Custen Mary Ann Doane Richard Dienst Taylor Downing Gary Edgerton Naomi Greene Miriam Bratu Hansen Sue Harper Sumiko Higashi Anton Kaes Marcia Landy Shawn Rosenheim Robert A. Rosenstone Pierre Sorlin Maria Wyke and Ismail Xavier Rebirth of a Nation John Lloyd, 1998 *Tales of the Nation* Lene Bull-Christiansen, 2004 In light of the uses and misuses of history in Zimbabwean politics in recent years this research report focuses on how versions of the country's liberation war history have become a site of struggle over the definition of Zimbabwean national identity As identity politics often do Zimbabwean nationalism draws on a wide field of cultural symbols of identity and political discourses of inclusion and exclusion Therefore the report takes a cross disciplinary approach to the issue of national identity by mapping out the imaginary field of Zimbabwean nationalism This approach opens up the possibility of cross reading the political discourses of the President and the ruling party ZANU PF with opposing voices such as those in the works of the author Yvonne Vera This cross reading shows how Vera's novels and the political discourses participate in the struggle over Zimbabwean national identity by offering different versions of the nation's history in the form of patriotic history feminist nationalism or narratives of difference In this way the research report adds to our understanding of power and resistance in Zimbabwean politics of national identity *Managing Domestic Dissent in First World War Britain* Brock Millman, 2014-01-14 The author argues that the way the British Government managed dissent during World War I is important for understanding the way that the war ended He argues that a comprehensive and effective system of suppression had been developed by the war's end in 1918 with a greater level in reserve *Deepfakes* Graham Meikle, 2022-09-22 What happens when we can no longer believe what we see Show the AI technologies that create deepfakes enough images of a celebrity or a politician and they will generate a convincing video in which that person appears to say and do things they have never actually said or done The result is a media environment in which anyone's face and image can be remixed and manipulated Graham Meikle explains how deepfakes synthetic media are made and used From celebrity porn and political satire to movie mash ups and disinformation campaigns this book explores themes of trust and consent as face swapping software becomes more common Meikle argues that deepfake videos allow for a new perspective on the taken for granted nature of contemporary media in which our capacity to remix and share content increasingly conflicts with our capacity to trust The book analyses how such videos deepen the social media environment in which the public and the personal converge and in which all human experience becomes data to be shared Timely clear and accessibly written this is an essential text for students and scholars of media communication cultural studies and sociology as well as general readers **America Ascendant** Stanley B. Greenberg, 2015-11-03 America is poised to lead the 21st Century as it led the 20th That will happen

because the country is at a tipping point in the battle for its own renewal a renewal that will allow America to be exceptional again Our economy is on the move fueled by revolutions in energy immigration innovation big data and advanced manufacturing America s energy independence has set off shockwaves Just as important are the social transformations that are making the country ever more racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America s on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country s growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being

gridlocked and he articulates a powerful vision of how American politics and America can be renewed **D. W. Griffith's The Birth of a Nation** Jenny Barrett,Douglas Field,Ian Scott,2022-12-27 In 1915 American filmmaker D W Griffith released a film that went on to become one of the most controversial of all time Over a century later The Birth of a Nation continues to stimulate debate on the relationship between Hollywood and racism This volume reveals new perspectives on Griffith s film across ten original chapters re considering it as text historical milestone and influence The volume also includes a helpful timeline that lists key publications and events in Birth s ongoing history revealing the rich and stimulating discourse on its art its cultural impact and its ethical dimensions [Narratives of Nation-Building in Korea](#) Sheila Miyoshi Jager,2016-07-08 This book offers new insight on how key historical texts and events in Korea s history have contributed to the formation of the nation s collective consciousness The work is woven around the unifying premise that particular narrative texts events that extend back to the premodern period have remained important albeit transformed over the modern period and into the contemporary period The author explores the relationship between gender and nationalism by showing how key narrative topics such as tales of virtuous womanhood have been employed transformed and re deployed to make sense of particular national events Connecting these narratives and historic events to contemporary Korean society Jager reveals how these sites or reference points were also successfully re deployed in the context of the division of Korea and the construction of Korea s modern consciousness *Multicultural Comics* Frederick Luis Aldama,2010-09-15 Frederick Aldama has done it again with another timely and valuable book about comics Picking up from his pioneering book Your Brain on Latino Comics he has gathered an insightful group of authors in Multicultural Comics that deftly engage the intersectionality of race and identity

image and idea theory and methods and comics and politics The impressive range of critical essays covers steep theoretical and cultural ground yet sure footedly demonstrates that the grand fantasyscapes illustrated across various comic book configurations are a site of real and imagined racial differentiation intensely dialoguing with the self the nation and the world

*The Delectable Negro* Vincent Woodard, 2014-06-27 Winner of the 2015 LGBT Studies Award presented by the Lambda Literary Foundation Unearths connections between homoeroticism cannibalism and cultures of consumption in the context of American literature and US slave culture that has largely been ignored until now Scholars of US and transatlantic slavery have largely ignored or dismissed accusations that Black Americans were cannibalized Vincent Woodard takes the enslaved person s claims of human consumption seriously focusing on both the literal starvation of the slave and the tropes of cannibalism on the part of the slaveholder and further draws attention to the ways in which Blacks experienced their consumption as a fundamentally homoerotic occurrence The Delectable Negro explores these connections between homoeroticism cannibalism and cultures of consumption in the context of American literature and US slave culture Utilizing many staples of African American literature and culture such as the slave narratives of Olaudah Equiano Harriet Jacobs and Frederick Douglass as well as other less circulated materials like James L Smith s slave narrative runaway slave advertisements and numerous articles from Black newspapers published in the nineteenth century Woodard traces the racial assumptions political aspirations gender codes and philosophical frameworks that dictated both European and white American arousal towards Black males and hunger for Black male flesh Woodard uses these texts to unpack how slaves struggled not only against social consumption but also against endemic mechanisms of starvation and hunger designed to

break them He concludes with an examination of the controversial chain gang oral sex scene in Toni Morrison s Beloved suggesting that even at the end of the twentieth and beginning of the twenty first century we are still at a loss for language with which to describe Black male hunger within a plantation culture of consumption **Shaping Global Islamic**
