropology Hegel s account of the world religions goes far beyond the field of philosophy of religion The controversial issues surrounding his treatment of the non European religions are still very much with us today and make his account of religion an issue of continued topicality in the academic landscape of the twenty first century [Recovering Hegel from the Critique of Leo Strauss](#) Sara MacDonald,Barry Craig,2013-11-26 Recovering Hegel from the Critique of Leo Strauss offers a defense of modernity against the critique of the influential mid twentieth century political philosopher Leo Strauss Strauss whose influence on contemporary conservative political theory is well documented discovered the ground of much of what he found wanting in contemporary political and social life to lie in the philosophy of the 19th century German philosopher G W F Hegel Specifically Strauss accused Hegel of being the greatest exponent of historicism and thus the relativism that afflicts modern thought Ultimately according to Strauss this has led to the nihilism and general mediocrity that characterizes modern western culture In this book Sara MacDonald and Barry Craig examine Strauss s reading of Hegel and argue that in fact it is a mis reading Contrary to Strauss s interpretation this book holds that Hegel was no relativist and in fact sought to show the compatibility of objective eternal truth with modern human subjectivity At the same time it illustrates the way in which Hegel s thought prepared the ground for enlightened modern liberal democracies and also remains relevant to current social and political conversations [The Oxford Handbook of Nineteenth-Century Christian Thought](#) Joel Rasmussen,Judith Wolfe,Johannes Zachhuber,2017-06-22 Through various realignments beginning in the Revolutionary era and continuing

across the nineteenth century Christianity not only endured as a vital intellectual tradition contributed importantly to a wide variety of significant conversations movements and social transformations across the diverse spheres of intellectual cultural and social history The Oxford Handbook of Nineteenth Century Christian Thought proposes new readings of the diverse sites and variegated role of the Christian intellectual tradition across what has come to be called the long nineteenth century It represents the first comprehensive examination of a picture emerging from the twin recognition of Christianity's abiding intellectual influence and its radical transformation and diversification under the influence of the forces of modernity Part one investigates changing paradigms that determine the evolving approaches to religious matters during the nineteenth century providing readers with a sense of the fundamental changes at the time Section two considers human nature and the nature of religion It explores a range of categories rising to prominence in the course of the nineteenth century and influencing the way religion in general and Christianity in particular were conceived Part three focuses on the intellectual cultural and social developments of the time while part four looks at Christianity and the arts a major area in which Christian ideas stories and images were used adapted changed and challenged during the nineteenth century Christianity was radically pluralized in the nineteenth century and the fifth section is dedicated to Christianity and Christianities The chapters sketch the major churches and confessions during the period The final part considers doctrinal themes registering the wealth and scope through broad narrative and individual example This authoritative reference work offers an indispensable overview of a period whose forceful ideas continue to be present in contemporary theology

Indiscretion Thomas A. Carlson, 1999-02-02 How can one think and name an inconceivable and ineffable God Christian mystics have approached the problem by speaking of God using negative language devices such as grammatical negation and the rhetoric of darkness or unknowing and their efforts have fascinated contemporary scholars In this strikingly original work Thomas A Carlson reinterprets premodern approaches to God's ineffability and postmodern approaches to the mystery of the human subject in light of one another The recent interest in mystical theological traditions Carlson argues is best understood in relation to contemporary philosophy's emphasis on the idea of human finitude and mortality Combining both historical research in theology from Pseudo Dionysius to Aquinas to Eckhart and contemporary philosophical analysis from Hegel and Nietzsche to Heidegger Derrida and Marion *Indiscretion* will interest philosophers theologians and other scholars concerned with the possibilities and limits of language surrounding both God and human subjectivity

Transcendence Regina Schwartz, 2007-11-13 First published in 2004 Routledge is an imprint of Taylor Francis an informa company

Hegel, Logic and Speculation Paolo Diego Bubbio, Alessandro De Cesaris, Maurizio Pagano, Hager Weslati, 2019-08-22 This book offers new critical perspectives on the relationship between the notions of speculation logic and reality in Hegel's thought as basis for his philosophical account of nature history spirit and human experience The systematic functions of logic and pure thought are explored in their concrete forms and processual progression from subjective spirit to philosophy of right society the notion of habit the idea of work art

religion and science Engaging the relation between the Logic and its realisations this book shows the internal tension that inhabits Hegel's philosophy at the intersection of logical conceptual speculation and concrete interpretative analysis The investigation of this tension allows for a hermeneutical approach that demystifies the common view of Hegel's idealism as a form of abstract thought while allowing for a new assessment of the importance of speculation for a concrete understanding of the world *Recognition* Robert R. Williams,1992-03-04 *Hegel and Christian Theology : A Reading of the Lectures on the Philosophy of Religion* Peter C. Hodgson,2005-03-03 Peter C Hodgson engages the speculative reconstruction of Christian theology that is accomplished by Hegel's Lectures on the Philosophy of Religion and provides a close reading of the critical edition of the lectures He analyses Hegel's concept of the object and purpose of the philosophy of religion his critique of the theology of his time his approach to Christianity within the framework of the concept of religion his concept of God his reconstruction of central Christian themes and his placing of Christianity among the religions of the world Hodgson makes a case for the contemporary theological significance of Hegel by identifying currently contested sites of interpretation and their Hegelian resolution *Art, Myth and Society in Hegel's Aesthetics* David James,2011-11-03 Art Myth and Society in Hegel's Aesthetics returns to the student transcripts of Hegel's lectures on aesthetics which have yet to be translated into English and in some cases remain unpublished David James develops the idea that these transcripts show that Hegel was primarily interested in understanding art as an historical phenomenon and more specifically in terms of its role in the ethical life of various peoples This involves relating Hegel's aesthetics to his philosophies of right and history rather than to his logic or metaphysics The book thus offers a thorough re evaluation of Hegel's aesthetics and its relation to his theory of objective spirit exposing the ways in which Hegel's views on this subject are anchored in his reflections on history and on different forms of ethical life *Friedrich Schleiermacher: Between Enlightenment and Romanticism* Richard Crouter,2005-12-22 Friedrich Schleiermacher's groundbreaking work in theology and philosophy was forged in the cultural ferment of Berlin at the convergence of the Enlightenment and Romanticism The three sections of this book include illuminating sketches of Schleiermacher's relationship to contemporaries Mendelssohn Hegel and Kierkegaard his work as public theologian dialogue on Jewish emancipation founding the University of Berlin as well as the formation and impact of his two most famous books On Religion Speeches to its Cultured Despisers and The Christian Faith Richard Crouter examines Schleiermacher's stance regarding the status of doctrine Church and political authority and the place of theology among the academic disciplines Dedicated to the Protestant Church in the line of Calvin Schleiermacher was equally a man of the university who brought the highest standards of rationality linguistic sensitivity and a sense of history to bear upon religion *Hegel: A Guide for the Perplexed* David James,2007-05-08 An invaluable student's guide to one of the most influential widely studied and notoriously difficult to understand of major Western philosophers **The Cambridge Companion to German Idealism** Karl Ameriks,2000-10-30 The Cambridge Companion to German Idealism first published in 2000 offers a comprehensive

penetrating and informative guide to what is regarded as the classical period of German philosophy Kant Fichte Hegel and Schelling are all discussed in detail together with a number of their contemporaries such as Holderlin and Schleiermacher whose influence was considerable but whose work is less well known in the English speaking world The essays in the volume trace and explore the unifying themes of German Idealism and discuss their relationship to Romanticism the Enlightenment and the culture of seventeenth and eighteenth century Europe The result is an illuminating overview of a rich and complex philosophical movement and will appeal to a wide range of readers in philosophy German studies theology literature and the history of ideas

Hegel's Metaphysics of God Patricia Marie Calton, 2025-01-31 Originally published in 2001 Hegel's Metaphysics of God presents Hegel's response to Kant's claim that metaphysics in general and in particular knowledge of God is beyond the grasp of human knowledge Calton argues that Hegel uses his version of the ontological proof not only to establish the existence of God but also to develop a Trinitarian divine ontology The book opens with a discussion of the traditional version of the ontological proof as it is set out by Anselm in his Proslogium and an analysis of the critiques of this traditional formulation of the proof offered by both Kant and Hegel However the main focus of the book concerns Hegel's reformulation of the ontological proof as a description of God's self-expression in the world and of God's attaining complete self-knowledge through human consciousness Exploring Hegel's proof as his description of God's activity of self-expression and self-knowledge Calton demonstrates that Hegel uses the ontological proof not only to establish that God exists but also to articulate the Trinitarian structure of God pointing to conclusions drawn by Hegel that human knowledge of God participates in the life of God by completing the Trinity The book concludes by explaining the role played by human consciousness in completing the Trinity through the reasoning that takes place in the ontological proof This book details the development of Hegel's argument for a Trinitarian metaphysics of God and establishes that the structure of Hegel's ontological proof encompasses Hegel's entire philosophical system from the concept of God to God's self-expression in finitude and finally to the recognition on the part of human consciousness that humans are an integral part of God's being

Genealogy of Nihilism Conor Cunningham, 2005-06-29 This text re-reads Western history in the light of nihilistic logic which pervades two millennia of Western thought From Parmenides to Alain Badiou via Plotinus Avicenna Duns Scotus Ockham Descartes Spinoza Kant Hegel Heidegger Sartre Lacan Deleuze and Derrida a genealogy of nothingness can be witnessed in development with devastating consequences for the way we live

Religion and European Philosophy Philip Goodchild, Hollis Phelps, 2017-04-13 Religion and European Philosophy Key Thinkers from Kant to Heidegger draws together a diverse group of scholars in theology religious studies and philosophy to discuss the role that religion plays among key figures in the European philosophical tradition Designed for accessibility each of the thirty-four chapters includes background information on the key thinker an overview of the main themes concepts and concerns that occupy his or her attention and a discussion of the religious and theological elements present in his or her thought in light of contemporary

issues Given the scope of the volume Religion and European Philosophy will be the go to guide for understanding the religious and theological dimensions of European philosophy for both students and established researchers alike **The Imagination in German Idealism and Romanticism** Gerad Gentry, Konstantin Pollok, 2019-06-13 Explores imagination and human rationality in a crucial period of philosophy from hermeneutics and transcendental logic to ethics and aesthetics

German Idealism Today Markus Gabriel, Anders Moe Rasmussen, 2017-09-25 This collection of essays provides an exemplary overview of the diversity and relevance of current scholarship on German Idealism The importance of German Idealism for contemporary philosophy has received growing attention and acknowledgment throughout competing fields of contemporary philosophy Part of the growing interest rests on the claim that the works of Kant Fichte Schelling Hegel remain of considerable interest for cultural studies sociology theology aesthetics and other areas of interest In the domain of philosophy the renaissance of innovative readings of German Idealism has taken scholarly debates beyond merely antiquarian perspectives This renaissance has been a major factor of current efforts to bridge the gap between so called analytic and so called continental philosophy The volume provides a selection of well chosen examples of readings that contribute to systematic treatments of philosophical problems It contains among others contributions by Markus Gabriel Robert Pippin Anders Moe Rasmussen Sebastian R dl Songs of Experience Martin Jay, 2005-01-10 Few words in both everyday parlance and theoretical discourse have been as rhapsodically defended or as fervently resisted as experience Yet to date there have been no comprehensive studies of how the concept of experience has evolved over time and why so many thinkers in so many different traditions have been compelled to understand it Songs of Experience is a remarkable history of Western ideas about the nature of human experience written by one of our best known intellectual historians With its sweeping historical reach and lucid comparative analysis qualities that have made Martin Jay's previous books so distinctive and so successful Songs of Experience explores Western discourse from the sixteenth century to the present asking why the concept of experience has been such a magnet for controversy Resisting any single overarching narrative Jay discovers themes and patterns that transcend individuals and particular schools of thought and illuminate the entire spectrum of intellectual history As he explores the manifold contexts for understanding experience epistemological religious aesthetic political and historical Jay engages an exceptionally broad range of European and American traditions and thinkers from the American pragmatists and British Marxist humanists to the Frankfurt School and the French poststructuralists and he delves into the thought of individual philosophers as well including Montaigne Bacon Locke Hume and Kant Oakeshott Collingwood and Ankersmit Provocative engaging erudite this key work will be an essential source for anyone who joins the ongoing debate about the material linguistic cultural and theoretical meaning of experience in modern cultures

If you ally need such a referred **Reason In Religion The Foundations Of Hegels Philosophy Of Religion** books that will give you worth, get the extremely best seller from us currently from several preferred authors. If you want to humorous books, lots of novels, tale, jokes, and more fictions collections are moreover launched, from best seller to one of the most current released.
