Receiving The Cosmic Christ:

Earthing the Cosmic Christ of Ephesians--The Universe, Trinity, and Zhiyi's Threefold Truth, Volume 2 John P. Keenan, 2022-09-09 This is volume 2 of a wide ranging interfaith reading of the Letter to the Ephesians a New Testament text whose words have inspired and enhanced Christian spiritual life and liturgy over the centuries Unfortunately at the same time Ephesians has provided apparent scriptural support to those who would defend slavery patriarchy misogyny and the physical power of Christ over the cosmos How on earth are today's Christians to receive and understand such a text as this Earthing the Cosmic Christ of Ephesians The Universe Trinity and Zhiyi's Threefold Truth draws upon a broad array of scientific theological and philosophical thinkers who enable us both to marvel at today's ever expanding knowledge of our vast cosmos and to appreciate the importance of the Ephesian letter in the canon of our Christian scriptures even while we acknowledge the archaic geocentric cosmology that underlies its claims about the cosmic Christ and reject its accommodation to the patriarchal misogynistic and slaveholding norms of its first century culture Throughout this reading of Ephesians we look to Chinese Buddhist master Zhiyi and his threefold truth to enhance our understanding of trinity and the nascent trinitarian themes within this letter As a whole this work constitutes a new appreciation for Ephesians as well as a twenty first century apologetic for doctrinal humility and for theologizing within a global theological commons

The Seven Signs in the Gospel of St John , Embodied Cross Arata Miyamoto, 2010-07-01 The cross carries the polar memories of history One memory is the terrible violence imposed on Jesus and the other is the memory of faith in the midst of the deepest abyss in human history A theology of the cross contextualizes the dangerous combination of these memories in the present reality of life and death A theology of the cross is thoroughly preoccupied with the agency of God but not in a way that deals with the systematic apologetics of the knowledge of God It deals with the knowledge of God before it becomes knowledge It is the matter of the living and dying of our life This book explores theologians of the cross in a global flow and proposes an intercontextual perspective of theology

Ascension Activation Meditations of the Spiritual Hierarchy Joshua Stone, 2001-03-18 This book is one of the most profound books ever written to help you achieve your seven levels of Initiation and Ascension These Ascension Activation Meditations are specifically designed to accelerate your Ascension process and the building of your Light Body and Light Quotient faster quicker and more efficiently than any other type of meditations you will find on earth This is because these meditations will invoke the specific help on the inner plane from the Ascended Masters and Angels to help in this process I like to call this type of Spiritual work the Rocketship to God

Ecologies of Grace Willis Jenkins, 2013-02-12 Christianity struggles to show how living on earth matters for living with God While people of faith increasingly seek practical ways to respond to the environmental crisis theology has had difficulty contextualizing the crisis and interpreting the responses In Ecologies of Grace Willis Jenkins presents a field shaping introduction to Christian

environmental ethics that offers resources for renewing theology Observing how religious environmental practices often draw on concepts of grace Jenkins maps the way Christian environmental strategies draw from traditions of salvation as they engage the problems of environmental ethics He then uses this new map to explore afresh the ecological dimensions of Christian theology Jenkins first shows how Christian ethics uniquely frames environmental issues and then how those approaches both challenge and reinhabit theological traditions He identifies three major strategies for making environmental problems intelligible to Christian moral experience Each one draws on a distinct pattern of grace as it adapts a secular approach to environmental ethics The strategies of ecojustice stewardship and ecological spirituality make environments matter for Christian experience by drawing on patterns of sanctification redemption and deification He then confronts the problems of each of these strategies through critical reappraisals of Thomas Aquinas Karl Barth and Sergei Bulgakov Each represents a soteriological tradition which Jenkins explores as an ecology of grace letting environmental questions guide investigation into how nature becomes significant for Christian experience By being particularly sensitive to the ways in which environmental problems are made intelligible to Christian moral experience Jenkins guides his readers toward a fuller understanding of Christianity and ecology He not only makes sense of the variety of Christian environmental ethics but by showing how environmental issues come to the heart of Christian experience prepares fertile ground for theological renewal

Christ Consciousness Danielle Van Dijk, 2010-04 We live in a world characterized by intolerance war environmental degradation and economic collapse By contrast is it possible to build a society in which tolerance love and peace are the abiding principles In this positive and inspiring book van Dijk shows how beginning with our personal development we can contribute to such a new and transformed world She describes how we can develop a universal spiritual consciousness what she calls Christ Consciousness The author emphasizes that the Christian mysteries took place on the physical plane distinguishing with great clarity between Jesus as a human being the incarnation of Christ on Earth and the Cosmic Christ She builds bridges between the spiritual research of Rudolf Steiner the Nag Hammadi writings and the gospels of Mary Magdalene and Judas culminating in a comprehensive and wide ranging picture of the Christ By gaining insight into the nature of Christ's being and undertaking practical exercises described here each of us can achieve the new Christ Consciousness In ancient times selected individuals underwent rites of initiation in secret mystery schools Any student who made public the knowledge obtained there was put to death In our time however the spiritual mysteries have become open and available to all Initiation van Dijk tells us involves walking the inner path to all embracing love which is known in Gnostic and esoteric lore as Christ the highest divine Being leading to sublime cosmic orientated consciousness that comes into existence when the higher self exists wholly within the individual human being **Philosophia perennis** Wilhelm Schmidt-Biggemann, 2007-11-08 The study features the five most important and most efficacious themes of Western spirituality in their ancient historical origins and in their unfolding up to early modernity Divine names Microkosmos

Mary's Message of Divine Love Mark L. Prophet,Elizabeth Clare Prophet,2004 In the twentieth century alone more than two hundred appearances of Mary the Mother of Jesus have been reported in over thirty countries Some claim Mary has appeared to them as they pray Others say they have watched her statues weep or have seen her images on walls or windows And some tell us that Mary has revealed to them urgent prophecies and secrets Mary has entrusted her messages to unlikely ambassadors not prelates or popes presidents or politicians but children and simple folk innocent ones who could receive her messages in humility and convey them with undiluted simplicity For forty years Mother Mary gave messages through Mark and Elizabeth Prophet to comfort and enlighten spiritual seekers of all paths This groundbreaking book records Mary's precious messages of wisdom hope and love to a troubled world It also includes the text of five nondenominational rosaries one for each evening Monday through Friday Exotheology Joel L. Parkyn,2021-08-31 Speculation regarding the plurality of worlds and the existence of intelligent extraterrestrials has remained an important question for Christian theology from antiquity until modernity Advancements in space science now reveal a vast universe containing trillions of galaxies and new discoveries of exoplanets providing an unprecedented greater context and perspective in consideration of the place of humanity possible intelligent extraterrestrials and the role of divinity in relation to creatures These scientific discoveries have increased the importance of understanding the relation of extraterrestrials to the Christian doctrines of the incarnation and redemption An examination of the history of developments in scientific and theological thought on extraterrestrials from antiquity to the twenty first century will demonstrate a consistent pattern of theological formulations of extraterrestrials and their relation to Christian theology however without sufficient resolution En route this book explores ideas of extraterrestrial anthropology psychology morphological possibilities sociological compositions extraterrestrial religions implications of contact and argues for a divine pedagogy of potential modalities of supernatural presence and action with extraterrestrial intelligences **The Ascended Masters on Soul Mates and Twin Flames** Elizabeth Clare Prophet,Mark L. Worship and the New

Cosmology Catherine Vincie, 2014 What is the Christian response to developments in the hard sciences What do discoveries at the macro and micro levels have to say about Christian theology about a theology of God Christology pneumatology and creation How do the developments in systematic theology that do take the advances in cosmology and the New Sciences seriously come to bear on our worship life These are the questions that are addressed in this text It is an initial effort to bring cosmology and the New Sciences into dialogue with developments in systematic and sacramental theology This book also suggests some ways in which these developments might appear in our worship Overall the author is concerned to reduce the cognitive dissonance between our scientifically informed everyday lives and our life of faith

Meditation Sergei O. Prokofieff, 2006 Meditative reflection strengthening thinking and feeling through the will is one of the main methods of experiencing Anthroposophy Prokofieff writes The best path to this goal is inner work with the Foundation Stone Meditation because this meditation is the quintessence of the whole of Anthroposophy given in meditatively inspired form by means of earthly words Rudolf Steiner described the substance of the Foundation Stone Meditation as spoken by him out of the will of the spiritual world and as verses heard from the Cosmic Word Owing to its spiritual and mantric form the text of this meditation represents an archetype and is thus a key to the most diverse areas of world and human existence Depending on which spiritual portal is opened with this key explains Prokofieff one arrives at one result or another and one and the same line of the meditation becomes a reply to the most varied questions The author applies this method in this work and in the process illuminates and opens up many dimensions of spiritual science His research embraces among other aspects the relationship of the Foundation Stone Meditation to the being Anthroposophia the spiritual hierarchies human karma the Rosicrucian Michaelic and Grail streams the Mystery of Golgotha the two Jesus children the three spiritual sources of Anthroposophy and even the Constitution of the General Anthroposophical Society

The Appearance of Christ in the

Etheric Sergei O. Prokofieff, 2012 Dedicated to the centenary of Rudolf Steiner's first proclamation of Christ's appearance in the etheric realm of the Earth this book discusses various aspects of that event that had not previously been addressed adequately Sergei Prokofieff points to three themes of primary importance all of which are connected directly with the tasks of the Society that Rudolf Steiner founded The preparation of humankind for the Second Coming Working with Christ as the Lord of Karma Recognizing in Anthroposophy the spiritual language through which questions can be posed to the etheric Christ today Prokofieff describes these and other critical undertakings such as forging a strong relationship with Michael and the importance of recognizing the adversarial forces attempting to falsify Christ's Second Coming The Appearance of Christ in the Etheric is of relevance to every individual who wishes to take an active role in fulfilling the needs of our time
