Reasons Of Ones Own:

31 Surprising Reasons to Believe in God Rick Stedman, 2017-07-01 In the style of C S Lewis Rick has given us a gift by pointing out the evidence for God's existence that can be found all around us if we know where to look Dr Mark W Baker *Could Our Lives Be Surrounded by Surprising Clues to God's Existence* We've all had doubts about God's existence or we know people who have What if we could uncover evidence of the reality of God that would bolster our faith or plant seeds of belief in the hearts of skeptics This 31 day intellectual journey reveals hints of the divine all around us in what we believe what we love what we have and what we know Discover how sports superheroes science and dozens of other topics point to unexpected clues of God's existence This carefully reasoned yet whimsical approach to a perplexing topic paves the way for meaningful dialogue between those who believe in God and those who are skeptical **Natural Law and Practical**

Rationality Mark C. Murphy, 2001-06-11 Natural law theory has been undergoing a revival especially in political philosophy and jurisprudence Yet most fundamentally natural law theory is not a political theory but a moral theory or more accurately a theory of practical rationality According to the natural law account of practical rationality the basic reasons for actions are basic goods that are grounded in the nature of human beings Practical rationality aims to identify and characterize reasons for action and to explain how choice between actions worth performing can be appropriately governed by rational standards These standards are justified by reference to features of the human goods that are the fundamental reasons for action This book is a defence of a contemporary natural law theory of practical rationality demonstrating its inherent plausibility and engaging systematically with rival egoist consequentialist Kantian and virtue accounts Electronic Commerce Mr. Rohit Manglik, 2024-03-11 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels

Being Apart from Reasons Cláudio Jr. Michelon, 2006-03-09 Being Apart from Reasons deals with the question of how we should go about using reasons to decide what to do More particularly the book presents objections to the most common response given by contemporary legal and political theorists to the moral complexity of decision making in modern societies namely the attempt to release public agents from their argumentative burden by insulating a particular set of reasons from the general pool of reasons and assigning the former systematic priority over all other reasons That strategy is apparent both in Rawls claim that reasons concerning the right are systematically prior to reasons concerning the good and in Raz's claim that pre-emptive reasons are systematically prior to first order reasons The same strategy is also instantiated by certain arguments for the procedural value of law such as Jeremy Waldron's In the book each of those arguments for the insulation of reasons is objected to in order to defend the thesis the reasoning by public agents must always be as comprehensive as possible The remaining chapters object to those arguments mentioned above which aim at justifying the exclusion of certain

reasons from public agents decision making Types Zemach,2021-11-01 This book consists of a series of applications to ontology the philosophy of mind and aesthetics of two nominalistic theses first that all the things we encounter houses cats people symphonies and also hair milk red and love are types and second that things are ontologically incomplete Types are material things that recur at several indices at which they are identical with other things thus in this world Man Mortal and today Jane Happy The Jupiter Symphony is a material thing that recurs at various times at homes and concert halls Like all things it is ontologically incomplete it is undetermined with respect to some properties therefore it can be interpreted that it is identical with some things more complete than it is Using these ideas new simple and metaphysically frugal solutions are offered to a plethora of questions that have beset philosophy ever since Plato **Emotions and Reasons** Patricia S. Greenspan,2014-02-25 In Emotions and Reasons Patricia Greenspan offers an evaluative theory of emotion that assigns emotion a role of its own in the justification of action She analyzes emotions as states of object directed affect with evaluative propositional content possibly falling short of belief and held in mind by generalized comfort or discomfort **Reality, Reason, and Rights** Douglas B. Rasmussen,Aeon J. Skoble,Douglas J. Den Uyl,2011-01-01 Tibor R Machan one of the most prolific and wide ranging philosophers of our time has been known internationally for decades through his public speaking opinion columns and of course his scholarly writing This collection of essays seeks to explore Machan s philosophical ideas by considering some of the basic issues with which he has been concerned throughout his long and highly productive career The essays range from those concerned with the nature of reality and knowledge to those dealing with the nature of the political legal order Topics such as the character of human nature free choice and responsibility the justification of individual rights and the place of justice in the contemporary welfare state among other basic issues are discussed in these essays Because Machan himself dealt with questions of central importance the essays should appeal to a wide range of interests and disciplines in philosophy and related fields But the essays are also written by people accomplished in their own right and thus seek not only to comment on Machan but to make their own contribution to enduring philosophical issues The volume should be of value to both students and faculty alike **Autonomy and Community** Jane Kneller,Sidney Axinn,1998-01-01 Shows how Kant s basic position applies to and clarifies present day problems of war race abortion capital punishment labor relations the environment and marriage **Karl Jaspers' Theory of Irrationality** Daniel Adsett,2024-12-16 Defending the view that Karl Jaspers concept of irrationality *Widervernunft* is better able to account for pathological patterns of individual and collective thinking Karl Jaspers Theory of Irrationality From Delusions to Worldviews argues that irrationality is incorrigibility a blockage of reason as the will to communication Highlighting the importance of freedom and creativity at the heart of reason *Vernunft* Daniel Adsett analyzes examples of delusional thought through a Jaspersian lens He shows that irrationality arises when we hold to certain attitudes with an incorrigible conviction and refuse to genuinely consider the possibility that we might need to revise or change our beliefs In presenting these arguments Adsett offers a novel

contribution to contemporary debates about the character of reason while rehabilitating an often neglected aspect of Jaspers thought Martin Luther's Theology Oswald Bayer,2008-11-03 Forty years of in depth research on Martin Luther s theology uniquely qualifies Oswald Bayer to present this comprehensive introduction to Luther s thought written for those lacking an academic background in theology Bayer s noteworthy study explores the basics of Luther s understanding of theology discussing his response to the philosophy of science tradition the formula by which he studied theology and the basic philosophy that informed him Bayer then takes Luther s stance on Christian dogmatics and ethics and applies it to our own theological understanding in the modern age With such a complete Lutheran dogmatic concept the first of its kind offered the stunning inner consistency of Luther s theology and its ease of application to contemporary studies become unmistakably clear **Women and Liberty, 1600-1800** Jacqueline Broad,Karen Detlefsen,2017-12-01 There have been many different historical intellectual accounts of the shaping and development of concepts of liberty in pre Enlightenment Europe This volume is unique for addressing the subject of liberty principally as it is discussed in the writings of women philosophers and as it is theorized with respect to women and their lives during this period The volume covers ethical political metaphysical and religious notions of liberty with some chapters discussing women s ideas about the metaphysics of free will and others examining the topic of women s freedom or lack thereof in their moral and personal lives as well as in the public socio political domain In some cases these topics are situated in relation to the emergence of the concept of autonomy in the late eighteenth century and in others with respect to recent feminist theorizing about relational autonomy and internalized oppression Many of the chapters draw upon a wide range of genres including polemical texts poetry plays and other forms of fiction as well as standard philosophical treatises Taken as a whole this volume shows how crucial it is to recover the too long forgotten views of female and women friendly male philosophers of the seventeenth and eighteenth centuries In the process of recovering these voices our understanding of philosophy in the early modern period is not only expanded but also significantly enhanced toward a more accurate and gender inclusive history of our discipline **Philosophy: What It Is and Why We Need It** , *Reason, Value, and Respect* Mark Timmons,Robert Neal Johnson,2015 In 13 specially written essays leading philosophers explore Kantian themes in moral and political philosophy that are prominent in the work of Thomas E Hill Jr such as respect and self respect practical reason conscience and duty In conclusion Hill offers an overview of his work and responses to the preceding essays **Humean Moral Pluralism** Michael B. Gill,2014 Michael B Gill offers a new account of Humean moral pluralism the view that there are different moral reasons for action which are based on human sentiments He explores its historical origins and argues that it offers the most compelling view of our moral experience Together pluralism and Humeanism make a philosophically powerful couple The Routledge Handbook of Collective Responsibility Saba Bazargan-Forward,Deborah Tollefsen,2020-04-19 The Routledge Handbook of Collective Responsibility comprehensively addresses questions about who is responsible and how blame or praise should be attributed

when human agents act together Such questions include Do individuals share responsibility for the outcome or are individuals responsible only for their contribution to the act Are individuals responsible for actions done by their group even when they don't contribute to the outcome Can a corporation or institution be held morally responsible apart from the responsibility of its members The Handbook's 35 chapters all appearing here for the first time and written by an international team of experts are organized into four parts Part I Foundations of Collective Responsibility Part II Theoretical Issues in Collective Responsibility Part III Domains of Collective Responsibility Part IV Applied Issues in Collective Responsibility Each part begins with a short introduction that provides an overview of issues and debates within that area and a brief summary of its chapters In addition a comprehensive index allows readers to better navigate the entirety of the volume's contents The result is the first major work in the field that serves as an instructional aid for those in advanced undergraduate courses and graduate seminars as well as a reference for scholars interested in learning more about collective responsibility **Faith**
