Rebuilding A House Divided A Memoir By The Architect Of Germanys Reunification:

Rebuilding a House Divided Hans-Dietrich Genscher, 1998 Americans may not recognize his name but the actions of Hans Dietrich Genscher Germany's foreign minister from 1974-1989 have had an enormous impact on the world we live in today In this sweeping memoir Genscher illuminates such seminal events as the destruction of the Berlin Wall and the reunification of Germany the dismantling of the Eastern Bloc and the creation of the European Union From the perspective of the ultimate insider Genscher describes the thawing of the Cold War including his own behind the scenes conversations with Mikhail Gorbachev and other world leaders the strategies he developed that led to the emotionally charged demolition of the Berlin Wall and the heated meetings between international leaders as the face of Europe changed His candid portraits of Reagan Thatcher Mitterand and Gorbachev and his eyewitness accounts of what really goes on behind closed doors show a side of international affairs rarely seen by the American public A number one bestseller in Germany Rebuilding a House Divided is must reading for anyone interested in politics diplomacy and the complex relationship between the United States and Europe

The German Problem Transformed Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe's central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the détente of the 1960s and 1970s the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University

France and the Reunification of Germany Tilo Schabert, 2021-10-12 With the collapse of the Soviet Union and its Eastern European bloc the reunification of Germany was a major episode in the history of modern Europe and one widely held to have been opposed by that country's centuries old enemy France But while it has been previously believed that French President François Mitterrand played a negative role in events leading up to reunification this book shows that Mitterrand's main concern was not the potential threat of an old nemesis but rather that a reunified Germany be firmly anchored in a unified Europe Updated with a new introduction and

other materials the book blends primary research and interviews with key actors in France and Germany to take readers behind the scenes of world governments as a new Europe was formed Tilo Schabert had unprecedented exclusive access to French presidential archives and here focuses on French diplomacy not only to dispel the notion that Mitterrand was reluctant to accept reunification but also to show how successful he was in bringing it about *The Crisis of Détente in Europe* Leopoldo Nuti, 2008-11-11 This edited volume is the first detailed exploration of the last phase of the Cold War taking a critical look at the crisis of détente in Europe in the late 1970s and early 1980s The transition from détente to a new phase of harsh confrontation and severe crises is an interesting indeed crucial phase of the evolution of the international system This book makes use of previously unreleased archival materials moving beyond existing interpretations of this period by challenging the traditional bipolar paradigm that focuses mostly on the role of the superpowers in the transformation of the international system The essays here emphasize the combination and the interplay of a large number of variables political ideological economic and military and explore the topic from a truly international perspective Issues covered include human rights the Euromissiles the CSCE Commission on Security and Cooperation in Europe the Revolution in Military Affairs economic growth and its consequences *The Passion of International Leadership* Philippe Beauregard, 2022-10-04 How do international leaders emerge and why are they successful in bringing followers to converge on their positions The Passion of International Leadership draws on recent advances in political psychology and state of the art research in International Relations to go beyond current knowledge and simplistic accounts of international leadership It tells surprising and intense stories of policymakers at the head of great powers attempting to cooperate during crisis moments and uses these stories to challenge commonly held beliefs and intuitions about international leadership Beauregard explores international leadership in four cases of transatlantic cooperation when Western policymakers were confronted with foreign conflicts like civil or secessionist wars He provides a fascinating study of the recognition of Slovenia Croatia and Bosnia during the wars in Yugoslavia the peace mediation during the Russia Georgia war in 2008 the adoption of economic sanctions against Russia over the conflict in Ukraine and finally cooperation on striking against the Islamic State in Iraq and Syria The book argues that leaders are driven by their convictions and that they must strike a balance between the intense emotions associated with their beliefs and their need to represent a broader community At the same time as they seek to bring followers on board by persuading them they need to pay attention to emotionally contagious and resonant events that can alter the course of international cooperation **A Legal Geography of Yugoslavia's Disintegration** Ana S. Trbovich, 2008-02-05 The author explains the violent break up of the former Yugoslavia in the early 1990s in the context of two legal principles sovereignty and the self determination of peoples She also offers an analysis of Kosovo's future status international recognition of secession implications for other conflicts and much more *Euromissiles* Susan Colbourn, 2022-11-15 In *Euromissiles* Susan Colbourn tells the story of the height of nuclear crisis and the remarkable waning of the fear that gripped the globe In the

Cold War conflict that pitted nuclear superpowers against one another Europe was the principal battleground Washington and Moscow had troops on the ground and missiles in the fields of their respective allies the NATO nations and the states of the Warsaw Pact Euromissiles intermediate range nuclear weapons to be used exclusively in the regional theater of war highlighted how the peoples of Europe were dangerously placed between hammer and anvil That made European leaders uncomfortable and pushed fearful masses into the streets demanding peace in their time At the center of the story is NATO Colbourn highlights the weakness of the alliance seen by many as the most effective bulwark against Soviet aggression Divided among themselves and uncertain about the depth of US support the member states were riven by the missile issue This strategic crisis was as much as any summit meeting between US president Ronald Reagan and Soviet general secretary Mikhail Gorbachev the hinge on which the Cold War turned Euromissiles is a history of diplomacy and alliances social movements and strategy nuclear weapons and nagging fears and politics To tell that history Colbourn takes a long view of the strategic crisis from the emerging dilemmas of allied defense in the early 1950s through the aftermath of the INF Treaty thirty five years later The result is a dramatic and sweeping tale that changes the way we think about the Cold War and its culmination *Debating the End of Yugoslavia* Florian Bieber, Armina Galijaš, 2016-05-13 Countries rarely disappear off the map In the 20th century only a few countries shared this fate with Yugoslavia The dissolution of Yugoslavia led to the largest war in Europe since 1945 massive human rights violations and over 100 000 victims *Debating the End of Yugoslavia* is less an attempt to re write the dissolution of Yugoslavia or to provide a different narrative than to take stock and reflect on the scholarship to date New sources and data offer fresh avenues of research avoiding the passion of the moment that often characterized research published during the wars and provide contemporary perspectives on the dissolution The book outlines the state of the debate rather than focusing on controversies alone and maps how different scholarly communities have reflected on the dissolution of the country what arguments remain open in scholarly discourse and highlights new innovative paths to study the period Europe and the Collapse of Yugoslavia Branislav Radeljic, 2016-05-11 In 1992 Yugoslavia finally succumbed to civil war collapsing under the pressure of its inherent ethnic tensions Existing accounts of Yugoslavia s dissolution however pay little regard to the troubled relationship between the Yugoslav Federation and the European Community EC prior to the crisis in the early 1990s and the instability this created Here Branislav Radeljic offers an empirical analysis of the EC s relations with Yugoslavia from the late sixties when Yugoslavia was under the presidency of Josep Broz Tito through to the collapse of the Yugoslav federation in 1992 after the rise of Slobodan Milo evi and the beginning of the Yugoslav Wars Radeljic explores the economic political and social elements of these discords and also places emphasis on the role of Slovenes Croats and other diasporas focusing on their capacity to affect policy making at a Europe wide level Radeljic argues convincingly that a lack of direction and inadequate political mechanisms within the EC enabled these non state actors to take centre stage and shows how EC paralysis precipitated a bloody conflict in the Balkan region

Business and the Euro M. Duckenfield, 2006-02-07 This book explores how British and German business associations formed their political attitudes towards Economic and Monetary Union between 1988 and 1998 With provocative argument and unique insight it demonstrates how business associations are political entities in their own right acting strategically to promote members specific interests

Maximalist Stephen Sestanovich, 2014-02-11 From a writer with long and high level experience in the U S government a startling and provocative assessment of America s global dominance *Maximalist* puts the history of our foreign policy in an unexpected new light while drawing fresh compelling lessons for the present and future When the United States has succeeded in the world Stephen Sestanovich argues it has done so not by staying the course but by having to change it usually amid deep controversy and uncertainty For decades the United States has been a power like no other Yet presidents and policy makers worry that they and even more their predecessors haven t gotten things right Other nations they say to themselves contribute little to meeting common challenges International institutions work badly An effective foreign policy costs too much Public support is shaky Even the greatest successes often didn t feel that way at the time Sestanovich explores the dramatic results of American global primacy built on these anxious foundations recounting cycles of overcommitment and underperformance highs of achievement and confidence followed by lows of doubt We may think there was a time when America s international role reflected bipartisan unity policy continuity and a unique ability to work with others but *Maximalist* tells a different story one of divided administrations and divisive decision making of clashes with friends and allies of regular attempts to set a new direction Doing too much has always been followed by doing too little and vice versa *Maximalist* unearths the backroom stories and personalities that bring American foreign policy to life Who knew how hard Lyndon Johnson fought to stay out of the war in Vietnam or how often Henry Kissinger ridiculed the idea of visiting China Who remembers that George Bush Sr found Ronald Reagan s diplomacy too passive or that Bush Jr considered Bill Clinton s too active Leaders and scoundrels alike emerge from this retelling in sharper focus than ever before Sestanovich finds lessons in the past that anticipate and clarify our chaotic present

The Nuclear Crisis Christoph Becker-Schaum, Philipp Gassert, Martin Klimke, Wilfried Mausbach, 2016-10-01 In 1983 more than one million Germans joined together to protest NATO s deployment of nuclear missiles in Europe International media overflowed with images of marches rallies and human chains as protesters blockaded depots and agitated for disarmament Though they failed to halt the deployment the episode was a decisive one for German society revealing deep divisions in the nation s political culture while continuing to mobilize activists This volume provides a comprehensive reference work on the Euromissiles crisis as experienced by its various protagonists analyzing NATO s diplomatic and military maneuvering and tracing the political cultural and moral discourses that surrounded the missiles deployment in East and West Germany

The Hour of Europe Josip Glaurdic, Josip Glaurdić, 2011-01-01 By looking through the prism of the West's involvement in the breakup of Yugoslavia this book presents a new examination of the end of the Cold War in Europe Incorporating declassified documents from the CIA the administration of George H W Bush and the British Foreign Office evidence generated by The Hague Tribunal and more than forty personal interviews with former diplomats and policy makers Glaurdi exposes how the realist policies of the Western powers failed to prop up Yugoslavia's continuing existence as intended and instead encouraged the Yugoslav Army and the Serbian regime of Slobodan Milosevi to pursue violent means The book also sheds light on the dramatic clash of opinions within the Western alliance regarding how to respond to the crisis Glaurdi traces the origins of this clash in the Western powers different preferences regarding the roles of Germany Eastern Europe and foreign and security policy in the future of European integration With subtlety and acute insight *The Hour of Europe* provides a fresh understanding of events that continue to influence the shape of the post Cold War Balkans and the whole of Europe

The Final Act Michael Cotey Morgan, 2020-08-11 The definitive account of the historic diplomatic agreement that provided a blueprint for ending the Cold War The Helsinki Final Act was a watershed of the Cold War Signed by thirty five European and North American leaders at a summit in Finland in the summer of 1975 the document presented a vision for peace based on common principles and cooperation across the Iron Curtain The Final Act is the first in depth history of the diplomatic saga that produced this important agreement This gripping book explains the Final Act's emergence from the parallel crises of the Soviet bloc and the West during the 1960s and the conflicting strategies that animated the negotiations Drawing on research in eight countries and multiple languages The Final Act shows how Helsinki provided a blueprint for ending the Cold War and building a new international order

Playing the Market Nicolas Jabko, 2012-02-15 In the 1980s and 1990s Nicolas Jabko suggests the character of European integration altered radically from slow growth to what he terms a quiet revolution In this book he traces the political strategy that underlay the move from the Single Market of 1986 through the official creation of the European Union in 1992 to the coming of the euro in 1999 The official shared language of the political forces behind this revolution was that of market reforms yet as Jabko notes this was a very strange market revolution one that saw the building

of massive new public institutions designed to regulate economic activity such as the Economic and Monetary Union and deeper liberalization in economic areas unaffected by external pressure than in truly internationalized sectors of the European economy What held together this remarkably diverse reform movement Precisely because the market wasn't a single standard the agenda of market reforms gained the support of a vast and heterogeneous coalition The market was in fact a broad palette of ideas to which different actors could appeal under different circumstances It variously stood for a constraint on government regulations a norm by which economic activities were or should be governed a space for the active pursuit of economic growth an excuse to discipline government policies and a beacon for new public powers and rule making In chapters on financial reform the provision of collective services regional development and social policy and economic and monetary union Jabko traces how a coalition of strange bedfellows mobilized a variety of market ideas to integrate Europe
