Recasting German Federalism The Legacies Of Unification

Michael A. Pagano

Recasting German Federalism The Legacies Of Unification:

Recasting German Federalism Charlie Jeffery, 1999-01-01 Understanding Germany's federal structure is crucial to understanding contemporary Germany. The federal system shaped the way German unification was carried out; it shapes the way in which policies are made and it plays a role in determining the way in which Germany presents its priorities in the EU. The first part of the book analyzes the nature of pre-unification West German federalism and the unique challenge posed for the federal system by unification. Part 2 takes stock of key issues in the operation of post-unification federalism, including the policy process, the role of parties in federalism, conflicts of interest over financial allocations, and the impact of deepening European integration. The final part offers a series of critical perspectives which address the long-term legacies of unification and increasing pressures for reform.

Recasting German Federalism Charlie Jeffery, 1999 Understanding Germany's federal structure is crucial to understanding contemporary Germany. The federal system shaped the way German unification was carried out; it shapes the way which policies are made and it plays a role in determining the way in which Germany presents its priorities in the European Union. This first part establishes the context by setting out and analyzing the character of pre-unification West German federalism and the challenge posed for the federal system by German unification. The second part takes stock of key issues in the operation of post-unification federalism, including the policy process, the role of parties in federalism, conflicts of interest over financial allocations, and the impact of deepening European integration. The final part offers a series of critical perspectives which address the long-term legacies of unification and the increasing pressures for reform which now beset the federal system.

German Public Policy and Federalism Arthur B. Gunlicks, 2004-10-01 Since unification, German society and institutions have been challenged by various transformations and the need to adjust to changing conditions. While much has been accomplished, many political, legal, and institutional problems remain. This volume deals with selected aspects of domestic and European policy, political parties, the challenge of direct democracy, and federalism in unified Germany. All issues that have been the subject of much discussion, political posturing, legislation, and to some extent constitutional amendments and court decision for many years, if not decades. In conclusion, a British scholar looks at German federalism and a number of public policy issues from a comparative perspective and arrives at some surprising and encouraging results.

Comparative Federalism Thomas O. Hueglin, Alan Fenna, 2015-08-24 *Comparative Federalism: A Systematic Inquiry* Second Edition is a uniquely comprehensive analytic and genuinely comparative introduction to the principles and practices as well as the institutional compromises of federalism. Hueglin and Fenna draw from their diverse research on federal systems to focus on four main models: America, Canada, Germany, and the European Union, but also to range widely over other cases. At the heart of the book is careful analysis of the relationship between constitutional design and amendment, fiscal relations, institutional structures, intergovernmental relations, and judicial review. Such analysis serves the dual role of helping the reader understand federalism and providing a comparative framework from which to assess the

record of federal systems The second edition has been extensively revised and updated taking into account new developments in federal systems and incorporating insights from the growing body of literature in the field It includes two new chapters Fiscal Federalism and The Limits of Federalism

Reconceptualizing Sovereignty in the Post-National State: Statehood Attributes in the International Order Flavio G. I. Inocencio, 2014 This book offers a multidisciplinary approach to the study of the concept of sovereignty This book outlines the origins context and evolution of the concept of sovereignty as an essential attribute of the modern territorial State since the Peace of Westphalia in 1648 The book identifies two competing traditions of the concept of sovereignty the tradition inaugurated by Jean Bodin in 1576 in his work The Six Books of the Commonwealth and another that started with Johannes Althusius in 1603 considered the father of federal theory in his less known work Politica In order to understand the concept of sovereignty it is necessary to understand the constitutional rules of each international system and the fact that the States are the primary polities in the international arena The rise of International Organizations and the increasing institutionalization of the international system challenges this state centric world considering their exercise of sovereign powers Following authors such as Daniel Elazar the book discusses the importance of federalism as political theory which offers a different understanding of the concept of sovereignty The book discusses the European Union as a paradigmatic case of a postmodern confederation which challenges the notion of sovereignty as an absolute and exclusive statehood attribute Furthermore the reconceptualization of sovereignty in International Law should consider the rise of regional and functional legal orders the different understandings of sovereignty offered by the federalist tradition and the processes of deterritorialization and disaggregation of authority The book concludes with the idea that concept of sovereignty in International Law should be seen as a flexible concept which is not an exclusive attribute of the modern territorial state This book is required reading for all interested in the history and the evolution of the concept of sovereignty

Developments in German Politics 3 Stephen Padgett, Gordon Smith, William E. Paterson, 1992 Once the miracle economy of the continent Germany now staggers under the massive cost burden of unification while it struggles to come to terms with global economic change Failure to confront the underlying economic weakness has discredited political institutions and patterns of political behavior that were once regarded as the efficient secret of economic success The country stands at the crossroads between economic reform and a spiral of economic decline with unpredictable fallout Bringing together entirely new chapters by leading authorities in the field Developments in German Politics 3 examines the unfolding crisis of German political economy its repercussions for polity politics and policy and the consequences for Germany's role in Europe and the wider world Like its predecessors this book will be of interest to all concerned with European politics and will be necessary reading for students of German politics and society Contributors David P Conradt Russell J Dalton Kenneth Dyson Klaus H Goetz Simon Green Adrian Hyde Price Charlie Jeffery Stephen Padgett William E Paterson Wolfgang R dig Martin Seeleib Kaiser Gordon Smith Roland Sturm

The Changing Faces of

Federalism Sergio Ortino, Mitja Zagar, Vojtech Mastny, 2005 This book discusses the tradition and the institutions of federalism in the Eastern Central and Western European countries and deals with many innovative issues such as multi level governance network government devolution subsidiarity asymmetry and functionalism An assumption of the book is that the European enlargement and the new European constitution could result in two major evolutions in the future one is a full federal state the other is an institutional response to the effects of the technological innovations of our epoch

Federalism and the Lander Autonomy Cesare Onestini, 2018-10-24 An interesting study of the German higher Education system examining the development of higher education policies from the post war years to the post unification period The Art of the State Thomas J. Courchene, Donald J. Savoie, Institute for Research on Public Policy, 2003 The Art of the State brings together political scientists and economists to look at governing and governance in an increasingly globalized world It explores ways in which democratic governance can survive in a globalized environment and suggests how to combat disillusionment

Legislative, Executive, and Judicial Governance in Federal Countries Katy Le Roy, Cheryl Saunders, 2006-09-19 Comparative studies examine the constitutional design and actual operation of governments in Argentina Australia Austria Canada Germany India Nigeria Russia South Africa Switzerland and the United States Contributors analyze the structures and workings of legislative executive and judicial institutions in each sphere of government They also explore how the federal nature of the polity affects those institutions and how the institutions in turn affect federalism The book concludes with reflections on possible future trends

Courts in Federal Countries Nicholas Aroney, John Kincaid, 2017-01-01 Courts in Federal Countries examines the role high courts play in thirteen countries including Australia Brazil Canada Germany India Nigeria Spain and the United States *Europe's Hidden Federalism* Bojan Kovacevic, 2017-05-18 The hidden federal features of the European Union help explain the challenges of legitimacy democracy and freedom that face an unfinished political community Ideas about federalism and the reality of existing federal states cannot be sharply divided in an analysis of the EU's multilevel political order but so far both scholars and major decision makers have shown interest only in the normal functioning of federal systems ignoring the dilemma of the federation's legitimate authority has resulted in an existential crisis for the EU which has become ever more manifest over recent years

This book employs a combination of political philosophy and political science of federal philosophic ideas and their traces in real federal institutions in order to achieve the task of understanding the federal features of the EU governance system The first part of the work focuses on building an appropriate theoretical framework to explain the new meanings attached to familiar notions of democracy legitimacy and citizenship in the context of a political community like the EU In the second part the federal features of the EU's political system are examined in comparison to other current and historical federal perspectives like the US Switzerland Yugoslavia and Germany Through an analysis of the hidden federal aspects of the EU and the links between hidden federalism and the EU's legitimacy crisis this book reveals the patterns that should be avoided

and gives us guidelines that should be followed if the EU is to become democratic and politically united without jeopardising the state character of its members

Converging Regional Education Policy in France and Germany Claire Dupuy, 2020-03-30 How have regionalization processes across Europe impacted on policy convergence This book takes as its starting point the curious fact that autonomous regional policymaking may be parallel to regional governments pursuing policy similarity The author proposes that these observations are paradoxical only if sector specific policy norms are disregarded and when autonomy is considered as the exclusive goal of regional governments Focusing on common yet understudied regional situations where a sense of cultural or historical distinctiveness is not readily apparent if at all the book argues that in policy sectors where norms of territorial equality have long been dominant regional governments endorse them as a way to secure or expand their policy capacity when the central state or other policy entrepreneurs challenge it This results in converging policies A textured comparative account of educational policymaking in German Länder and French conseils régionaux over three decades forms the backbone of this analysis of policymaking in ordinary regions

The Dynamics of Federalism in National and Supranational Political Systems Michael A. Pagano, 2007-01-17 This collection of essays is designed to help scholars and practitioners understand the fluid and dynamic nature of federalism with particular emphasis on the federal system in the United States The book is written to aid our understanding of the contemporary question which federalism

Federal Constitutions and International Relations John Trone, 2001 A comprehensive analysis of one of the most politically controversial issues in Australian law the implementation of treaties by the federal government Unique in Australian books on legal issues this rigorous analysis of constitutional law examines relevant cases and legislation from Australia Canada the USA Germany Switzerland Austria Malaysia and India Including a comprehensive list of cases and a full index this book will be of exceptional interest to practitioners teachers and students of constitutional and international law

New Directions in Federalism Studies Jan Erk, Wilfried Swenden, 2010-01-04 This book compares and explores different aspects and perspectives of federalism studies providing an analytical framework which transcends the sub fields and encourages contributors to look beyond their own disciplinary approaches to the topic

Immigration Policy in the Federal Republic of Germany Douglas B. Klusmeyer, Demetrios G. Papademetriou, 2009-11-01 German migration policy now stands at a major crossroad caught between a fifty year history of missed opportunities and serious new challenges Focusing on these new challenges that German policy makers face the authors both internationally recognized in this field use historical argument theoretical analysis and empirical evaluation to advance a more nuanced understanding of recent initiatives and the implications of these initiatives Their approach combines both synthesis and original research in a presentation that is not only accessible to the general educated reader but also addresses the concerns of academic scholars and policy analysts This important volume offers a comprehensive and critical examination of the history of German migration law and policy from the Federal Republic's inception in 1949 to the present

Compounded Representation in

West European Federations Joanne B. Brzinski, Thomas D. Lancaster, Christian Tuschhoff, 1999 These papers resulted from a research project entitled Federalism and Compounded Representation in Western Europe They place analytical emphasis on theoretical and contextual issues of representation and tend to analyze the complexities of representation within federal systems by focusing on issues of social identity multiple territorial bases of governance and policy making institutions such as interest groups corporatism and the European Union Specific countries examined include Germany Austria and Spain

Competitiveness and Solidarity in the European Union Paolo Chiocchetti, Frédéric Allemand, 2018-12-07 Starting in the 1980s competitive pressures and the ideology of competitiveness have shaken and transformed traditional models of development public policy and governance in Europe This edited book carries out a comprehensive interdisciplinary and innovative analysis of the relationship between competitiveness and solidarity in the contemporary European Union It offers an original contribution to the scholarly debates on the current developments and challenges of welfare states social and economic policies and forms of governance in the European Union Bringing together an international team of cutting edge scholars in the social sciences and the humanities Competitiveness and Solidarity in the European Union sheds light on the conceptual richness and policy relevance of these relationships pointing to important avenues to make the European Union more economically successful and socially fairer This book will be of key interest to scholars and students of European Union studies and more broadly of EU Law Public Policy Economics Sociology Political Science Geography and Contemporary History

Europeanisation and Party Politics Erol Kūlahci, 2012-05-01 A sophisticated theoretical framework and up to date analysis of the Europeanisation of domestic party systems and political parties policy stances This book covers a range of contemporary topics party systems policy stances of political parties opposition co operation over European integration cleavage theory of party response to European integration domestic depoliticisation and EU representation It presents a sophisticated political analysis of Europe and an exceptional amount of factual information about European countries and parties
