Following an encompassing perspective on alphabetic diversity Selvelli an expert on Southeast European Studies reconstructs the ideological context of national discourses connected to the Latin and Cyrillic alphabets also taking a look at the Arabic and Glagolitic scripts and interweaving issues on the symbolism of the alphabet with the complex recent history of the region marked by the parallel influences of the East and the West She also sheds light on the impact of a range of alphabet policies on ethnolinguistic minorities proposing a new definition of alphabetic rights with special regard to the multiethnic legacy of the former Ottoman and Habsburg empires This comprehensive book makes us discover the privileged role that writing systems played in the region s delicate post imperial and post socialist transitions leaving us captivated by peculiar stories such as that of the utopian Yugoslav alphabet Inventing Edward Lear Sara Lodge,2018-11-30 Edward

Anxiety in Modern Scandinavian Literature Markus Floris Christensen,2024-06-17 This book explores how states and traits of anxiety are reflected in the style and structure of certain works by three key figures of modern Scandinavian literature August Strindberg Inger Christensen Karl Ove Knausg r d On the basis of particular literary analyses it develops a literary phenomenology of anxiety as well as a hermeneutical theory of anxiety that considers the ways in which anxiety has been represented in various genres of modern Scandinavian literature from the last three centuries Whereas the former uncovers the ways in which anxiety is reflected in literary form and style the latter interprets the relationship between author text and reader as well as the effects of genre As Strindberg s works capture the tensions between existential indeterminism and naturalistic determinism and make way for negative aesthetic pleasure poetry such as Christensen s challenges scientific and psychiatric conceptions of anxiety and instigates a change in how humans conduct themselves in relation to the experience of anxiety Finally Knausg r d s autofictive work gives voice to the socially anxious self of late modernity and

incites moments of self intensification and reorganizes the fragile self of contemporary society In this way it becomes clear that literature is an outstanding archive of representations and transformations in the cultural history of anxiety Literature is an aesthetic medium of expression and reflection that represents anxiety in a number of ways that may enrich our understanding of anxiety today This work thus contributes to cultural and literary scholarship that contests the subjugation of anxiety to a scientific world view and aims to expose the imaginative and creative dimensions of anxiety that are often ignored in contemporary public discourse and policy Children's Book Review Index Gary C.
