The New International Encyclopædia Frank Moore Colby, Talcott Williams, 1917 Hunting for Empire Greg Gillespie, 2011-11-01 Hunting for Empire offers a fresh cultural history of sport and imperialism Greg Gillespie integrates critical perspectives from cultural studies literary criticism and cultural geography to analyze the themes of authorship sport science and nature In doing so he produces a unique theoretical lens through which to study nineteenth century British big game hunting and exploration narratives from the western interior of Rupert's Land Sharply written and evocatively illustrated Hunting for Empire will appeal to students and scholars of culture sport geography and history and to general readers interested in stories of hunting empire and the Canadian wilderness **The Geographical Journal** , 1925 Includes the Proceedings of the Royal geographical society formerly pub separately **Illustrated Sporting & Dramatic News** , 1907 **The Wilderness of the Upper Yukon** Charles Sheldon, 1911 Class List , 1910 **Frederick Selous** Frederick Selous, 2000-01-01 A must purchase for all lovers of Selous This second book on Selous edited by Africana expert Dr James Casada completes the work on the lost writings by Selous begun in Africa's Greatest Hunter Read Selous's incomparable descriptions of African game from antelope to elephant and his descriptions of hunting caribou in Newfoundland Though Selous spent years hunting alone in Africa he always retained his gift for friendship In the second part of this volume some of Selous's friends shed light on the great hunter Included are essays by Theodore Roosevelt and the great journalist W T Stead who gives a fascinating analysis of Selous's entire life Also included is an article published in 1896 in the Daily News that was written by a pushy journalist who hopped into a hansom cab occupied by Selous The revealing conversation the journalist recorded as the two rode together through London is not to be missed You will marvel at how the writings collected in this volume make Selous seem like flesh and blood As in the other Selous book by Safari Press this volume is extensively annotated by Dr James Casada with comments and biographical notes *Monthly Bulletin. New Series* St. Louis Public Library, 1909 *Hunting Big Game* Townsend Whelen, 2018-03-28 Here are the most exciting big game hunting yarns ever written about Africa and Asia Ten superb stories on hunting lions elephants tigers buffaloes leopards and sheep with

chapters on big game rifles equipment and knives The authors are Selous Baker Kirby Neumann and Litledale the most expert and fearless hunters ever to track big game Townsend Whelen himself a famous hunter has been collecting these stories for years His selections are the best and most exciting accounts of absolutely accurate true adventures All these stories are now buried in works out of print or in limited editions unavailable to the hunting enthusiast These tales open an almost entirely unknown world of sport that of hunting man killing big game alone without the vast equipment and caravans used by modern organized hunters and explorers The authors tracked in unexplored countries living and surviving and earning a livelihood by the rifle alone The comments of the writers on the technical sides of their rifles ammunition and equipment are extremely valuable to all hunters Townsend Whelen s forewords to each chapter and his comments on the equipment and methods of the hunters add immeasurably to the quality of this unique collection These anthologies make fascinating reading for the practical hunter or the armchair outdoorsman Whelen has dug deeply into the literature of hunting and has selected what in his expert opinion are the best big game hunting stories of all times They have been chosen with two points in mind first for extreme readability and adventure and second for the technical hunting information in them All the stories rank high on both sides

The Culture of Hunting in Canada Jean L. Manore, Dale Miner, 2011-11-01 The Culture of Hunting in Canada is about a pivotal but little studied aspect of Canadian history culture and society It covers elements of the history of hunting from the pre colonial period until the present in all parts of Canada featuring essays by practitioners and scholars of hunting and by pro and anti hunting lobbyists The result crosses the boundaries between scholarship and personal reflection and between academia and advocacy The essays collected here address important historical and contemporary issues regarding the culture and practice of hunting Topics include hunting identities conservation and its relationship to hunting tensions between hunters and non hunters and between Aboriginal and non Aboriginal hunting groups hunting ethics debates over hunting practices and regulations animal rights and gun control The discussion involves consideration of the social political and economic context as well as class and racial tensions between sport hunters and subsistence hunters The Culture of Hunting in Canada makes an unprecedented contribution to the study of hunting in Canada and its role in our culture It will appeal to sociologists anthropologists and historians of hunting culture wildlife biologists natural resource managers and environmentalists and not least hunters and anyone interested in the culture of hunting

The Hunter Elite Tara Kathleen Kelly, 2018-03-15 At the end of the nineteenth century Theodore Roosevelt T S Van Dyke and other elite men began describing their big game hunting as manly sport with the rifle They also began writing about their experiences publishing hundreds of narratives of hunting and adventure in the popular press and creating a new literary genre in the process But why did so many of these big game hunters publish What was writing actually doing for them and what did it do for readers In exploring these questions The Hunter Elite reveals new connections among hunting narratives publishing and the American conservation movement Beginning in the 1880s these prolific hunter

writers told readers that big game hunting was a test of self restraint and manly virtues and that it was not about violence They also opposed their sportsmanlike hunting to the slaughtering of game by British imperialists even as they hunted across North America and throughout the British Empire Their references to Americanism and manliness appealed to traditional values but they used very modern publishing technologies to sell their stories and by 1900 they were reaching hundreds of thousands of readers every month When hunter writers took up conservation as a cause they used that reach to rally popular support for the national parks and for legislation that restricted hunting in the US Canada and Newfoundland The Hunter Elite is the first book to explore both the international nature of American hunting during this period and the essential contributions of hunting narratives and the publishing industry to the North American conservation movement Forest and Stream ,1908 Journal of the Royal Colonial Institute Royal Colonial Institute (Great Britain),1906
