The configuration of Volume 9 of the International Treatise Series has been done absolutely due to commendable contributions from World Scientists of eminence in unambiguous fields. Amazingly within the time span of nine years now this treatise has been duly recognized through 151 Web of Knowledge Current Contents in the hearts of distinguished readers and has beyond doubt achieved the international status. This programme has been undertaken with a view to reinforce the identical efforts to recognize the outcome of meticulous research in some of the very sensible and stirring areas of Molecular Physiology, Biology of Plants. In order to sustain and further advance Plant Physiology, it is dedicated to continue the originality and the introduction of spanking new ideas ensure that the treatise welcomes the best science done across the full extent of modern plant biology in general and plant physiology in particular. Persevere on advancing the quality of what is published place high value on the quality of production and be highly attentive and responsive to the rapidly changing face of academic publishing. In spite of handiness of quick accessibility of vast literature from internet, this treatise series in the field of life sciences has been realized over and above to be like a true guide, friend and philosopher everlastingly enlightening the most hidden perceptible nerves of an individual worker which is beyond the competence of mere web service. In Volume 9 with inventive applied research attempts have been made to bring together much needed twenty review articles by forty-six contributors from Australia, Belgium, France, Germany, India, Italy, and Spain, dispersed, duly evaluated by the respective Consulting Editors of international stature from India, U K, U S A, Argentina, Australia, France, Germany, Japan, Spain, Portugal, Israel, and Morocco and rationally disseminated in Nine Sections. Creditably in this volume over ten important reviews belong to the field of Environmental Stresses, besides covering significant areas of research. In reality the treatise is prosperity for interdisciplinary exchange of information. Apart from fulfilling the firm need of this kind of exclusive edition in different volumes for research teams and scientists engaged in various facets of research in Molecular Physiology and Biology of Plants in traditional and agricultural universities, institutes and research laboratories throughout the world, it would be extremely a constructive book and a voluminous reference material for acquiring advanced knowledge by post graduate and Ph D scholars in response to the innovative courses in Plant Physiology, Plant Biochemistry, Plant Molecular Biology, Plant Biotechnology, Environmental Sciences, Plant Pathology, Microbiology, Soil Science, Agricultural chemistry, Agronomy, Horticulture and Botany.

Hemantaranjan,2012-08-01 The plant physiology and plant molecular biology research group has evidently endorsed the new directions taken by the treatise to attract the pre eminent scientists in plant biology plant sciences Certainly the preparation of Volume 13 of the International Treatise Series on Advances in Plant Physiology has been done entirely due to commendable contributions from Scientists of Eminence in unequivocal fields Unquestionably our objective is to publish innovative science of value across the broad disciplinary range of the treatise I restate that this plan has been undertaken with a view to strengthen the indistinguishable efforts to

recognize the outcome of meticulous research in some of the very sensible and stirring areas of Plant Physiology Plant Molecular Physiology Biology Plant Biochemistry for holistic development of the science of agriculture and crop production under changing climate I am ardent to keep on the exceptionality and the prologue of excellent new ideas ensuring that the treatise calls to the best science done across the full extent of modern plant biology in general and plant physiology in particular In Volume 13 with inventive applied research attempts have been made to bring together much needed eighteen review articles by forty eight contributors especially from premier institutions of India for this volume All the eighteen review articles have been grouped in five broad sections which on the whole highlight the necessity to find out evidence from the fields of plant nutriophysiology physiology of plant mineral nutrients and abiotic stresses under changing climate along with their control

Advances in Plant Physiology Vol. 18 A. Hemantaranjan, 2019-08-06 The reinforcement of Volume 18 of the Advances in Plant Physiology Series has been entirely due to commendable contributions by Scientists of Eminence in explicit fields The enterprise of publishing the International Treatise Series on Plant Physiology has to genuinely sort out the scantiness of consequential researches which are sincerely required for rising productivity prosperity and sustainability of agriculture through prominently emerging technologies for reformation in metabolic boundaries necessitates mainly for abiotic stress factors Unquestionably our thought is to be familiar with ground breaking science of value across the broad punitive range of the treatise The aspiration is to make stronger the vital outcome of conscientious research in some of the very responsive areas of Plant Physiology Plant Molecular Physiology Biology that broadly focus upon the advancements coupled with underlying mechanisms of plant tolerance under changing environments The Volume 18 with innovative applied research brings jointly much needed nineteen review articles by over fifty committed contributors for this volume The Volume 18 exclusively deals with challenges of continuing worldwide concern over the stress physiology research Conversely this volume also highlights trace elements plant functional research physiological basis of yield variation medicinal and aromatic plants
