Anthony Blair, 2011-10-20 J Anthony Blair is a prominent international figure in argumentation studies He is among the originators of informal logic an author of textbooks on the informal logic approach to argument analysis and evaluation and on critical thinking and a founder and editor of the journal *Informal Logic* Blair is widely recognized among the leaders in the field for contributing formative ideas to the argumentation literature of the last few decades This selection of key works provides insights into the history of the field of argumentation theory and various related disciplines It illuminates the central debates and presents core ideas in four main areas Critical Thinking Informal Logic Argument Theory and Logic Dialectic and Rhetoric

Attacking Faulty Reasoning

T. Edward Damer, 1980

Arguing on the Toulmin Model David Hitchcock, Bart Verheij, 2007-01-24 Summarizing in *The Uses of Argument* Toulmin emphasized a number of points that are by now familiar but still deserve attention

- 1 Reasoning and argument involve not only support for points of view but also attack against them
- 2 Reasoning can have qualified conclusions
- 3 There are other good types of argument than those of standard formal logic
- 4 Unstated assumptions linking premisses to a conclusion are better thought of as inference licenses than as implicit premisses
- 5 Standards of reasoning can be field dependent and can be themselves the subject of argumentation

Each of these points is illustrated by his layout of arguments The rebuttal illustrates the first point the qualifier the second point and the warrant and backing the last three points

2 RECEPTION OF TOULMIN S BOOK As Toulmin himself notes in his essay in this volume which was delivered as an address in 2005 his fellow philosophers were initially hostile to the ideas in his book They were taken up however by specialists in fields like jurisprudence and psychology who found that they fit the forms of argument and reasoning that they were studying And Toulmin s model was embraced by the field of speech communication in the United States whose textbooks on argumentation now include an obligatory chapter on the Toulmin model of micro arguments
