that key radical religionists used Ernest Renan's *The Life of Jesus* to create an imaginative brand of biblical criticism that struck a balance between the demands of reason and the doctrines of religion. And this measured approach allowed Robert Ingersoll, Elizabeth Cady Stanton, Eugene Debs and other secular minded thinkers who sought to purge Christianity of its supernatural dimensions to still find something wonderful in the religious imagination and make common cause with an ancient peasant from Galilee. This provocative blend of reason and religion produced a vibrant countercultural movement that spanned communities, classes and creeds and makes *The Life and Death of the Radical Historical Jesus* a book that deserves a wide readership in an era when public intellectuals and politicians on both the left and right draw rigid lines between the secular and the sacred.

Inflation Decade, 1910—1920 David I. Macleod, 2024-04-29 This book shows how inflation can disrupt politics and society. With no recent precedent, mild inflation spurred mass protests, myriad remedial schemes and partisan political reversals between 1910 and 1914. Then wartime demand and inflationary fiscal policy doubled consumer prices from 1915 to 1920, triggering waves of strikes, food riots, immigrant housewives' class conflict and elite fears of revolution. Middle class households resented falling real incomes. Even more than today, food prices dominated consumer concerns. Yet farmers wanted high commodity prices. Accordingly, both sides blamed and attacked meatpackers, wholesalers and retailers. Then, as now, inflation hurt whichever party held the White House. Fumbling responses by Wilson's administration and the Federal Reserve led to hesitant price controls, punitive raids and prosecutions, and a now familiar fallback: high interest rates in 1920 and subsequent recession. An epilogue traces continuing popular and political responses to changes in the consumer price index down to 2020.

Daughters of the Shtetl Susan A. Glenn, 2019-06-30 In this fascinating portrait of Jewish immigrant wage earners, Susan A. Glenn weaves together several strands of social history to show the emergence of an ethnic version of what early twentieth century Americans called the New Womanhood. She maintains that during an era when Americans perceived women as temporary workers interested ultimately in marriage and motherhood, these young Jewish women turned the garment industry upside down with a wave of militant strikes and shop floor activism and helped build the two major clothing workers unions.

Terrorist Histories Caoimhe Nic Dhaibheid, 2016-11-03 This book addresses and provides a series of in-depth portraits of men and women who have been labelled terrorists from the 19th, 20th and 21st centuries. Bridging historical methodologies and theoretical approaches to terrorism studies, it seeks to contribute to the developing historicising of terrorism studies. This is achieved principally through a prosopographical approach. In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence, the individuals who participate in terrorist acts are often obscured. While ideologies and organisations have attracted much scholarly interest, less is known of the personal trajectories into political violence, particularly from a historical perspective. The focus on a relatively narrow cast of high profile terrorist villains, to a large part driven by popular and media attention, results in a somewhat skewed picture of equal value; arguably, a more sustained

reflection on the lives of lesser known individuals The book sits at the juncture between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general
