Medrano,Susan Kellog,2011-05-18 Negotiation within Domination examines the formation of colonial governance in New
Spain through interactions between indigenous peoples and representatives of the Spanish Crown The book highlights the
complexity of native negotiation and mediation with colonial rule across time culture and place and how it shaped colonial
political and legal structures from the sixteenth to the eighteenth centuries Although indigenous communities reacted to
Spanish presence with significant acts of resistance and rebellion they also turned to negotiation to deal with conflicts and
ameliorate the consequences of colonial rule This affected not only the development of legal systems in New Spain and
Mexico but also the survival and continuation of traditional cultures Bringing together work by Mexican and North American
historians this collection is a crucially important and rare contribution to the field Negotiation within Domination is a
valuable resource for native peoples as they seek to redefine and revitalize their identities and assert their rights relating to
language and religion ownership of lands and natural resources rights of self determination and self government and
protection of cultural and intellectual property It will be of interest primarily to specialists in the field of colonial studies and
